HISTORIAN'S OFFICE LIBRARY

The Church of Jesus Christ of Latter-day Saints

INTRODUCTION.

IN presenting a second volume of this kind to the people of Utah, and those interested in its progress, the compiler may be allowed to say, that though errors may be found in it, every care has been taken to make this Gazeteer and Directory as reliable as possible. He acknowledges the uniform courtesy extended, and the promptness with which information was kindly furnished from all parts of the Territory; and begs to tender his thanks to those who thus assisted him, whose names would extend to a too lengthy list for publication.

SKETCH OF MORMONISM.

JOSEPH SMITH, the founder of the organization, was born in Sharon, Windsor county, Vermont, December 23d, 1805. His father's name was Joseph and his mother's Lucy; and their family consisted of six sons and three daughters, of whom the future prophet was the third son. When he was in his fourteenth year his father moved to Manchester, Ontario county, New York, having previously resided four years in Palmyra in the same county. While in Manchester, and during a religious revival, he was, as he states in his autobiography, the subject of religious impressions; during which, while praying in the woods one day, he had the first vision,—two glorious personages appearing to him, who communed with him. Some three and a half years afterwards, on the 21st of September, 1823, he had a second vision, and received a communication relative to the plates upon which the Book of Mormon was inscribed. These plates, his history states, he obtained possession of on the 22d of September, 1827, from the place of their deposit, on the west side of a hill convenient to Manchester, the village where he resided. The plates were enclosed in a box, covered with a stone, and had been there for some 1,400 years, having been buried by an ancient inhabitant of this continent named Moroni. The characters on them had been principally inscribed by Mormon; hence the title of the work.

Being poor, and with the work of translating the records before him, in his exigencies he obtained assistance from a gentleman named Martin Harris; and in April, 1829, he made the acquaintance of Oliver Cowdery, a school teacher, who became his amanuensis, and the work of translating

commenced immediately. The Book of Mormon was put in the hands of the printers; but before it was published a church was organized on the 6th day of April, 1830, in the house of Mr. Peter Whitmer, Fayette, Seneca county, New York. Thus the Empire State not only produced the plates from which the book was translated, but can claim the honor of the organization of that society which is the greatest problem of the century. Six members composed this church on its organization—a small beginning for the thousands into which it has grown, and the power and influence acquired in the short space of forty odd years. The Book of Mormon was published, preaching and proselytizing were prosecuted with vigor, though the missionaries of the new faith were mostly uneducated, and churches were raised up in a number of places in a few months.

Early in 1831, a settlement was made at Kirtland, Ohio, and this may be called the first “gathering place” of the church—a central point towards which all who received the faith should converge. In July of the same year a lot was selected, and dedicated for a Temple, at Independence, Jackson county, Missouri. Here a printing press was set in operation, and a periodical, the *Evening and Morning Star*, was published by Judge W. W. Phelps. Trouble broke out at Independence, between the settlers of the new faith and others inhabiting that region, and a mob tore down the printing office, tarred and feathered some of the prominent Mormons, abused others, and inflicted losses on the fraternity, in the destruction of property, to a very large amount. The Mormons were obliged to leave, and most of them fled into and settled in Clay county, in the same State. The Jackson county mob influenced the citizens of Clay county, and after a time the refugees had again to leave, this time settling in unoccupied territory, which received the name of Caldwell county, as well as in Davis and other adjacent counties, in Missouri. In three years they made wonderful improvements in their new location, for industry has ever been a prominent characteristic of the organization. At this

time they were viewed with suspicion by many pro-slavery citizens there, who classed them as abolitionists, many of them having come from States where the abolition theory was gaining ground. For this cause, and because their industrious habits conflicted with the dissipated customs of a class always too well known in frontier settlements, as well as for religious reasons, troubles again broke out, and the entire Mormon community was compelled to leave the State. Their next settlement was at Commerce, Hancock county, Illinois, where, in a short time, they built the city of Nauvoo, which was duly chartered by the State Legislature. They had built a temple at Kirtland, which was an immense effort in its size and costliness for so small and poor a body of people as they then were. But in Nauvoo one was commenced on a scale proportionately greater, to correspond with their increased numbers, wealth and importance. This they finished; but before it was completed, their Prophet, Joseph Smith, and his brother Hyrum Smith, the Patriarch of the Church, were murdered in Carthage, where they were imprisoned on a charge of treason. The Missouri enemies of the prophet and his followers had never ceased their efforts against him and his people, preferring charge after charge, which were disposed of by the courts, he always obtaining an acquittal; until this last charge, when the mob would not wait for the result of a trial, but shot him and his brother dead while in prison under guard, wounding at the same time Elder John Taylor, one of the Twelve Apostles. They held Governor Ford's pledge for their safety at the time. This was on the 27th of June, 1844.

Soon after the Mormons were compelled to leave Illinois, and took up their line of march in February, 1846, for the then almost unknown west. That Fall and Winter the main body of the refugee Saints located in the neighborhood of the Missouri River, near what is now Council Bluffs and Omaha, where temporary settlements were formed. Next Spring, President Brigham Young started westward with 143 pioneers, broke a road, forded streams and built bridges

150 from the Missouri over the great plains and through the Rocky Mountains, arriving in Salt Lake Valley on the 21st of July, 1847. As soon after as possible the main body followed, a provisional State government was formed, gentlemen were sent to Washington to represent the new colony; and in 1849 a Territorial government was granted to them for the Territory of Utah. Since that time they have prospered exceedingly; their cities, towns and settlements number about two hundred, with a population of nearly 150,000 souls. Besides these there are branches of the Church in many parts of the United States; and in Europe the communicants of the faith number nearly 20,000. Their missionary efforts have been directed to every country where religious toleration would permit them to carry and disseminate their views. Most European and some Asiatic nations, as well as Australia and several of the Pacific Islands, have given proselytes to the faith; and almost all the old members of the Church are native born citizens of the Union, which still adds largely to the believers in the Latter-day dispensation.

The Church is organized with a First Presidency; a Council of Twelve Apostles; a Patriarch; a quorum of High Priests of indefinite number; sixty-four quorums of Seventies; an Elders' Quorum; a Presidency of three and a High Council for each Stake of Zion; a Presiding Bishop for the Church with two Counselors; a Bishop for each Ward; a Priests' quorum; a Teachers' quorum; and a Deacons' quorum.

The present authorities of the Church are:—BRIGHAM YOUNG, President; with George A. Smith, Daniel H. Wells, Lorenzo Snow, Brigham Young, Jr., Albert Carrington, John W. Young, Geo. Q. Cannon, as Counselors. Orson Hyde, President of the Quorum of the Twelve Apostles, and Orson Pratt, Sen., John Taylor, Wilford Woodruff, Chas. C. Rich, Lorenzo Snow, Erastus Snow, Franklin D. Richards, George Q. Cannon, Brigham Young, Jr., Joseph F. Smith, and Albert Carrington, members; John Smith,

Patriarch. Elias Smith, President of the High Priests' Quorum; Edward Snelgrove and Elias Morris, Counselors. Joseph Young, President of the first seven Presidents of the Seventies, and Levi W. Hancock, Henry Herriman, Albert P. Rockwood, Horace S. Eldredge, Jacob Gates and John Van Cott, members of the first seven Presidents of the Seventies. Edward Hunter, Presiding Bishop; Leonard W. Hardy and Jesse C. Little, Counselors. Albert Carrington, Historian and General Church Recorder, and Wilford Woodruff, assistant.

CHRONOLOGICAL EVENTS OF UTAH.

1847. July 24.—Pioneers, numbering 143 men, enter Salt Lake Valley, having left the Missouri river April 14th. The day of their arrival they commenced plowing and planting potatoes. A thunder shower wet the ground slightly in the afternoon.

July 29.—A portion of the "Mormon Battalion," numbering about 150, under command of Captain Brown, arrive, having come from Pueblo to Fort Laramie, and thence west. They were accompanied by a party of immigrants from the State of Mississippi.

July 31.—Great Salt Lake City laid out in square blocks of ten acres each, eight lots to the block, and streets eight rods wide, running at right angles. Latitude of northern boundary of Temple block, ascertained by meridian observations of the sun by Prof. Orson Pratt, Sr., 40 deg., 45 min., 44 sec. Longitude, obtained by lunar distances, taken by the sextant and circle, 111 deg., 26 min., 34 sec., west of Greenwich. Altitude above sea level, 4,300 feet.

August 25.—President Brigham Young and about seventy of the pioneers start east for "winter quarters" on the Missouri river, to assist their immigration forward.

August 26.—The colonists had laid off a fort, built twenty-seven log houses, plowed and planted eighty-four acres with corn, potatoes, beans, buckwheat, turnips, etc., and had manufactured 125 bushels of salt.

1848. May 31.—President Brigham Young organizes the immigrants of the faith coming west, at Winter Quarters, into companies for the journey. They numbered 1,891 souls, with 623 wagons.

August 9.—Great Salt Lake City fort contains 450 buildings, with three saw-mills and a flouring mill in the city, and others in course of construction.

August 10.—Feast given in Great Salt Lake City to celebrate the first harvest gathered in the Great Basin.

September 20.—President Young arrives with his company. Davis and Weber counties settled.

1849. February 5.—Mercury 33 deg. below zero in Great Salt Lake City.

March 8.—Memorial sent to Congress for a State Government.

March 9.—Election held under the Provisional Government of the State of Deseret. Brigham Young elected Governor; Willard Richards, Secretary of State; N. K. Whitney, Treasurer; H. C. Kimball, Chief Justice; John Taylor and N. K. Whitney, Associate Justices; Daniel H. Wells, Attorney General; Horace S. Eldredge, Marshal; Albert Carrington, Assessor and Collector of Taxes; and Joseph L. Heywood, Surveyor of Highways, etc. Magistrates were also elected.

May 27.—Parties from the east *en route* for the California gold mines first arrive.

August 28.—Captain H. Stansbury arrives to commence his survey.

October 6.—Perpetual Emigration Company organized.

Utah, Tooele, and Sanpete counties settled. First Indian war.

Deseret Dramatic Association organized. Robert Campbell, President. Re-organized again in 1850.

1850. February 22.—Earthquake shock felt in Great Salt Lake Valley.

June 15.—*Deseret News* published.

July 4.—Parley's cañon opened for travel under the name of "The Golden Pass."

August 28.—Captain Stansbury completes his survey.

September 9.—Act of Congress, organizing Utah Territory, approved.

Ogden City located.

October.—Brigham Young appointed Governor of Utah Territory.

December 8.—“Thirty families left Salt Lake city, including 118 men, with 600 head of stock and 101 wagons, led by Elder George A. Smith, and in January following arrived at and settled the county of Iron, by building a fort at Parowan.”

Council House ready for occupation this fall.

1851. January 3.—First criminal trial by jury held in the provisional State of Deseret.

January 11.—Great Salt Lake City incorporated, Jedediah Morgan Grant, first Mayor.

Charters granted to Ogden, Provo, Manti and Parowan cities.

October 29.—Fillmore City located as the seat of government for, and the capital of, Utah Territory.

Millard, Box Elder and Carson counties settled.

1852. January 16.—Tabernacle, capable of seating nearly 3,000 persons, finished.

February 14.—Territorial Legislature memorialize Congress for a Pacific railroad and telegraph line.

July 27.—Thermometer 127 deg. in the sun in Great Salt Lake City.

September 3.—First company of P. E. Fund immigrants arrive from Europe with thirty-one wagons, A. O. Smoot, captain; met by the First Presidency, Captain Wm. Pitt's band, and many leading citizens.

September 4.—Treaty made with the chiefs of the Utes and Shoshones in Great Salt Lake City.

Juab and Washington counties settled; the latter in the spring and the former in the fall.

Post offices established at American Fork, Springville and Payson, Utah county; Salt Creek (Nephi), Juab county; and Fillmore City, Millard county.

1853. February 14.—The ground for the Temple, in Temple Block, consecrated.

April 6.—Corner stones of Temple laid.

August 29.—Resolution adopted by city council, in compliance with expressed request of the inhabitants, to build a Spanish wall around Great Salt Lake City. The wall was twelve feet high; six feet thick at base, tapering to two feet and six inches, six feet from the ground, and preserving that thickness to the top. It was about nine miles in length.

September 26.—Captain J. W. Gunnison, U. S. Topographical Engineers, and seven men, killed by Indians near the swamps of the Sevier, twenty miles from the Sevier river, in revenge for killing an Indian and the wounding of two others by a company of immigrants for California.

Second Indian war.

Social Hall erected.

Summit and Green River counties settled.

1854. January 7th.—John C. Fremont with nine whites and twelve Delaware Indians, arrived at Parowan in a state of starvation. One man had fallen dead from his horse near the settlement, and others were nearly dead. Animals and provisions were supplied, and after resting to the 20th, they departed.

March 11.—Dr. Willard Richards, second Counselor to President Young, and editor of the *Deseret News*, died.

May 23.—Patriarch John Smith died.

April 7.—Jedediah M. Grant chosen Counselor in place of Willard Richards.

July.—Grasshoppers make their appearance and do much damage.

Deseret alphabet produced.

Seventies' Hall built.

1855. January 1.—Iron made by the Deseret Iron Company.

January 20.—Walker, the celebrated Utah Chief, died at Meadow Creek.

July 1.—Molasses made from beet at the sugar factory.

September.—Deseret Horticultural Society organized.

Various societies organized during the early part of the

year, among which, and most prominent, were the "Universal Scientific Society," the "Polysophical Society," "Deseret Philharmonic Society," and "Deseret Typographical Association."

Grasshoppers do serious damage to crops, destroying nearly everything green in many parts of the Territory.

Morgan county settled.

1856. January 26.—Express carrying company organized to carry express from Missouri River to California, and shares taken to stock a thousand miles of the road at a mass meeting held in Great Salt Lake City.

March 17.—Convention met in Great Salt Lake City to prepare constitution and memorial to Congress for admission as a State.

March 27.—Constitution and memorial adopted; George A. Smith and John Taylor elected Delegates to present them to Congress.

September 26.—First hand-cart companies arrive under charge of Captains Edmund Ellsworth and D. D. McArthur. They were met by the First Presidency of the Church, a brass band, a company of lancers, and a large concourse of influential citizens.

December 1.—Jedediah M. Grant died.

December 8.—Legislature met in Fillmore, organized and adjourned to Great Salt Lake City.

December 18.—Legislature met in the Social Hall, Great Salt Lake City.

Beaver and Cache counties settled.

1857. January 4.—Daniel H. Wells chosen second Counselor to President B. Young, in the place of J. M. Grant.

April 23.—A company of about seventy missionaries start and cross the plains east with hand carts, making the trip in forty-eight days.

July 11.—Alfred Cumming of Georgia appointed Governor of Utah.

July 24.—Judge Stoddard arrives without the mails, the Postmaster at Independence having received orders not to

forward them. General Harney, with two thousand infantry and a proportionate number of artillery and cavalry, ordered to Utah.

August 7.—First part of the “Army of Utah,” consisting of the Tenth Infantry and Phelps’ Battery, arrive at Fort Kearney.

1858. March 21.—The citizens of Great Salt Lake City, and the settlements north of it agree to abandon their homes and go south, all the information derived from eastern papers being that the approaching formidable army was sent to destroy them. Destination, when starting, supposed to be Sonora.

April 10.—Governor A. Cumming and Col. T. L. Kane, with a servant each, having left the “Army of Utah” to proceed to Salt Lake City, arrive with an escort of Mormons with whom they had accidentally met on the way.

April 15.—Governor Cumming reports having arrived and been treated everywhere “with respectful attention.”

April 19.—Governor Cumming and Col. Kane visit the Utah library, where J. W. Cummings showed them the records and seal of the U. S. District Court, said to have been burnt up, which was one of the reasons why the army was ordered to Utah.

June 7.—Powell and McCullough, Peace Commissioners, arrive in Great Salt Lake City.

Kane county settled.

1860. April 7.—George Q. Cannon chosen one of the Twelve Apostles.

1861. April 23.—Two hundred wagons, with four yoke of cattle each, carrying about 15,000 lbs. of flour, started for the Missouri river to bring on the poor of the immigration.

October 18.—First telegram crosses the overland wire, from Utah, sent to President Abraham Lincoln by President Brigham Young.

October 24.—First telegram sent to San Francisco by President Brigham Young.

1862. January 22. — Constitution again adopted, with memorial for admission of Utah as a State, with the name of "Deseret." George Q. Cannon and W. H. Hooper elected to present them to Congress.

March 6. — Salt Lake Theatre dedicated.

May 21. — Two hundred and sixty-two wagons, 293 teamsters, 2,880 oxen, carrying 143,315 lbs. of flour, sent from Utah to assist the poor of the immigration across the plains and mountains.

December 10. — Governor Harding delivers his annual message, extra copies of which the Legislature will not publish, viewing it as insulting.

1863. January 29. — Col. P. E. Connor attacks a band of Shoshone Indians in a ravine near Bear river, and defeats them. Known as Bear river battle.

March 22. — Overland mail, with four passengers, attacked by Indians near Eight Mile Station, Tooele county. Driver killed and one passenger wounded. Judge Mott, who was in the coach, took the reins, drove for life, and escaped.

April 5. — Battle of Spanish Fork cañon, between 140 cavalry (C. V.), under Col. G. S. Evans, and 200 Indians. Lieut. F. A. Teale was killed. The Indians were defeated.

May 18. — 384 wagons, 488 teamsters, 3,604 oxen, taking 225,969 lbs. flour, start to assist the poor of the immigration. 4,300 lbs. of Utah grown cotton sent East for sale with the teams dispatched to assist the immigration.

Rich and Wasatch counties settled.

1864. July 4. — *Daily Telegraph* issued; T. B. H. Stenhouse, proprietor and editor; semi-weekly, issued Oct. 8, same year.

1865. January. — Sevier and Piute counties organized.

April 10. — Proposition made to build a telegraph line in Utah.

June 5. — Treaty made by Col. O. H. Irish with the principal chiefs in the Territory, at Spanish Fork, Reservation Farm.

- June 8.—Hon. Schuyler Colfax and party arrive.
- June 11.—Colfax and party address the citizens in front of the Salt Lake House.
- June 13.—Governor Doty died.
- July 24.—Hon. J. M. Ashley addresses an audience in the Bowery, at the celebration on the territorial anniversary.
- October.—First issue of the *Deseret News*, semi-weekly.
- November.—First Hebrew marriage celebrated in Salt Lake city.
1866. May 31.—First circumcision of Hebrew child in Salt Lake city.
- June 11.—Indian war. General Wells and militia start for Sanpete to protect the settlements there.
1867. March 21.—Deseret Telegraph Company organized.
- July 19.—Grasshoppers arrive in vast quantities.
- October 6.—First conference held in new Tabernacle.
- November 21.—*Deseret Evening News* issued.
1868. January 29.—Act approved changing the names of Great Salt Lake city and county to Salt Lake city and Salt Lake county.
- June.—Union Iron Company commence operations at Pinto, Iron county.
- June 19.—Ground broken on the U. P. R. R. in Weber cañon.
- June 22.—Heber C. Kimball, First Counselor to President Young, died.
- Grasshoppers destroy a large portion of the crops in the Territory.
- October 6.—George A. Smith chosen First Counselor in place of Heber C. Kimball.
1869. January.—First General Directory of Salt Lake city compiled by E. L. Sloan.
- February.—Coöperative merchandising introduced in Utah by President Brigham Young.
- May 10.—Completion of the great Pacific Railroad; last rail laid and last spike driven at Promontory, Utah.

May 17.— Ground broken at Ogden for the Utah Central Railroad.

July 25.— First shipment of Utah ore, being ten tons from the Monitor and Magnet mine, Little Cottonwood, shipped by Woodhull Bros. to T. H. Selby, San Francisco, \$32.50 per ton being paid for freighting it to Uintah on the Union Pacific Railroad.

July 31.— Woodhull Bros. make the first shipment of Utah copper ore, ten tons, from the Kingston mine, Bingham cañon.

August.— Grasshoppers destroy a large portion of the growing crops in Cache, Washington, Kane, and Iron counties; other parts of the Territory escape the visitation and gather abundant crops.

Mormon immigration from Europe this season about 3,000.

October 8.— A hundred and ninety Mormon missionaries called at the General Conference in Salt Lake City to go to the different States of the Union and preach.

1870. January 1.— *Weekly Tribune* newspaper issued.

January 10.— Last rail of the Utah Central Railroad laid and last spike driven, at Salt Lake City, by President Brigham Young, in presence of 15,000 people.

January 12.— Woodhull Bros. ship the first car-load of ore over the Utah Central Railroad.

January 13.— Large mass meeting of and speeches by Mormon women, in the Old Tabernacle, Salt Lake City, to protest against the passage of the Cullom anti-polygamy bill.

February 12.— Woman suffrage bill, passed by the Utah Legislature, is approved by Acting Governor S. A. Mann, and becomes law.

March 29.— J. Wilson Shaffer, recently appointed Governor of Utah, arrives.

June 5.— First issue of the Salt Lake *Daily Herald*.

July.— S. A. Mann, Secretary, and C. C. Wilson, Chief Justice of Utah, removed by President Grant, Jas. B.

Dunford & Sons, Wholesale & Retail Dealers in Hats and Caps

McKean being appointed Chief Justice, and Vernon H. Vaughn, Secretary.

August 12.—Discussion on polygamy between Rev. J. P. Newman, Chaplain of the United States Senate, and Elder Orson Pratt, of the Mormon Twelve Apostles, commences in the New Tabernacle in Salt Lake City and continues three days.

September 1.—First issue of the Salt Lake *Herald*, semi-weekly edition.

September 15.—Governor Shaffer issues a proclamation forbidding the assembling of any body of armed men for drill as militia. The militia had been organized and had drilled regularly for eighteen years previously.

September 20.—First run of crude bullion at the first smelting works built in Utah, erected six miles south of Salt Lake by Woodhull Brothers.

October 3.—Governor Shaffer dies and is succeeded by Vernon H. Vaughn.

1871. February 17.—Governor George L. Woods, appointed to succeed Governor Vaughn, arrives.

April 15.—First issue of the *Daily Tribune*.

May 1.—Ground broken for the Utah Southern railroad.

June 1.—Seventieth birthday of President Brigham Young.

June 13.—Great Methodist Camp Meeting; closed on the 18th.

July 3.—Militia forbidden to celebrate the national anniversary of independence, by proclamation of Acting-Governor Black. *proclamation June 30*

July 20.—Pioneer Mill, Ophir mining district — the first stamp mill erected in Utah — commenced running; Walker Bro's, proprietors.

Type foundry started in connection with the *Deseret News* office.

First Utah edition — 2,500 copies — of the Book of Mormon printed.

October 2.—President Brigham Young and others arrested

Dunford & Sons, Wholesale and Retail Dealers, Ladies' Furs.

on indictments charging them with lascivious cohabitation with their polygamous wives.

October 28.—Daniel H. Wells, Mayor of Salt Lake City, arrested, charged with murder, on the testimony of the outlaw Bill Hickman.

November 27.—Summit county Railroad Company organized.

1872. January 31.—Concurrent resolution passed the Legislative Assembly for the election of delegates to a Convention to adopt a State Constitution.

Salt Lake City Street Railroad Company organized.

March 2.—The Constitutional Convention adopt a Constitution and a Memorial to Congress, asking for the admission of Utah into the Union as a State.

March 18. — Vote taken on adopting the Constitution, and sending the Memorial for Statehood to Congress: "For the Constitution," 25,324; "Against the Constitution," 368. Frank Fuller elected Representative in Congress in the event of admission.

April 6. — W. H. Hooper and Thomas Fitch elected United States Senators from the proposed State of Deseret, should it be admitted into the Union.

April 15. — Engelbrecht decision rendered by the Supreme Court of the United States, overturning the judicial proceedings in Utah for a year and a half, and declaring null indictments against over a hundred and twenty persons.

May 2. — Constitution of the "State of Deseret" presented to both branches of Congress without favorable action.

May 20. — Ground broken for the American Fork (narrow gauge) railroad.

Territorial reports show valuation of taxable property in Utah at \$17,590,560. Exports of ore and bullion for the twelve months, ending May 1st, \$2,947,891; of wool, tallow, hides, pelts, peaches and salt, \$127,000.

May 25. — Salt Lake City Gas Works Company organized.

June 1. — *Woman's Exponent* commenced publication.

July 1. — Salt Lake City street railroad opened.

September 10. — Bingham Cañon & Camp Floyd railroad company organized.

October 14. — Wasatch & Jordan Valley railroad company organized.

November 26. — Germania Smelting and Refining Works, first of the kind in Utah, commenced operations. American Fork railroad completed to Deer Creek, its present terminus.

1873. January 31. — Utah Northern railroad completed to Logan.

May 3. — Wasatch & Jordan Valley railroad completed to Granite, mouth of Little Cottonwood cañon.

May 14. — First car load of coal shipped from Coalville over the Summit County railroad.

June 30. — Salt Lake City Gas Works manufacture gas.

July 7. — Salt Lake City first lighted with gas. Branch of U. N. R. R. to Corinne completed.

September 28. — Wasatch & Jordan Valley railroad makes its terminus at Fairfield Flat, in Little Cottonwood.

November 21. — U. S. R. R. makes its terminus at Provo. B. C. & C. F. R. R. completed to Bingham.

December. — *Utah Posten*, Danish, the first paper in Utah published in a foreign tongue, commences to issue.

1874. February 5. — Direct railroad connection between Ogden and Logan made by the U. N. R. R.

NEW MAP OF UTAH.

FROISETH'S

New Sectional, Topographical and Mineralogical

MAP OF UTAH TERRITORY,

1874.

Size, 40x56 inches. Scale, 8 miles to the inch. Elegantly engraved, and colored in Counties, mounted on cloth, half-mounted, and in pocket form.

Compiled by **B. A. M. FROISETH**, of the United States Surveyor General's Office, Salt Lake City, author of the first published map of Utah Ter., which was received with so much favor by the public.

THE SECOND EDITION will be issued on or about the 1st day of June, thoroughly revised, re-engraved and brought down to date, 1874.

This large and splendid Map, embracing the general topography of the Territory, was *endorsed by the Territorial Legislature, and a subsidy granted to aid in its publication at their recent session, approved by his Excellency the Governor, and 100 copies ordered for the use of the Territory.*

It will show 155 full and fractional townships of additional surveys which brings into market 1,760,968 acres of public land, that includes large tracts of coal and iron, besides other minerals, also the New Boundary Surveys between Utah, Idaho and Nevada, all the organized mining districts, routes of railroads complete, projected and under construction, etc., etc.; and will be the *only* complete and reliable Map of the kind published, therefore, it should be in every office, library, college, school house and dwelling in Utah. For sale by all stationers. Orders supplied by the publisher,

B. A. M. FROISETH,

P. O. BOX 453.

Salt Lake City, Utah.

AGENTS WANTED immediately to canvass for this Map in every town and county in Utah.

TERRITORY OF UTAH.

UTAH TERRITORY extends from the 37th to the 42d parallel of north latitude, and from the 109th to the 114th degree of west longitude, containing a superficial area of about 65,000 square miles. The surface of the country is very much broken, and the Territory consists mainly of mountain ranges with intervening valleys; the latter very productive where sufficient water can be procured for irrigation, the aridity of the climate precluding the growing of crops by any other means. The mountains, so far as prospected, are found to contain extensive and valuable deposits of silver, lead, copper, iron, coal, zinc, cinnabar, antimony, and other minerals important in the arts and sciences, including gold in various parts of the Territory, found in sufficient quantity to pay for working; while brimstone, saltpetre, gypsum, plumbago, and soda have also been discovered, and fire-rock, fire-clay, marble, granite, slate, red and white sandstone, limestone, and kindred formations, exist to an almost unlimited extent. Salt can be shoveled up in its crude state on the shores of the Great Salt Lake, the waters of the lake also yielding, by evaporation, almost a quarter of their weight in pure saline matter; and rock salt abounds in different parts of the Territory, the southern extremity especially containing a remarkably pure and transparent quality. The mineral products of the Territory will be found treated on more in detail, under the head MINING DISTRICTS.

AGRICULTURAL PRODUCTS, ETC.

During the session of the Legislature which met in January, 1874, an act was passed establishing a Bureau of Statistics for Utah, through which, in future years, exact figures

of the products of the Territory will be obtained. But, at present, only an approximation can be reached. In 1873, from data received by the Deseret Agricultural and Manufacturing Society — Hon. Wilford Woodruff, President, Miss Joan M. Campbell, Secretary — it is estimated that 187,000 acres were under cultivation in Utah, of which about 110,000 acres were planted in cereals, nearly 12,000 acres in root crops, some 2,500 acres in fruit, and perhaps 50,000 acres in meadow. The average productiveness, per acre, is thus given from the same authority; wheat, 22 bushels; barley, 28½ bushels; oats, 32 bushels; corn 24 bushels; potatoes, 122 bushels; carrots, 797 bushels; beets, 412 bushels; hay, 1½ tons. In some localities, 40 bushels of wheat to the acre is an average crop, while as high as 60 to 70 bushels have been harvested; in other localities, 1,000 bushels of carrots to the acre are frequently gathered, but an average taken from returns from the whole Territory, gives the figures furnished above. Fish culture has, within the past three years, been receiving some attention, and a Coöperative Fish Association formed, with Gen. A. P. Rockwood Superintendent of its fish farm, which is located a few miles from Salt Lake City, in a south-easterly direction. Superintendent Rockwood's last report announces that 6,000 fry shad, received by him from Deputy U. S. Commissioner Livingstone Stone, have been planted in the Jordan river, running on the west side of Salt Lake City; that of 40,000 salmon eggs received from California, ninety per cent. had hatched out and are doing well; that of a package of salmon trout eggs received from Seth Green, the American pioneer in fish culture, 651 had hatched out; while a hatch of 8,000 native trout was doing well. This source of food-supply for the Territory promises to become important in a few years.

Mining, since 1870, has become one of the leading pursuits of Utah, which is, perhaps, the richest base-metal region in the world; the precious metals, particularly silver, yielding wealth which may be increased by development to a

fabulous extent. The following, published a little over four years ago, is as correct now as it was then :

“Settlements were made in Utah as early as July, 1847. It originally formed part of Mexico, but by the treaty of Gaudaloupe Hidalgo, in 1848, it was ceded to the United States. The comparatively small beginning in 1847 has grown and lengthened, until now the settlements extend to a distance of three hundred miles north and south; and wherever a valley can be found that can be watered, there you will find the industrious, uncomplaining settlers, making an honest living in a way most congenial to nature and most conducive to health, by the cultivation of the soil. Not only are the ordinary vegetables and cereals produced, but in the southern part of the Territory they are raising cotton, the product of free white labor, thereby removing the objection of some of our eastern friends to the use of this necessary article. In a word the desert has been converted into the fruitful field, and the frowns of nature exchanged for smiles of gladness.

“The country for the most part is mountainous, interspersed with valleys, which can only be cultivated by irrigation.

“The melting of the snow in the mountains affords in ordinary seasons sufficient water to cultivate the valleys successfully.

“The summers are very warm and dry; the winters generally mild and open. The fall of snow is light in the valleys and heavy in the mountains. The climate may be said to be invigorating and healthful, fevers and pulmonary complaints being almost unknown.

“The soil, which, to a very great extent, is formed of the mountain washings, consists principally of gravelly loam, and is well adapted to the growth of wheat and other cereals.

“Wheat is indeed the great staple product of the Territory. In good seasons the average yield per acre is about twenty-five bushels. Sixty to seventy bushels are not unfrequently

obtained ; and in some instances as high as eighty bushels have been raised from a single acre.

“Oats, barley, rye, and flax are cultivated with great success.

“All kinds of vegetables grow astonishingly large, and of a superior quality.

“In Washington county, in the southern part of the Territory, large fields of cotton are cultivated, the growth of which will be sufficient in a few years to supply all the wants of the people. In 1863 quite a considerable quantity of cotton was exported to the States at remunerative prices.

“Madder, indigo, figs, grapes, and other tropical fruits are also raised in this part of the country.

“Timber is scarce, and being found only in the mountains and ‘kanyons,’ is very difficult of access. As a consequence of this, houses are costly to build, and rents are proportionately high.

“The climate and soil of Utah are particularly adapted to the production of fruit ; and her citizens, no doubt, feeling the promptings of an internal as well as external nature, have improved their opportunities for cultivation. Apples, pears, peaches, apricots, plums, grapes, currants and other fruits are produced, not only in great abundance, but of a superior quality.

“In addition to flouring and other mills necessary for the support of the Territory, woolen and cotton factories are being established in different parts of the country for home supplies.”

PROPERTY VALUATION.

The Auditor's Reports for 1872-3 give the total value of assessed property in the Territory, in the former year, at \$17,590,560, on which a territorial tax of \$43,976.40 was levied ; in the latter year at \$21,548,348, on which the territorial tax assessed was \$53,870.87. The assessed property value of the Territory has more than doubled in the past five years, being \$10,533,872 in 1868, and \$21,548,348

DUNFORD & SONS' Motto — “Large Sales & Small Profits.”

in 1873. In 1858, the assessed property of Salt Lake county was \$4,379,652.80, or a little over forty-one per cent. of that of the whole Territory. In 1872, it was \$7,694,908—about forty-three and a-half per cent.; while in 1873, it was \$9,960,956, or forty-five per cent. of the whole. At the close of 1873, the Territory was unencumbered with debt of any kind, and had in the Treasury \$35,-655.47. The relative wealth in assessed property of the several counties will be seen by the following valuation for 1873:

COUNTY.	Total value of assessed property.	Total tax Territorial.
Salt Lake,.....	\$9,960,956.00	\$24,902.39
Box Elder,	1,549,008.00	3,872.52
Utah,.....	1,423,692.00	3,559.23
Weber,	1,411,744.00	3,529.36
Tooele.....	956,700.00	2,391.75
Cache,.....	909,156.00	2,272.89
Summit,	706,576.00	1,766.44
Davis,	692,088.00	1,730.22

Sevier,.....	144,668.00	361.67
Rich,.....	80,000.00	200.00
Piute,	37,320.00	93.30
Total,.....	\$21,548,348.00	\$53,870.87

EDUCATIONAL.

In the Territory are 202 school districts, having 251 common schools, with 8,210 male, and 7,860 female, scholars enrolled; there being an average daily attendance of 11,-842. This is independent of the students in the University of Deseret, St. Mark's Schools, Morgan's Commercial College, and the Rocky Mountain Seminary, in Salt Lake city,

DUNFORD & SONS SOLICIT ORDERS from TOWN & COUNTRY TRADERS.

in which over 1,100 were enrolled in 1873. For the Common Schools, 177 male and 178 female teachers were employed, the former being paid \$55,092.41, the latter \$27,803.50; giving a total of 355 teachers receiving \$82,895.91. During the year, \$44,582.22 was raised of school building funds; and \$12,885.41 was appropriated, of taxes, for the use of schools.

GOVERNMENTAL.

The population of the Territory is estimated at 136,000.

The government is vested in Executive, Judicial, and Legislative Departments.

The Executive consists of a Governor and Secretary; the Judicial of a Chief Justice and two Associate Justices; and the Legislative of an Assembly composed of thirteen Councilors and twenty-six Representatives.

FEDERAL OFFICERS.

Governor.— George L. Woods, of Oregon.

Secretary.— George A. Black, of Utah.

Chief Justice.— James B. McKean, of New York.

Associate Justices.— Philip H. Emerson, of Michigan, and Jacob S. Boreman, of Kansas.

U. S. Attorney.— William Carey, of Illinois.

Superintendent of Indian Affairs.— General H. A. Morrow.

Surveyor General.— Nathan Kimball, of Indiana.

Receiver of Public Moneys.— J. B. Overton, of Pa.

Register of Land Office.— Willett Pottenger.

U. S. Collector.— O. J. Hollister, of Colorado.

U. S. Marshal.— Geo. R. Maxwell, of Michigan.

TERRITORIAL OFFICERS.

[As the Territorial Legislature filled these offices by election at the last session, according to the Territorial statutes; and as the Governor has since filled a number by appointment, holding that the Organic Act of the Territory confers such power upon him, two names will be found as incumbents for each of several of the offices. The first is

the person elected by the Legislature ; the second, the Governor's appointee.]

Delegate in Congress.— George Q. Cannon.

Treasurer.— James Jack.

“ Henry W. Lawrence.

Auditor.— William Clayton.

Attorney General.— Zerubbabel Snow.

“ “ Obed F. Strickland.

Surveyor General.— Jesse W. Fox.

Marshal.— John D. T. McAllister.

“ B. L. Duncan.

Road Commissioner.— Theodore McKean.

Librarian.— Wm. C. Staines.

“ A. S. Gould.

Recorder of Marks and Brands.— William Clayton.

Sealer of Weights and Measures.— Nathan Davis.

Sup't. of Common Schools.— Robert L. Campbell.

MEMBERS OF THE TWENTY-FIRST LEGISLATIVE ASSEMBLY :

OFFICERS OF COUNCIL.

President.— Lorenzo Snow.

Chief Clerk.— L. John Nuttall.

Assistant Clerk.— Patrick Lynch.

Enrolling Clerk.— James Ferguson.

Engrossing Clerk.— Rulon S. Wells.

Sergeant-at-Arms.— J. D. T. McAllister.

Door-Keeper.— William Bell.

Messenger.— B. Y. Woodruff.

Watchman.— A. E. Hinkley.

Chaplain.— Joseph Young, Sr.

MEMBERS OF COUNCIL.

Beaver, Iron, and Piute counties.— Jesse N. Smith.

Box Elder and Weber counties.— Lorenzo Snow.

Cache and Rich counties.— Moses Thatcher.

Davis and Morgan counties.— Arthur Stayner.

Juab and Millard counties.— Thomas Callister.

Kane and Washington counties.— Jacob Gates.

ALMOST DAILY FROM EAST AND WEST.

Salt Lake, Tooele, and Summit counties.—Wilford Woodruff, William Jennings, William H. Hooper, John T. Caine.

Sanpete and Sevier counties.—Joseph A. Young.

Utah and Wasatch counties.—A. O. Smoot, L. E. Harrington.

OFFICERS OF THE HOUSE OF REPRESENTATIVES.

Speaker.—Orson Pratt.

Chief Clerk.—Robert L. Campbell.

Assistant Clerk.—R. J. Taylor.

Enrolling Clerk.—Miss Joan M. Campbell.

Engrossing Clerk.—E. W. East.

Sergeant-at-Arms.—Milando Pratt.

Doorkeeper.—S. H. B. Smith.

Messenger.—Albert C. Young.

Watchman.—John Smith.

Chaplain.—Zebedee Coltrin.

REPRESENTATIVES.

Beaver and Piute counties.—J. R. Murdock.

Box Elder county.—J. C. Wright.

Cache and Rich counties.—M. W. Merrill, John Nebeker.

Davis and Morgan counties.—W. R. Smith, W. G. Smith.

Iron county.—Silas S. Smith.

Juab county.—Joel Grover.

Millard county.—Edward Partridge.

Salt Lake county.—Orson Pratt, John Taylor, A. P. Rockwood, S. A. Mann, B. Young, Jr., J. F. Smith.

Sanpete and Sevier counties.—Wm. Morrison, Geo. Peacock.

Summit county.—W. W. Cluff.

Tooele county.—John Rowberry.

Utah county.—A. K. Thurber, W. B. Pace, Geo. Halliday.

Wasatch county.—Abram Hatch.

Washington and Kane counties.—L. W. Roundy.

Weber county.—F. D. Richards, Lorin Farr.

Dunford & Sons have all the latest novelties in Hats and Caps.

RAILROADS.

Until the completion of the Pacific line, overland, giving steam communication with the East and West, railroading in Utah was impracticable. Since that time—May, 1869—nearly two hundred and fifty miles of railroad have been built in the Territory, without subsidy or land grant, except the simple right of way through the public land; and of this nearly a hundred miles were constructed during 1873.

UTAH CENTRAL.

This, the pioneer line of Utah, was commenced on May 17, 1869, one week after the junction of the U. P. & C. P. branches of the Pacific railroad, though the company to build it was organized on the 8th of March previous. It was commenced and completed at a time when there was scarcely any money in the Territory, under the direction of ex-Governor Brigham Young, then President of the Company, the people rendering ready help to build it. The last rail was laid January 10th, 1870, less than eight months from commencing the work. This line is thirty-six and a half miles in length, its southern terminus being in Salt Lake City, where it connects with the Utah Southern; its northern terminus is at Ogden, where it connects with the Union Pacific, Central Pacific, and Utah Northern (narrow gauge). Following is the freight traffic over it in 1873:

INWARDS.

Kind of Freight.	Pounds.
General merchandise,	34,569,823
Coal,	93,028,138
Charcoal,	10,797,650

Live stock, -----	172,500
Sundries, -----	1,857,969
 Total, -----	 55,387,754

The present officers of the Utah Central railroad are John Sharp, President and Gen'l Sup't; William Jennings, Vice-President; Feramorz Little, Wm. H. Hooper, James Sharp, Directors; L. S. Hills, Treasurer; George Swan, Secretary.

UTAH SOUTHERN.

This road, which is really a continuation of the Utah Central, though a different incorporation, runs southwards from Salt Lake City, and it is purposed to ultimately connect it with a Southern Pacific line. It was commenced May 1, 1871. On Sept. 23d of the same year it was completed to Sandy, a central point between the Cottonwood mining district and Bingham Cañon mining district. On Sept. 23d of 1872 it was completed to Lehi, Utah county, about thirty miles from Salt Lake City; and on Nov. 21st, 1873, it was finished to Provo, its present terminus, some forty-eight miles being then built. The freight traffic over this line for 1873 was:

AMERICAN FORK R. R.

This is a narrow guage line, connecting with the Utah Southern, and running up the American Fork cañon, designed to meet the necessities of the mines in that district, mainly of the Miller mine and other properties belonging to

Debts, as they do an Exclusive Cash Business.

the same company ; the Miller Mining Co. and the A. F. R. Co. being substantially the same. The railroad company was organized April 3, 1872, capital stock \$300,000, with Lloyd Aspinwall, of New York, President ; Lloyd Aspinwall, G. G. Howland, H. W. Gray and A. C. Kingsland, Jr., of New York, and R. N. Baskin, of Salt Lake, Directors. Work was commenced in May, 1872, and the road was completed from American Fork City, on the U. S. R. R., to Deer Creek, up the cañon, a distance of twelve miles, in November of the same year. It was originally intended to continue the road up to the Sultana Smelting Works, a distance of four miles further, and that portion of the road was graded and made ready for the ties ; but it was subsequently considered that the industries of the cañon would not, up till the present, warrant the expenditure which would be necessary to complete it. The scenery of the cañon up which this short road runs is noted for its sublimity and wild grandeur. The affairs of the company, as well as of the Miller Mining Co., for the past year were under the immediate direction of A. Lawrence Hopkins, Vice-President of the latter Company, with Jno. J. McNamee as Cashier.

WASATCH AND JORDAN VALLEY R. R.

This is another narrow gauge road, connecting with the Utah Southern, and running up the Little Cottonwood cañon, to furnish transportation for the ores coming from and supplies going to that rich mining district. The company was incorporated October 14, 1872, capital stock \$500,000. Work was commenced in January, 1873, and the road was opened to Granite, at the mouth of the cañon, on May 3d following. On September 28th it was completed to Fairfield Flat, in the cañon, eleven and one-third miles from Sandy, on the U. S. R. R. The average grade is about 150 feet to the mile, the heaviest grade being 287 feet. It is expected that during the present summer the road will be continued, probably up to the leading mines, but the very heavy

DUNFORD & SONS, RECEIVE FRESH GOODS

grade will necessitate the employment of "switch backs," largely increasing the actual distance. The company has three engines, fifty flat, one baggage and two passenger cars. Officers: Wm. Jennings, General Superintendent; A. B. Benzon, Asst. Superintendent; B. W. Jennens, General Freight and Ticket Agent; T. W. Jennings, Secretary.

BINGHAM CAÑON AND CAMP FLOYD R. R.

Another narrow gauge road, and also connects with the Utah Southern, running across the west side of Salt Lake Valley as the W. & J. V. R. R. runs across the east side, and meeting the requirements of West Mountain Mining District, of which Bingham is the mining town. The Company to build this road was incorporated Sept. 10th, 1872, and sixteen miles were graded and tied ready for the iron, by June 1st, 1873. Then some eastern capitalists associated with parties in Salt Lake City, bought out the stock, rights and franchise of the road. Light iron for narrow gauge roads at the time could not be obtained in the United States, and they were compelled to wait until their iron was manufactured. The first installment of the iron was received Sept. 1st, 1873, and, notwithstanding further delays arising from the same cause, the road was completed to Bingham, its present terminus, and freight and passenger trains were running through by December 1st. The distance is about twenty-two miles. A third rail has been laid from the West Jordan smelting furnaces to Sandy, making it so far a broad gauge, so that coke, coal and other supplies can be sent to them and bullion taken from them, east or west, without breaking bulk. The B. C. & C. F. R. R. Co. has a hundred freight and ore cars, four passenger and one baggage and express car; with the requisite railroad buildings for such a line. Present officers: C. W. Scofield, President; B. W. Morgan, Vice-President; Geo. Goss, General Sup't; Wm. B. Welles, Secretary and Treasurer.

ALMOST DAILY FROM EAST AND WEST.

UTAH NORTHERN R. R.

This is the longest and most important of the narrow-gauge railroads yet built in Utah, and it is designed to extend it to Montana Territory; its present objective terminus, however, being Soda Springs—celebrated thermal and effervescing springs in the southeastern part of Idaho Territory. The company was organized August 23, 1871, and ground was broken less than a month later, at Brigham City, Box Elder county. The first rail was laid at Brigham Junction, seventeen miles north of Ogden, March 29, 1872; and the road was completed to Logan, the county seat of Cache county, January 31, 1873. A branch line, of four miles, extending the U. N. R. R. to Corinne, was completed on June 9, 1873; and the road was extended south to Ogden, and opened for traffic February 8, 1874, giving a distance of sixty-four miles in operation between Ogden and Logan. It was extended twenty miles further north to Franklin, Idaho, by the middle of March. This road has been built by the people of Northern Utah, and runs through the rich and fertile counties of Weber, Box Elder, and Cache. The last named county produced over fifteen million pounds of cereals in 1873. Present officers: John W. Young, President; William B. Preston, Vice-President; S. Roskelly, M. W. Merrill, L. H. Hatch, O. N. Liljenquist, Wm. Maughan, S. Smith, H. Thatcher, Moses Thatcher, and F. D. Richards, of Utah, and Joseph Richardson, of New York, Directors; Moses Thatcher, General Sup't, Secretary and Treasurer; Charles Nibley, General Freight and Ticket Agent.

SUMMIT COUNTY R. R.

This narrow gauge railroad connects with the Union Pacific R. R. at Echo, and runs to the coal mines in the vicinity of Coalville, the county seat of Summit county, transporting nearly two hundred tons of coal daily from the eight mines now being worked there, with a steadily increasing traffic.

Infants' Shoes all Colors at Dunford & Sons.

The line, of which nine miles are built, is designed to be continued on to the Parley's Park mining district, some twenty miles further. Work on it was commenced in October, 1871, but different causes conspired to retard it, and it was not until May 14, 1873, that the first car-load of coal was carried over it. Present officers: Joseph A. Young, President; Joseph A. Young, Le Grand Young, H. G. Park, W. W. Cluff, Charles Richins, Directors; W. W. Cluff, General Superintendent; H. G. Park, Secretary and Treasurer.

SALT LAKE, SEVIER VALLEY AND PIOCHE R. R.

Of this road, also narrow gauge, some twenty miles is graded. It runs westward from Salt Lake City to Tooele county, and is designed to tap the extensive mines in that region, and passing southward through the mines and agricultural lands of the Sevier Valley region, make its terminus finally at Pioche, Southeastern Nevada. Work was suspended on it in the fall of 1873, but is expected to be resumed in the summer of 1874.

Several other lines are projected, with prospects of work being commenced on some of them at an early date.

COUNTIES IN UTAH.

BEAVER COUNTY,

About two hundred and twenty miles south of Salt Lake City, is one of the most flourishing in Utah. It is bounded on the north by Millard county, on the east by Piute county, on the south by Iron county, and on the west by Nevada; and has an area of some 4,000 square miles, only a small part however, being arable, deserts and mountains making up nine-tenths of the county. It has a wide area of fine pasturage land, on which range large herds of cattle and sheep. Mining interests in the county are attracting much attention—Star, Granite and Lincoln Districts promising a rich future. Beaver City, the county seat, is pleasantly situated on the north bank of the Beaver river, and contains about 3,000 inhabitants. About two miles from the city is a military post.

COUNTY OFFICERS.

Probate Judge.—W. J. Cox.

County Clerk.—Wm. Fotheringham.

Sheriff.—John Hunt.

Recorder.—Edward Tolton.

Treasurer.—U. V. Stewart.

Assessor and Collector.—Ben. A. Arthur.

Coroner.—Wm. Ashworth.

Notaries Public.—Edward Dalton, J. H. Dupain, H. W. Morse, Edward P. Hart, Wm. Fotheringham.

Superintendent of Common Schools.—John P. Lee.

Selectmen.—M. L. Shepherd, James Lowe, Elias H. Blackburn.

Cash Buyers will do well to Buy from **DUNFORD & SONS.**

BEAVER CITY,

The county seat of Beaver county, is rapidly becoming a place of leading importance in the Territory. The undoubtedly rich mining districts of the county, lying northwest and within easy distance from it, the military post convenient, and its many natural advantages, will give it a rapid growth. In it are located the Beaver Coöperative and Woolen Factory, with a capital of \$100,000, the factory having a capacity of 360 spindles, and turning out a very excellent quality of woolen fabrics. The *Beaver Enterprise*, independent, a lively little paper, is published tri-weekly, Joseph Field, proprietor.

MUNICIPAL OFFICERS.

Mayor.—John Ashworth.

Councilors.—M. L. Shepherd, A. M. Farnsworth, P. T. Farnsworth, W. J. Cox, Wm. Ashworth.

Justice of the Peace.—Daniel Tyler.

Marshal.—Wm. J. Allred.

Recorder.—W. G. Nowers.

BEAVER MILITARY POST,

Two miles from Beaver City, is well built of rock, and has quarters for about a thousand troops, with hospital, officers' quarters, and all the necessary buildings. The officers and troops at the Beaver Post are:

Lieut. Col. John D. Wilkins, 8th Infantry, Commanding Post. Captain Clarence M. Bailey, 1st Lieut. James W. Powell, 2d Lieut. W. L. Pitcher; D, 8th Infantry. Captain Frederick D. Ogilby, 1st Lieut. Samuel Craig, A. A. Q. M., and A. C. S., 2d Lieut. Charles M. Baily; E, 8th Infantry. Captain John N. Andrews, 1st Lieut. Charles F. Loshe, 2d Lieut. William H. McMinn; G, 8th Infantry. Captain Alfred T. Smith, 1st Lieut. Frank T. Adams, 2d Lieut. Wallace Mott; I, 8th Infantry. Assistant Surgeon F. W. Elbrey.

Polite clerks to wait on you at Dunford & Sons.

BOX ELDER COUNTY,

Covers a large area, running north from Weber county around the northern shore of Great Salt Lake, and down the western shore of that body of water more than half its length. It is bounded on the south by Weber and Tooele counties, Great Salt Lake lying between them; on the east by Cache county; on the north by Idaho Territory; and on the west by the State of Nevada. The Central Pacific railroad runs through it from the Weber county line round the north end of Great Salt Lake to the Nevada line, which it crosses north of Buel and some distance east of Tecoma. The eastern side of Box Elder, between the Wasatch Mountains, which divide it from Cache County, and the lake, contains most of the cultivated land in the county. The northern and western portions of the county, with a part of the northeastern, afford excellent range for cattle. Much of the county is unsettled, especially west of the lake, being mountainous and of a somewhat forbidding character. Minerals have been discovered in the mountains on both sides of the lake, and a number of mines are being worked with profit, most developments having been made in the Lucin and Silver Islet districts, near the Nevada line. Iron abounds in the mountains close to Willard, and a large amount of the ore has been shipped to be used as flux in smelting galena ores elsewhere. Considerable work has been done in the Box Elder mining district, lying on the eastern side of the county. Box Elder produces largely of root crops, cereals and fruit; and is in direct communication with the east and west by the overland railroad, with Cache county by the Utah Northern railroad; and with Salt Lake by the Utah Northern and Utah Central, which connect at Ogden. The county seat is Brigham City, the other towns being Willard, Mantua, Bear River City, Dewyville, Honeyville, Samaria, Portage, Squaretown, Beaver Dam, Corinne, Kelton and Terrace. There are in the county four flouring mills, eight saw mills and one shingle and lath mill.

COUNTY OFFICERS.

Probate Judge.—Samuel Smith.

County Clerk and Recorder.—Jonathan C. Wright.

Sheriff.—John Burt.

Assessor and Collector.—M. D. Rosenbaum.

Superintendent of Common Schools.—James Bywater.

Notaries Public.—J. C. Wright, Wm. Hyndman, Wm. Taylor, E. P. Johnson.

Selectmen.—George W. Ward, James Pell, Wm. L. Watkins.

BRIGHAM CITY,

The county seat of Box Elder county, is one of the handsomest and best situated little towns in the Territory, occupying a portion of the "bench" land east of Great Salt Lake, and near the mouth of Box Elder and Wellsville Cañon. It is embowered in shade and fruit trees, and in the late Spring, or through the Summer and early Autumn, presents a very beautiful appearance. It has one hotel, Colonel Chester Loveland, proprietor; and the principal business of the place is done upon the coöperative plan. The Brigham City Coöperative Institution, with 372 shareholders, and a paid-up capital of \$120,000, has a store for general merchandise, doing the largest business in the place, a woolen factory, a tannery, a boot and shoe factory, a blacksmith and wagon department, a meat market, a dairy-farm, where a large quantity of butter and cheese is made for home consumption and exportation, a cattle-herd, a sheep-herd, two saw-mills, and one shingle, lath and picket-mill, all in successful operation. The institution is managed by a president, and a board of seven directors, elected annually by the stockholders. A general superintendent and secretary are also elected annually by the directors. The present officers are: President, Lorenzo Snow; Directors, Jonathan C. Wright, Samuel Smith, Alvin Nichols, G. W. Ward, Abraham

Call and examine our Goods at **DUNFORD & SONS**

Hunsaker, H. P. Jensen, J. D. Rees; General Superintendent, Lorenzo Snow; Secretary, Wm. L. Watkins. Over each department there is a superintendent, who has the immediate oversight of it. In Brigham City are also two furniture factories.

MUNICIPAL OFFICERS.

Mayor.—Chester Loveland.

Justices of the Peace.—Ephraim Wright, Jonathan T. Packer.

Councilors.—Alvin Nichols, Hans P. Jensen, Abraham Hunsaker, Wm. Box, John D. Rees.

Recorder.—Wm. L. Watkins.

Marshal.—John Burt.

WILLARD,

Situated nearly six miles south of Brigham City, is a pleasant little town of some eight hundred inhabitants. The last election held under the charter resulted in the choice of the following

MUNICIPAL OFFICERS.

Mayor.—George W. Ward.

Councilors.—John P. Wood, Homer Call, Thos. S. Woodland, George Harding, Thos. W. Brewerton.

Aldermen.—George J. Marsh, William Ward.

Recorder.—Alfred Ward.

Treasurer.—Matthew W. Dalton.

Marshal.—Joseph Nicholass.

CORINNE,

Situated on the Central Pacific railroad, and on the banks of Bear River, has been, since the completion of the overland railroad, the principal shipping and outfitting point for Montana. That business has in part left it with the extension northward of the Utah Northern (narrow guage) rail-

Philadelphia Boots and Shoes at Dunford & Sons.

road, a branch of which has a terminus at Corinne. The city makes merchandising and outfitting its specialty, and during late Spring and Summer, and early Fall, is generally a lively place. It has two banks, an opera house, one Presbyterian, one Episcopalian and one Methodist church, a Masonic Lodge, a Lodge of Odd Fellows, a Good Templars Lodge, and several hotels. Population estimated at about 1,000. George L. Holt, Postmaster. At the beginning of 1874 the following were the

MUNICIPAL OFFICERS.

Mayor.—John W. Graham.

Councilors.—G. A. Bruce, J. H. Gerrish, J. W. Guthrie, Hiram House, Sam'l Howe, W. H. Munro, Julius Walsh, John Stanley, Sam. L. Tibbals, A. Toponce.

CACHE COUNTY,

Bounded on the north by Idaho Territory, on the east by Rich and Morgan counties, on the south by Weber county, and on the west by Box Elder county, is about thirty miles wide on the northern boundary line, fifteen on its southern, and forty-three miles in length from north to south, containing an area of about 990 square miles. Of this amount, nearly three-fourths is mountainous and elevated "bench" land; the remainder is fertile and well watered by the Bear, Cub, Logan, Blacksmith's Fork and Little Bear rivers, besides many small streams. The general elevation of the valley is about 186 feet above Great Salt Lake valley. The County Recorder courteously furnishes the following table of towns, estimated population, and elevation above sea level:

Our Prices are the Lowest: Dunford & Sons.

CITIES.	NO. INHABITANTS.	ELEV'N ABOVE SEA LEVEL.	NAME OF MAYORS.
Logan, (Co. seat).....	3,500	-- 4,570	-- Wm. B. Preston.
Richmond.....	1,800	-- 4,629	-- Jesse Hobson.
Smithfield.....	1,400	-- 4,635	-- Sam. Raskelley.
Hyrum.....	1,500	-- 4,650	-- O. N. Liljenquest.
Wellsville.....	1,300	-- 4,580	-- W. H. Maughan.
Mendon.....	800	-- 4,532	-- Chas. Bird.
TOWNS.			
Paradise.....	400	-- 4,754	
Millville.....	550	-- 4,574	
Providence.....	600	-- 4,565	
Hyde Park.....	400	-- 4,553	
Clarkston.....	350	-- 4,730	
Newton.....	300	-- 4,710	

Total.... 12,900

The summit of divide between Cache and Great Salt Lake valleys, on the U. N. R. R. line, is 5,000 feet above the level of the sea. Iron is found in abundance in the south part of the valley and in several other localities. Coal has been found in different places in the county, but no mines are yet developed; and there are good indications for silver and lead in the mountains which bound the valley. Limestone of excellent quality abounds, and an unlimited amount of excellent light-colored sandstone, with a very beautiful kind of variegated sandstone.

For agricultural purposes, the valley is unsurpassed in the Territory, producing cereals, root crops and vegetables in abundance. During the past season, over 30,000,000 lbs. of grain and potatoes were produced in the county. The Utah Northern railroad traverses the valley. In the county are eight flouring mills, nine lumbering mills, four lath and shingle mills, three carding mills, one planing mill, and one pearl barley mill.

COUNTY OFFICERS.

Probate Judge.—Wm. Hyde.

County Clerk.—Jas. A. Leishman.

Sheriff.—Alvin Crockett.

Recorder.—G. L. Farrell.

No trouble to Show Goods: Dunford & Sons.

Treasurer.— Joel Ricks.

Assessor and Collector.—Wm. B. Preston.

Coroner.— C. O. Card.

Notaries Public.— James. A. Leishman, A. C. Brower,
Francis Gunnell.

Superintendent of Common Schools.—Samuel Roskelly.

Selectmen.—Wm. H. Maughan, C. W. Card, M. W. Merrill.

LOGAN,

The county seat of Cache county, is situated near the mouth of Logan Cañon—a deep gorge in the Wasatch mountains, over fifty miles in length, noted for its wild and majestic scenery, and its excellent trout fishing. The cañon is easily reached by the U. N. R. R., which runs through Logan, and can be ascended without difficulty. The town is on the east side of the valley, and commands an extensive view, embracing nearly six hundred square miles, bounded by mountains on all sides, except for a short distance where Bear River debouches into Great Salt Lake valley.

MUNICIPAL OFFICERS.

Mayor.—Wm. B. Preston.

Aldermen.—Thos. X. Smith, Thos. E. Ricks, C. O. Card,
Moses Thatcher, H. K. Cranney.

Councilors.—C. W. Card, Robt. Davidson, G. L. Farrell,
B. Young, Jr., J. H. Martineau.

Recorder.—T. B. Cardon.

Marshal.—Alvin Crockett.

WELLSVILLE

Is located below the eastern end of the Box Elder and Wells-
 ville Cañon, in the southwest part of the valley, and ten
 miles distant from Logan.

MUNICIPAL OFFICERS.

Mayor.—Wm. H. Maughan.

Councilors.—Robt. Leatham, Robt. Baxter, Evan Owens,
 Wm. Haslam, John Jardine, James Nibley.

Justices of the Peace.—Joshua Hawks, Wm. F. Darley.

Recorder.—Francis Gunnell.

Marshal.—Robt. Murray.

MENDON

Is situated on the west side of Cache valley, and is a station
 of the U. N. R. R. It is a thriving little city.

MUNICIPAL OFFICERS.

Mayor.—Chas. Bird, Sr.

Councilors.—Charles Shumway, Sr., Charles Bird, Jr.,
 Martin Bird, James Graham, Andrew Anderson.

Justices of the Peace.—Jasper Lemmon, Andrew P. Shum-
 way.

Recorder and Treasurer.—John Donaldson.

Marshal.—Joseph Richards.

Hats, Hats! Caps, Caps! at Dunford & Sons.

HYRUM

Is pleasantly located in the south end of the valley, and has an industrious population.

MUNICIPAL OFFICERS.

Mayor.— O. N. Liljenquist.

Councilors.— John G. Wilson, James McBride, Andrew A. Allen, George Nielsen, James Unsworth, Andrew Nielsen.

Justices of the Peace.— Lehi Curtis, Ira Allen.

Recorder.— Charles C. Shaw.

Treasurer.— S. F. Allen.

Chief of Police.— Harlum McBride.

SMITHFIELD

Is also a station on the U. N. R. R., on the east side of the valley, and is a prosperous place.

MUNICIPAL OFFICERS.

Mayor.— S. Roskelley.

Councilors.— Andrew Anderson, Preston T. Morehead, Thos. Hillyard, Robt. Meikle, George Coleman.

Justices of the Peace.— Sylvester Lowe, Edmund Homer.

Recorder.— Wm. A. Nobles.

Treasurer.— Sylvester Lowe.

Marshal.— Thos. G. Winn.

Chief of Police.— James Meikle.

DAVIS COUNTY

Is one of the smallest, as it is one of the most fertile, counties in Utah. Its length is some twenty-five miles, by a breadth of ten miles, the cultivated portion lying at the foot of the mountains, north of Salt Lake City, which bound the great lake on the east side; the Utah Central railroad intersecting the county its entire length. Sheltered as is

DUNFORD & SONS, PRACTICAL BOOT FITTERS.

much of the county from the keen north wind, and receiving the generous warmth of the sun on a southeasterly slope, Davis county produces the earliest vegetables and cereals grown in northern Utah, its melon crop almost supplying the Salt Lake market. It has very fine farming and meadow land, with excellent range. There are five towns in the county, Bountiful, Centreville, Farmington (the county seat), Kaysville (incorporated), and South Weber. The population is variously estimated at from 5,500 to 7,000. There are in Davis county seven flouring mills and three saw mills. Minerals have been discovered in the county, but very little has yet been done towards development in that direction.

COUNTY OFFICERS.

Probate Judge.—John W. Hess.

County Clerk.—Arthur Stayner.

Sheriff.—Robert W. Burton.

Recorder.—Arthur Stayner.

Treasurer.—Ezra T. Clark.

Assessor and Collector.—William Reeves.

Coroner.—Jesse W. Smith.

Notaries Public.—William Thurgood, Arthur Stayner.

Superintendent of Common Schools.—Jacob Miller.

Selectmen.—Joel Parish, William Brown, Rosel Hyde.

KAYSVILLE

Is the only incorporated town in the county, and has a station of the Utah Central railroad. It is surrounded with well cultivated and productive farming lands, which reach from it southwards to within a few miles of Salt Lake City.

MUNICIPAL OFFICERS.

Mayor.—Rosel Hyde.

Councilors.—Thos. F. Roueche, John R. Barnes, Joseph Egbert, James Bennett, Ebenezer A. Williams.

Justices of the Peace.—John Gaily, William Blood.

Recorder and Treasurer.—Peter Barton.

Marshal.—Robert W. Burton.

Precinct Justice.—Wm. W. Galbraith.

IRON COUNTY,

So named from the immense deposits of iron ore found in it, stretches across the entire width of Utah, being bounded on the east by Colorado, on the west by Nevada, on the north by Beaver and Piute counties, and on the south by Washington and Kane counties. Besides iron, there are also extensive coal deposits, and gold, silver, lead, zinc and other minerals have been found in it. The county is well timbered, with plenty of range, bearing good upland grass; but, in the western part especially, there is not sufficient water for irrigation for extensive farming. Iron county contains five flouring mills; fifteen saw mills, seven driven by steam and eight by water power; about a dozen lath and shingle mills, seven of them in Centre Creek Cañon; a foundry, rolling mill, machine shop, and other works necessary for the manufacture of iron; a cotton factory, a planing machine, and a wood-working factory. Population 4,000.

COUNTY OFFICERS.

Probate Judge.—S. H. Rogers.

County Clerk.—Jesse N. Smith.

Sheriff.—Daniel P. Clark.

Recorder.—Wm. H. Dame.

Treasurer.—Joseph Fish.

Assessor and Collector.—Wm. C. Mitchell.

Coroner.—Henry H. MacConnell.

Notaries Public.—Lewis Fisher, Daniel S. McFarland,
Louis R. Chaffin, Joseph L. Heywood.

Superintendent of Common Schools.—Wm. C. McGregor.

Selectmen.—John M. Higbee, James Henrie, Wm. Adams.

PAROWAN

The county seat and principal town in Iron county, was settled by a colony from Salt Lake, in 1851. It has a cotton factory, supplied with cotton grown further south in the Territory, a planing mill, and other industries,—agriculture, however, being the principal one.

MUNICIPAL OFFICERS.

Mayor.— Edward Dalton.

Councilors.— Jesse N. Smith, Thomas Davenport, William C. Mitchell, David Ward, Zechariah B. Decker, Jr.

Justices of the Peace.— Samuel H. Rogers, Joseph Fish.

Recorder.— William Davenport.

Treasurer.— Joseph Fish.

Assessor and Collector.— W. C. Mitchell.

Marshal.— Samuel Orton.

CEDAR CITY

Is the next place of importance in the county.

MUNICIPAL OFFICERS.

Mayor.— Francis Webster.

Councilors.— Homer Duncan, John M. Higbee, George Perry, Henry McConnell, Christopher Arthur.

Justices of the Peace.— Lewis R. Chaffin, Richard R. Birkbeck.

Recorder and Auditor.— George Hunter.

Treasurer.— John C. Duncan.

Assessor and Collector.— N. W. Pryor.

Marshal.— Nathaniel W. Pryor.

JUAB COUNTY,

Situated near the centre of Utah Territory, is bounded on the north by Utah county, on the east by Sanpete county, on the south by Millard county, and on the west by the State of Nevada. It was settled, in September of 1851, by

eighteen families under the direction of Governor Young, and the town site of Nephi, the county seat, was surveyed on Salt Creek. On the 3d of March, 1852, the first county court was held, George W. Bradley, Probate and County Judge, and county officers were appointed. In the fall of the same year the settlement was strengthened by the addition of fifty more families, among whom were the present Probate Judge and County Clerk—Jacob G. Bigler and Samuel Pitchforth. The Indian war of 1853 compelled the people of Nephi to build for defense a mud wall twelve feet high and inclosing nine blocks of city lots. Juab valley is the largest and most fertile in the county; the soil is well adapted for all kinds of grain and vegetables; and different kinds of fruit have a vigorous and productive growth. Tintic, Sevier, Turner and Dog valleys are better adapted for grazing than agriculture. The mining districts of Tintic, Cherry creek, Nebo and Levan contain valuable mines, producing gold, silver, copper and lead. The Nebo range of mountains, besides deposits of ore carrying silver, contains rock salt, gypsum, and numerous saline springs; also excellent quarries of red, white and blue sandstone. The coal beds at Wales, Sanpete, are situated on the east side of this range. The county has over four thousand inhabitants with six flourishing towns, Nephi, Levan, Mona, Eureka, Silver and Diamond. Nephi, the county seat, has four stores dealing in general merchandise, one drug store, two hotels, one saloon, two saw mills, one flouring mill, one lath, picket and shingle mill, a church, social hall, school houses, and the businesses rendered necessary by a growing population. Mount Nebo is one of the highest mountains in the Territory, having an altitude of over 12,000 feet; and its foothills contain immense deposits of low grade silver, bearing galena.

COUNTY OFFICERS.

Probate Judge.—Jacob G. Bigler.

County Clerk.—Samuel Pitchforth.

Recorder.—John Pyper.

Treasurer.—Edwin Harley.

Sheriff.—William L. Sperry.

Coroner.—Charles Sperry.

Notaries Public.—Samuel Pitchforth, William R. May, Nephi; A. H. Noon, Eureka, Tintic; A. G. Sutherland, Silver, Tintic; S. J. Comfort, Diamond, Tintic.

Superintendent of Common Schools.—Thomas Ord.

Selectmen.—Charles Sperry, Charles Foot, Elmer Taylor.

KANE COUNTY

Lies directly east of, and is bounded on the west by, Washington, on the north by Iron county, on the east by Colorado Territory, and on the south by Arizona. It is 250 miles east and west by 60 miles north and south, and contains a population of about 6,000. It was settled in 1857. The principal towns in Kane county are Toquerville, Virgen City, Rockville, Kanab, and Mt. Carmel. This county is also rich in minerals, though little has been done to develop them. It is well supplied with timber and grazing land, and has a fair supply of springs and streams for irrigation and stock. Many settlements in Kane county produce wine and an abundance of choice fruit, with excellent syrups, from the imphee and sorghum. In some localities cotton yields well. The eastern portion of the county is especially adapted to grazing and dairying, and is noted for the abundance and excellence of its butter, cheese, and beef. The principal streams in this county are the Virgen, Ash creek, Laverkin, Kanab creek, and Pahrea, with other streams and bodies of water. In the almost unexplored eastern part of the county, there is a delightful climate, with abundance of water, timber and grass, broad valleys of fertile soil; and iron, coal, silver, plumbago, copper, etc., have been discovered. Between Johnson and Pahrea there are acres of prostrate forests of tall trees, completely petrified and changed to "everlasting rocks." In a valley still east of the petrified forest, called "Potato Valley," there is an abundance of the

common potato growing wild ; and still farther east, ancient Aztec ruins are found. In the county are four flouring mills, four saw mills, and one lath and shingle mill.

COUNTY OFFICERS.

Probate Judge.—Wm. Bringhurst.

County Clerk and Recorder.—Martin M. Slack.

Treasurer.—Isaac Duffin.

Coroner.—Isaac C. Haight.

Assessor and Collector.—W. Bringhurst.

Notaries Public.—M. M. Slack, M. T. Farnsworth, W. M. Johnson.

Superintendent of Common Schools.—Sextus Johnson.

Selectmen.—George Spillsberry, James Lewis, J. Ferry.

MILLARD COUNTY

Is bounded on the south by Beaver county, on the east by Sevier and Sanpete counties, on the north by Tooele county, and on the west by the State of Nevada. Its county seat, Fillmore, was once the capital of the Territory, and has a population of some twelve hundred souls. The other principal towns are: Scipio, Holden, Oak City, Meadow, and Kanosh. There is considerable land in the county adapted to agriculture, but the scarcity of water for irrigation purposes renders much of it comparatively useless. The larger portion is suitable for grazing. Deposits of sulphur and brimstone have been discovered, and promise to become valuable. Millard has six flouring mills, four saw mills, one of them having steam power, and one lath and picket mill.

COUNTY OFFICERS.

Probate Judge.—Joseph S. Giles.

Sheriff.—Peter Huntsman.

Recorder.—F. M. Lyman.

Treasurer.—Nephi Pratt.

Assessor and Collector.—Joseph S. Giles.

Coroner.—O. H. Warner.

Notaries Public.—Thomas Yates, W. H. Damron, Joseph S. Giles.

Superintendent of Common Schools.—E. M. Webb.

Selectmen.—David Thompson, H. B. Owens, O. B. Cooley.

FILLMORE.

This city, as well as the county, is named after the late President Millard Fillmore, for whom the majority of the people of Utah entertain great respect. It is situated on the line of travel north and south, and contains an enterprising population of about 1,200.

CITY OFFICERS.

Mayor.—J. V. Robison.

Councilors.—Edward Partridge, F. M. Lyman, Lewis Brunsen, James C. Owens, H. J. McCullough.

Justices of the Peace.—B. H. Robison, Hiram Mace.

Recorder.—Nephi Pratt.

MORGAN COUNTY

Contains some 750 square miles, and is bounded west by Salt Lake, Davis, and Weber counties, north by Cache county, east by Rich and Summit counties, and south by Summit county. The Weber river, running through the cañon of the same name, divides the county, and along its banks, on either side, are the principal settlements and cultivated land. Agriculture is the leading industry, the soil yielding abundantly of wheat, oats, barley, potatoes, and other cereals and root crops. The low, rolling hills, which recede from the valley on either side of the river, seeded with a fine quality of grass, afford good range for grazing. The larger part of the county's area is mountainous, and in the mountains are a number of cañons, well filled with a fine growth of pine timber, suitable for lumbering purposes. In these cañons are three steam saw mills, four water-power saw mills, two

shingle mills, and one lath mill. There are also two flouring mills in the county. The farming land is limited in extent, being some twelve miles in length by about one in breadth, through which the river runs. The county has a superior quality of limestone, and furnishes large quantities of lime. It also has immense slate deposits, which are yet unworked; with iron ore and silver-bearing galena, a number of locations of the last named having been already made, and some work done on them, in the mountains on the north side of the valley. The Union Pacific railroad runs through the county, following the course of the Weber river. Population, about 2,000.

COUNTY OFFICERS.

Probate Judge.— Jesse Haven.

County Clerk.— Samuel Francis.

Sheriff.— David Sanders.

Recorder.— Thos. R. G. Welch.

Treasurer.— Richard Fry.

Assessor and Collector.— Thos. R. G. Welch.

Notary Public.— John Seaman.

Superintendent of Common Schools.— Joseph Porter.

Selectmen.— W. G. Smith, Jas. R. Porter, David Bybee.

MORGAN CITY,

The county seat, is situated on the Weber river, and here is Weber Station of the Union Pacific railroad. It is a thriving settlement, with an industrious population.

MUNICIPAL OFFICERS.

Mayor.— William Eddington.

Councilors.— Richard Fry, Charles Turner, Robert Hogg, Timothy Metts.

Justices of the Peace.— Samuel Francis, David Robinson.

Treasurer.— Richard Fry.

Recorder.— Thomas Welsh.

Marshal.— Thomas Lerwill.

PIUTE COUNTY,

Is bounded on the north by Sevier county, on the west by Beaver county, on the south by Iron county, and on the east by Colorado Territory. But a proportionately small area of the county is arable land, yet it has a large extent of good range for cattle, where stock raising can be profitably pursued. In the western side of the county valuable mineral deposits, carrying gold and silver, have been discovered, and to some extent worked, and an extension of the North and South Railroad in that direction is earnestly desired by those interested in the mines in the vicinity of Bullion City. The county is very thinly settled, owing to its exposed situation and the incursions of hostile Indians in years past.

COUNTY OFFICERS.

Probate Judge.— John Pope.

County Clerk and Recorder.— Jacob Hess.

RICH COUNTY.

The settlements in this county are mainly situated in the valley of the Bear River, as it winds along from Evanston, Wyoming, on the U. P. railroad, to Bear Lake. The county is bounded on the north by Idaho Territory, on the west by Cache and Morgan counties, on the south by Summit county, and on the east by Wyoming Territory. It has considerable cultivable land, and excellent range for cattle, while fish and game are plenty. There are, in the county, one flouring mill, three saw mills and two shingle mills.

COUNTY OFFICERS.

Probate Judge.— Wm. H. Lee.

County Clerk.— William Howard.

Recorder.— W. Howard.

Treasurer.— Wilford Woodruff, Jr.

Assessor and Collector.— Wm. Howard.

Superintendent of Common Schools.— W. P. Nebeker.

Selectmen.— Randolph Stewart, W. H. Lee, Ira Nebeker.

SALT LAKE COUNTY.

This is the most populous, wealthiest and important county in the Territory, and covers about 400 square miles. It is bounded on the north by Davis county, on the northeast by Morgan county, on the east by Summit and Wasatch counties, on the south by Utah county, on the west by Tooele county, and on the northwest by Great Salt Lake. The islands in Great Salt Lake are attached to it for judicial purposes. It comprises the southern end of Great Salt Lake valley, with the Wasatch mountains on the east and the Oquirrh range on the west, in which is a considerable area of cultivated land, principally on the east side and centre of the valley, south of Salt Lake City. The Big and Little Cottonwoods, West Mountain, Adams and Hot Spring mining districts, are in this county, and promise immense and permanent wealth from mining, and the manufactures and industries that will be developed in connection with it. In Salt Lake county are two woolen factories—the Deseret and Wasatch—with about five hundred spindles each, ten reduction works, one separating and refining works, and one concentrating works, with a large number of flouring, saw, and other mills. Besides Salt Lake City there are in the county a number of thriving and rapidly growing settlements, including Mill Creek, Big Cottonwood, South Cottonwood, Draper, Union, West Jordan and Herriman; Sandy, at the junction of the W. & J. V. R. R., and B. C. & C. F. R. R., with the Utah Southern railroad, and Granite, at the mouth of Little Cottonwood; with the mining towns of Alta and Bingham. The population of Salt Lake county is over 35,000.

COUNTY OFFICERS.

- Probate Judge.— Elias Smith.
- County Clerk.— D. Bockholt.
- Sheriff.— Robert T. Burton.
- Recorder.— Edwin D. Woolley.
- Prosecuting Attorney.—Z. Snow.

Miners' Boots, Shoes & Gloves at Dunford & Sons.

Assessor and Collector.— Robert J. Golding.

Treasurer.— Theodore McKean.

Coroner.— George J. Taylor.

Surveyor.— Charles W. Hardy.

Notaries Public.— (See Salt Lake, Alta and Bingham.)

Superintendent of Public Schools.— Robert L. Campbell.

Selectmen.— Reuben Miller, Isaac M. Stewart, E. Malen Weiler.

Deputy Sheriffs.— R. J. Golding, Albert Dewey, Wm. Burton, Salt Lake ; Martin Florida, Alta.

Precinct Pound Keepers.—Robert Hazen, Brighton; Charles I. Robson, Sugar House; John Morgan, Mill Creek; Caleb D. Brinton, Big Cottonwood; A. W. Smith, Draper; W. A. Bills, South Jordan; Ensign Stocking, Fort Herriman.

ALTA,

The business centre of the Little Cottonwood mining district, is located eleven miles up the cañon, at the foot of the famous Emma Hill, and within a short distance of the Emma, Flagstaff, and other valuable mines. From the character of the mineral deposits in the surrounding mountains, there is little doubt that this town, at the head of a beautiful and picturesque cañon, and nestling in the bosom of the deep gorge, will have a permanent prosperity. The population varies, according to the season, from 800 to 1,500; fewest in winter and most numerous in summer.

BINGHAM,

The business centre of the West Mountain mining district, is located in Bingham Cañon, and is the present terminus of the Bingham Cañon and Camp Floyd R. R. Its people are enterprising, and surrounded as it is by immense deposits of silver-bearing lead ores and by gold diggings, there is undoubtedly a prosperous and permanent future before it. Below the town, lower down the Cañon, is the smelting works of the Winamuck Company. Bingham has a Good Templar Lodge, with the following officers: J. L. Stuart, W. C. T.; Miss S. L. Young, W. R. H. S.; Miss Emma Henderson, W. L. H. S.; Miss Caroline B. Blake, W. V. T.; H. T. Berton, W. S.; F. M. Dennis, W. F. S.; Miss S. A. Stuart, W. T.; S. E. Walker, W. M.; Miss M. Henderson, W. I. G.; John Hogan, W. O. G.; Rev. Pearce, W. C.; Benjamin Weller, T. W. C. T.; J. W. Burns, Lodge Deputy.

At DUNFORD & SONS CAN BE FOUND THE LARGEST STOCK of BOOTS,

SANPETE COUNTY

Is one of the most prosperous and self-sustaining counties in the Territory. It used to be called "The Granary of Utah," but Cache county of later years has successfully disputed that title with it. Sanpete valley is over fifty miles in length from north to south, semi-divided by a range of mountains that juts downward into it. In this valley are Fairview, Mount Pleasant, Spring City, Ephraim, Manti—the county seat—and Gunnison, the last named on the Sanpitch river, and all nearly on a line on the east side of the valley; while Moroni is situated nearer the dividing ridge of mountains and with Fountain Green on the mail road from Nephi, Juab county. Sanpete is bounded on the north by Wasatch and Utah counties, on the west by Juab and Millard counties, on the south by Sevier county, and on the east by Colorado Territory. Besides its agricultural importance it is rich in mineral deposits, particularly in coal and iron. The former is found near Manti, Fairview, and Mount Pleasant, and in the neighborhood of Wales, in extensive beds. Near Moroni, iron ore is declared to exist in such quantity that the deposit is called an iron mountain; while near Ephraim and Fairview building rock, of good quality and easily worked, exists in unlimited quantity. The county has also excellent and extensive range for cattle. There are in Sanpete eleven flouring and twelve saw mills.

COUNTY OFFICERS.

Probate Judge.—George Peacock.

County Clerk.—William T. Reid.

Prosecuting Attorney.—Franklin Spencer.

Sheriff.—George P. Billings.

Recorder.—W. T. Reid.

Treasurer.—Fred W. Cox.

Assessor and Collector.—A. E. Merriam.

Coroner.—Henry Beal.

Notaries Public.—James C. Brown, George Farnworth,

Rees R. Llewellyn, J. P. Christensen, C. A. Madsen, Aaron Hardy.

Superintendent of Common Schools.—W. T. Reid.

Road Commissioner.—James A. Allred.

Selectmen.—Abner Lowry, James A. Allred, Henry Beal.

MANTI,

The county seat of Sanpete, is eligibly situated, and in a surrounding country of fertility and richness. Estimated population, 1,600.

MUNICIPAL OFFICERS.

Mayor.—Anthony W. Bessey.

Aldermen.—Andrew C. VanBuren, John H. Hougaard.

Councilors.—John Grier, William Lake, Jens Hansen Wodskow.

Recorder.—James C. Brown.

Attorney.—James C. Brown.

Assessor and Collector.—John L. Bench.

Marshal.—Hans Madsen.

EPHRAIM

Is one of the largest and most influential municipalities in the county, with a population estimated at nearly 2,000.

MUNICIPAL OFFICERS.

Mayor.—George Taylor.

Councilors.—Niels C. Christiansen, Henry Beal, C. C. A. Christensen, Peter Greaves, Louis Olsen.

Recorder.—Alfred Bailey.

Assessor and Collector.—Parlan McFarlane.

Marshal.—N. L. Christensen.

FAIRVIEW

Is the agricultural town of Sanpete, *par excellence*; has an industrious people, and abundant resources convenient. Population about 750.

Infants' Shoes all Colors at Dunford & Sons.

MUNICIPAL OFFICERS.

Mayor.— Amasa Tucker.

Councilors.— John Cox, Sr., James Pritchett, Sr., Andrew Rassmussen, Peter N. Hansen, William A. Allred, Warren P. Brady.

Justices of the Peace.— Henry W. Saunderson, Lycurgus Wilson.

Recorder.— Philip Hurst.

Treasurer.— Archibald Anderson.

Assessor and Collector.— J. F. Young.

Marshal.— J. M. Allred.

MORONI

Is pleasantly situated on a side hill, facing the south, with excellent arable land contiguous ; and immense deposits of iron ore, of a quality equal to the best Swedish, are said to exist in the neighborhood. Population, about 650.

MUNICIPAL OFFICERS.

Mayor.— Jens C. Nielsen.

Councilors.— Lars Svensen, Joseph Shepherd, John M. Irons, James Cloward, Niels Christensen.

Justice of the Peace.— Joel H. Child.

Recorder.— Charles Kemp.

Attorney.— H. N. Larter.

Treasurer.— Jens Jensen.

Marshal.— A. O. Smith.

MOUNT PLEASANT

Is a flourishing place, its inhabitants cultivating a large area of fertile land. Coal in abundance exists close by.

MUNICIPAL OFFICERS.

Mayor.— Joseph Page.

Councilors.— C. H. Wheelock, A. Madsen, A. H. Bennett, W. P. McArthur, O. Seeley.

Justices of the Peace.—Edward Cliff, W. F. Reynolds.
Recorder.—Jer. D. Page.
Treasurer.—M. Madsen.
Marshal.—Nelson Tidwell.

SPRING CITY

Has excellent agricultural resources, with a population of about 1,000.

MUNICIPAL OFFICERS.

Mayor.—James A. Allred.
Councilors.—Samuel B. Frost, Redic N. Allred, John Larsen, Henning Olsen, Samuel G. Bunnell, Joseph T. Ellis.
Justices of the Peace.—William S. Barney, Isaac M. Behunin.
Recorder.—Samuel R. Aiken.
Attorney.—Joseph T. Ellis.
Treasurer.—S. R. Aiken.
Assessor and Collector.—W. S. Barney.
Marshal.—Neils R. Thompson.

SEVIER COUNTY

Is bounded on the north by Sanpete county, on the west by Millard county, the ridge of mountains lying between being the dividing line, on the south by Piute county, and on the east by Colorado. The settled portion of the county, situated on its western side, is a beautiful valley through which the Sevier river flows. An abundant supply of water is obtained from it for irrigating purposes, by means of the Richfield canal on the west side of the river, and the canals of Monroe, Annabella Springs and Prattville precincts on the east. The river abounds with trout and other kinds of fish. East of the range of mountains, bounding the Sevier valley on its eastern side, are a chain of small but fertile valleys, of from three to five miles in width and from five to fifteen in length, containing excellent farming and meadow land, where

settlement is being pioneered by General A. K. Thurber, of Utah county. The east fork of the Sevier river has its rise in one of these little valleys, and it runs through the chain. Timber is plentiful and easily got at, as is wood for fuel. But little is known of the mineral deposits of this region. Hematite, iron ore and fire clay have been found, and one of the most experienced "prospecters" on the Pacific coast, who has partially explored the region, found specimens of gold-bearing quartz and is satisfied it is rich in gold. Fish lake, lying on the "Rim of the Great Basin," seven miles distant from Grass valley, where the new settlement is being made, is a natural curiosity, being a beautiful sheet of water away up on the mountain, six to seven miles in length by one and a half wide, having abundance of fine trout; and from this lake, at some by-gone period, the boulders have been removed and piled up, forming a sort of levee on its margin. Rabbit valley, twenty miles east of Grass valley and still unsettled, is twenty-five miles in length by some seven in width. It has good land, plenty of water, with extensive summer and winter range for stock; and being over the "Rim of the Basin" its climate is supposed to be mild. South and west from Rabbit valley is the great timber country of southern Utah, an immense body of pine, mixed with aspen, estimated to cover an area of 400 square miles.

Sevier county was organized in 1865; had to be abandoned in 1867, owing to Indian raids upon the settlers, and was reoccupied in 1870. The principal settlements are Glenwood, Salinas and Monroe. There are extensive rock-salt deposits near Glenwood, and gold and silver have been found near Monroe and Salinas. In the county are three flouring mills, two saw mills, one run by steam power, and two shingle mills.

COUNTY OFFICERS.

Probate Judge.—George W. Bean.

County Clerk.—Austin M. Farnsworth.

Sheriff.—George Ogilvie.

Recorder.— A. M. Farnsworth.

Treasurer.— Christian Christiansen.

Assessor and Collector.— James M. Peterson.

Coroner.— William McBride.

Notaries Public.— Michael Johnson, Isaac W. Pearce,
Wm. McFladgen.

Superintendent of Common Schools.— Hans P. Miller.

Selectmen.— Josiah F. Martin, Moses Gifford, Archibald
Buchanan.

SUMMIT COUNTY

Is bounded on the north and north-west by Morgan and Rich counties, on the west by Salt Lake county, on the south by Wasatch county, and on the east by Wyoming and Colorado Territories. Having a high altitude, the climate is cold, and snow falls deep during the winter. There are extensive forests of pine and tamarack in the southeastern part of the county, which has a wide range for stock with abundant grass. Only a small portion, comparatively, of its area is adapted to agriculture, being confined to the narrow valleys along the streams, of which Weber river is the most important; but these are very fertile and produce heavy crops of cereals and vegetables when not visited by early frosts. It has extensive quarries of building and flagging rock, which will eventually become an important export from the county. Summit county is conspicuous for its coal beds, which are of considerable breadth with veins of remarkable thickness. Eighteen coal mines are now open, of which number but eight are being worked at present, within a short distance of Coalville, the county seat. These yielded at the beginning of 1874 an average of a hundred and seventy-five tons per day. The coal traffic from these mines is steadily on the increase, and is rapidly becoming an important and extensive business in this county. Summit has three flouring mills and seven saw mills.

COUNTY OFFICERS.

Probate Judge.—Elias Asper.

County Clerk and Recorder.—Robt. Salmon.

Deputy Sheriff.—Edw. Allison.

Treasurer.—Henry Evans.

Assessor and Collector.—Orin S. Lee.

Coroner.—Orin S. Lee.

Notaries Public.—Thomas Bullock, Godfried Sperry, J. W. Black.

Superintendent of Common Schools.—John Boyden.

Selectmen.—W. E. Pack, H. W. Brizee, Charles Richins.

COALVILLE,

The county seat of Summit, is situated above the right bank of the Weber river, with an estimated population of nearly a thousand; and, as the source of supplies for the coal mines contiguous, it must rapidly become a place of importance.

CITY OFFICERS.

Mayor.—Alma Eldredge.

Councilors.—Henry Evans, G. H. Peterson, C. L. Hawkins, H. Merrill, W. W. Cluff.

Justices of the Peace.—A. L. Smith, Robert Salmon.

Recorder.—John Boyden.

Treasurer.—William Hodson.

Assessor and Collector.—Robert Salmon.

Marshal.—Edward Allison.

TOOELE COUNTY

Is one of the largest and richest in resources in Utah, and it probably contains more square miles of absolute desert than any other county in the Territory. It extends from 39½ to 41 degrees north latitude, and nearly from 112 to 114 west longitude; being bounded on the north by Box Elder county, on the west by the State of Nevada, on the south by Millard county, and on the east by Juab, Utah and Salt Lake coun-

Debts, as they do an Exclusive Cash Business.

ties and by Great Salt Lake. In it are the Ophir, Rush Valley, Columbia, West Tintic, Camp Floyd, Deer Creek, or Clifton, Stockton, Lakeside, and Newfoundland districts, of which more will be found under the head MINING DISTRICTS. Tooele valley—or Tuilla, as it was formerly spelled—contains the largest extent of cultivated land; while Rush and Skull valleys afford excellent range for stock, as does the larger portion of the western side of the county. The soil, where cultivated, is very productive, and the county is a highly prosperous one. In Tooele county are four stamp mills, with fifty stamps; three being in East canon and one in Camp Floyd; seven smelters, two at Rush Lake, two at Stockton, two at Ophir, and one at Deep Creek; four arastras, all in East canon; two flouring mills, eleven lumber or saw mills, four lath mills, two picket mills, and one shingle mill. Tooele City is the capital, besides which are the following settlements in the county: Grantsville, E. T. City, Pine canon, St. John's, Centerville, Vernon, Quincy, Deep Creek, Stockton, Ophir, Jacobs City, and Lewiston, the four last named being lively mining camps. Population of the county over 4,000.

COUNTY OFFICERS.

Probate Judge.—John Rowberry.

County Clerk.—Richard Warburton.

Sheriff.—W. H. Lee.

Recorder.—R. Warburton.

Treasurer.—Thos. Atkin, Jr.

Assessor and Collector.—W. H. Lee.

Coroner.—John Gillespie.

Notaries Public.—T. J. Hammerlund, Tooele; Emanuel Bagley, Grantsville; Laurence A. Brown, John LaBlanc, Ophir; B. F. Shaw, Lewiston.

Prosecuting Attorney.—L. Gee (Tooele) with L. B. Gibson (Ophir) Assistant Prosecuting Attorney.

Superintendent of Common Schools.—A. Galloway.

Road Supervisor and Pound Keeper.—George Atkin.

Dunford & Sons keep the best Line Gents' Gloves in the City.

Selectmen.—Cyrus Bates (Grantsville), George Atkin (Tooele), George W. Bryan (Roseville).

Justices of the Peace.—L. Gee; A. Galloway (Tooele); John W. Cooley (Grantsville); T. W. Moss (E. T.); David H. Caldwell (St. John's); E. C. Chase (Stockton); John La Blanc, Laurence A. Brown (Ophir); Adam Sharp (Vernon); James Worthington (Deep Creek).

TOOELE CITY,

The county seat, has a thriving, industrious population. It is considered the best fruit and vegetable district in the county. Population about 1,000.

MUNICIPAL OFFICERS.

Mayor.—Andrew Galloway.

Aldermen.—Robert S. Kelton, Charles A. Herman.

Councilors.—George Atkin, William H. Lee, Abel Parker.

Recorder.—Richard Warburton.

Treasurer.—Thomas Atkin, Jr.

Marshal.—William H. Lee.

Road Supervisor.—Samuel W. Orme.

GRANTSVILLE

Is the largest town in the county, and is the centre of a fine farming region, which will insure it permanent prosperity. Population estimated at 1,100.

MUNICIPAL OFFICERS.

Mayor.—Edward Hunter.

Aldermen.—George Whittle, John W. Cooley, Benjamin Barrus.

Councilors.—James McBride, John W. Clark, Andres Nielson, Hyrum Booth, Thomas Williams.

Recorder and Auditor.—Emanuel Bagley.

Philadelphia Boots and Shoes at Dunford & Sons.

Treasurer.—A. H. Hale.

Assessor and Collector.—A. W. Sabin.

Marshal.—Alma H. Hale.

Street Supervisor.—John Gibson.

OPHIR,

Situated in East cañon, is the business centre of the important Ophir mining district, its specialties being mining, reduction works and merchandising. Population varying from 700 to 1,000.

UTAH COUNTY,

The first county south of Salt Lake, and one of the most influential in the Territory, is formed by a beautiful valley containing and surrounding Utah Lake, on the north, north-east, and east of which lie the leading settlements. It is bounded on the south by Juab and Sanpete counties, on the west by the summit of the range between Cedar and Rush valleys, on the north by the summit of the cross range between Oquirrh and Wasatch mountains, and on the east by the summit of the range passing the head of Dry, American Fork, Battle, Hobble and Spanish Fork creeks, and a line drawn due north and south across Provo—or Timpanogas—river at a point one-fourth of a mile above the north fork of that river, each extremity of the line to intersect the summit of the last named range. The county seat is Provo city. The county contains sixteen precincts, nineteen school districts, and sixteen road districts. Utah county was settled in 1849, and was organized as a county in 1852. The first settlement was on the Provo river; then came others at Springville, or Hobble creek, and at Payson, or Peteetneet creek; and afterwards the county settled up rapidly. The east and north sides of Utah Lake contain some excellent arable land, which is well cultivated, with meadow land and

Merchants will do well by calling at Dunford & Sons before purchasing.

range for stock. The west side is not so well watered, and, consequently, a much smaller portion of it is under cultivation. Provo river furnishes abundant water-power which is being utilized to advantage. Utah Lake is a body of fresh water thirty miles in length by about six broad, being fed by Provo river, American Fork, Hobble, Spanish Fork, Peteetneet and Salt creeks, and having its outlet through Jordan river, which flows northward and empties into Great Salt Lake. Utah Lake abounds with trout, mullet and chubs.

COUNTY OFFICERS.

Probate Judge.—Warren N. Dusenberry.

County Clerk and Recorder.—L. John Nuttall.

Sheriff.—Henry C. Rogers.

Surveyor.—John B. Milner.

Treasurer.—Henry A. Dixon.

Assessor and Collector.—James E. Daniels.

Coroner.—Albert Jones.

Notaries Public.—C. D. Evans, L. John Nuttall, Elijah Mayhew, John McEwan, William Greenwood, Israel Evans, John B. Milner, Isaiah M. Coombs.

Superintendent of Common Schools.—Warren N. Dusenberry.

Selectmen.—Albert K. Thurber, Thomas J. McCullough, Myron Tanner.

PROVO CITY

Is beautifully situated contiguous to the Provo or Timpanogas river, and on the north-east side of Utah lake. It is the present terminus of the Utah Southern railroad, and is a flourishing place. The Provo *Times*, published daily, Sundays excepted, is a lively little paper, owned and edited by Messrs. R. G. Sleater, Joseph T. McEwan and Oscar F. Lyons. The Provo woolen mills is a notable feature of the city, being the largest establishment of the kind in the West. The buildings number four: one 140x60 feet, four stories high; one 130x30 feet, two and a half stories high; one 70x30 feet; and one 60x30 feet. There are in the mills four

Call and examine our Goods at **DUNFORD & SONS.**

“mules” with 3,240 spindles, machinery for carding, dyeing and preparing 2,000 lbs. of wool per day; and a hundred and fifteen looms, broad and narrow, which turn out superior fabrics. Two hundred and ten thousand dollars is the amount invested in this enterprise, which is conducted on the coöperative principle.

MUNICIPAL OFFICERS :

Mayor.—A. O. Smoot.

Aldermen.—L. John Nuttall, Albert Jones, Samuel S. Jones.

Councilors.—James Dunn, William B. Pace, William A. Follet, John B. Milner, James W. Loveless.

ALPINE CITY

Lies north-east of Lehi, up nearer the mountains, and is a live, progressive little city.

MUNICIPAL OFFICERS.

Mayor.—Thos. J. McCullough.

Aldermen.—Richard T. Booth, David Adams.

Councilors.—George Clark, Ephraim Healy and Ephraim Nash.

Recorder.—R. T. Booth.

Marshal.—George Hackett.

AMERICAN FORK

Is located between Lehi and Provo, a station of the Utah Southern railroad and the Valley terminus of the American Fork Canon railroad, which passes up to the mines of that district, through the beautiful and sublime scenery for which the canon is noted.

MUNICIPAL OFFICERS.

Mayor.—L. E. Harrington.

Aldermen.—John Hindley, Arza Adams.

Councilors.—William Paxman, Joseph B. Forbes, James Chipman.

Recorder.—John Duncan.

Treasurer.—William Greenwood.

Assessor and Collector.—John Duncan.

Marshal.—John Wilde.

Supervisor of Streets.—James Huggard.

LEHI

Is located in the northern end of the county, is a way station of the Utah Southern railroad, and has an estimated population of 1,500.

MUNICIPAL OFFICERS.

Mayor.—Wm. H. Winn.

Aldermen.—Israel Evans, John Woodhouse.

Councilors.— William Clark, William Gates, Ole Ellingson.

Recorder.— Joseph T. H. Colledge.

Prosecuting Attorney.— J. T. W. Norton.

Marshal.— Thomas Fowler.

PAYSON,

At the south end of Utah lake, is a growing municipality, with a population of about two thousand.

MUNICIPAL OFFICERS.

Mayor.— Orrawell Simons.

Aldermen.— Jonathan S. Page, James Finlayson, Henry G. Boyle.

Councilors.— Wm. C. McClellan, John P. Wimmer, Thomas H. Wilson, Barry Wride, W. S. Tanner.

Recorder and Auditor.— Isaiah M. Coombs.

Treasurer.— John H. Moore.

Assessor and Collector.— Henry W. Barnett.

Surveyor.— Daniel Stark.

Supervisor of Streets.— George Patten.

Marshal.— J. J. McClellan.

SPANISH FORK

Is six miles north of Payson, and is eligibly situated. It has a population of over seventeen hundred.

MUNICIPAL OFFICERS.

Mayor.— George D. Snell.

Aldermen.— William Creer, Thomas C. Martell.

Councilors.— Allen Adamson, Rufus P. Snell, Thomas D.

Evans.

Recorder.— Samuel J. Raymond.

Treasurer.— William Robertson.

Auditor.— Samuel Cornaby.

Marshal.— John Robertson.

SPRINGVILLE,

Six miles south of Provo, the county seat, is a handsome little city of some two thousand inhabitants, with fine arable land west of it, between the city and the lake.

MUNICIPAL OFFICERS.

Mayor.— Lyman S. Wood.

Aldermen.— Solomon Chase, J. W. Bissell.

Councilors.— Alex. Robertson, John Maycock, Hugh M. Dougall.

Recorder and Auditor.— F. C. Boyer.

Treasurer.— John Maycock.

Assessor and Collector.— Numan Bulkley.

Marshal.— F. P. Whitmore.

WASATCH COUNTY

Contains an area of about 7,000 square miles and a population of some 4,000 souls, a fourth of whom are Indians. It is bounded on the west by Utah and Salt Lake counties, on the north by Summit county, on the east by Colorado Territory, and on the south by Sanpete county. Wasatch county is very mountainous, with valleys intervening which are elevated, yet susceptible of profitable cultivation. Heber City, the county seat, is pleasantly situated in Provo valley, near the Timpanogas river, and twenty-five miles from Provo City. The Timpanogas flows down Provo cañon and past Provo City, emptying into Utah lake; and the scenery down the cañon is unusually bold and grand, precipitous mountains rising on either hand, while the river dashes along at their base. There is a cascade, eighteen hundred feet, which is a noteworthy attraction to the tourist, midway in the cañon. Three miles from Heber City and one mile from the settlement of Midway are found a number of hot wells, which are an attractive natural curiosity. The valley in which the wells are found is some twenty miles in length by ten in width. To the west the mountains rise

high and precipitous, their peaks continually capped with snow, while to the east they are sloping, grass-covered and wearing a mantle of verdure that forms a beautiful contrast to the snow on the opposite side of the valley. There are about fifty of these wells, which have formed rims of limestone by the deposits from the water, as it has risen in them and flowed over, first to the one side and then to the other. These rims are from twenty to a hundred feet in height; and, leaning over towards the centre of the basin, with the water underneath, resemble hugh bowls. Several of the wells are dry, and so heavy is the amount of lime held in solution in the water, that a lime kiln has been made in one side of the largest dry well, which is sixty feet across, and the kiln is supplied from the limestone deposited by the water that formerly was in the well. Others of the wells are from five to thirty feet in diameter, and in most of them the water is seen to rise and fall, in the most varied tints of color, presenting a strange yet beautiful appearance. Sticks and stones placed in the water are speedily crusted over with the lime, and specimens can be easily procured. The county abounds in fish and game, and offers advantages to the hunter or tourist. It has two first-class flouring mills which make a superior article of flour, and five saw mills. Lead and silver, with a little gold and some copper, are found in Wasatch county.

COUNTY OFFICERS.

Probate Judge.—Thomas H. Giles.

County Clerk.—Charles Shelton.

Sheriff.—Richard Jones.

Recorder.—John Galagher.

Treasurer.—William McDonald.

Notary Public.—Richard Campe.

Superintendent of Common Schools.—T. H. Giles.

Selectmen.—J. W. Witt, Wm. E. Nuttall, John Wadhus.

WASHINGTON COUNTY

Is bounded on the north by Iron county, on the east by Kane county, on the south by Arizona, and on the west by Nevada. It is 60 miles north and south, and about 70 miles east and west, lying in the southwest corner of the Territory, directly north of the 37th parallel, and outside of the "Rim of the Great Basin," its waters flowing to the Gulf of Mexico. Its lower valleys having a warm, sunny climate, the mercury ranging through the year from 25° to 114° Fahrenheit, are suited by soil and climate to perfection of grapes and most kinds of fruit and vegetables, grain and cotton, tobacco, rice, etc. The face of the country is generally barren and unfruitful, even to growth of grasses. The principal streams are the Rio Virgen and Santa Clara, each having lateral branches, and there are also many springs of importance to the horticulturist, which give aid in peopling several towns. This county is very sparsely timbered, although around Pine Mountain there are groves of cedars, and high in the mountains very good pines for timber. Its mineral resources are abundant, silver, copper, lead, iron, coal, gypsum, cement, lime, chalk, and other minerals having been found, but are, thus far, undeveloped. The principal products are wine, grapes, and other fruits, cotton, molasses, and honey. The first white settlements were made in 1856-7, at Washington, Santa Clara and Virgen. The principal towns in Washington county are: St. George, the county seat, Washington, with a population of about 1,500 and a fine cotton and woolen factory, and Santa Clara; with a number of smaller settlements. There are in the county three flouring, three saw, and two shingle and lath mills, and one cotton and woolen factory. Population of the county about 10,000.

Washington and Kane counties form what is generally known as "Southern Utah," and contain about forty cities, towns and settlements, comprising every shade of climate and temperature from 114° in the shade to icicles in mid-

Cash Buyers will do well to Buy from DUNFORD & SONS.

summer, all within the space of a day or two's ride. The manufactures are woolen and cotton yarns and fabrics, leather, shoes and boots, harness ware, syrups, wines, raisins, brooms, castor and other oils, and medicines.

COUNTY OFFICERS.

- Probate Judge.—William Snow.
 County Clerk and Recorder.—Alden A. M. Jackson.
 Sheriff.—Dan. Seegmiller.
 Prosecuting Attorney.—John M. McFarlane.
 Treasurer.—Richard Bently.
 Assessor and Collector.—Daniel Seegmiller.
 Notaries Public.—James G. Bleak, Wm. P. Sargent,
 Joseph E. Johnson, A. A. M. Jackson.
 Supt. of Common Schools.—Joseph E. Johnson.
 Selectmen.—M. Ensign, N. Ashby.

ST. GEORGE,

The county seat of Washington county, located at the junction of the Rio Virgen and Santa Clara rivers, and about ten miles north of the Arizona line, is the principal city of Southern Utah, and is noted for fine gardens and rare fruits, although in many instances the earth had to be hauled miles to make the gardens on the alkaline sands. It has a number of very fine buildings, prominent among them being a Tabernacle, 56 × 106 feet, walls 75 feet high, and built of cut red sandstone; with a spire, clock and bell. There is also a large temple in course of erection, black volcanic rock being the material used. St. George has a public hall, large courthouse, four fine school-houses, six stores, and a number of mechanics' shops; but no saloons. It also has a public library, a Young Men's Historical association, a Horticultural association, a telegraph office, an express office, and a printing office owned by J. E. Johnson, one of the pioneer editors of Iowa and Nebraska, who edits and publishes a small monthly journal — *The Utah Pomologist* — devoted to horticulture and local matters.

No trouble to Show Goods: Dunford & Sons.

CITY OFFICERS.

Mayor.—Robert Gardner.

Aldermen.—Richard Bently, Henry W. Miller.

Councilors.—William Carter, Joseph E. Johnson, James G. Bleak, David H. Cannon, Erastus W. Snow.

Recorder and Auditor.—Alden A. M. Jackson.

Treasurer.—Richard Bently.

Assessor and Collector.—John O. Angus.

Chief of Police.—Daniel Seegmiller.

WEBER COUNTY.

This county, with Ogden for its county seat, is one of the most important and oldest settled in the Territory, Ogden City being located in September, 1850. It is bounded on the north by Box Elder county, on the west by Great Salt Lake, on the south by Davis county, and on the east by Morgan county. It contains a large breadth of arable and grazing land, and in the mountains contiguous to Ogden, iron and lead-bearing silver have been discovered, and some work been done upon a number of claims, the mining district being named the Ogden Junction district. Twelve miles from Ogden, up a beautiful canon, abounding in sublime and romantic scenery, is Ogden valley, in the county, where are the towns of Huntsville and Eden. The other towns, besides the county seat, are North Ogden, Plain City, Harrisville, Lynne, Slaterville, Hooperville, Alma, and Riverdale. The county has five flouring mills, two saw mills, and two shingle mills, with a population of about 11,000.

COUNTY OFFICERS.

Probate Judge.—F. D. Richards.

Prosecuting Attorney.—F. S. Richards.

Recorder.—F. S. Richards.

Sheriff.—William Brown.

Treasurer.—Walter Thompson.

Assessor and Collector.—Joseph A. West.

Superintendent of Common Schools.—Wm. W. Burton.
Surveyor.—David Jenkins.

Notaries Public.—Wm. Critchelov, F. S. Richards.

Selectmen.—Aaron F. Farr, Gilbert Belknap, Richard Ballantyne.

OGDEN,

The county seat of Weber county, and the junction of the Union and Central Pacific, as it is the northern terminus of the Utah Central and the southern terminus of the Utah Northern railroads, is the second city in Utah in population and commercial importance. Weber county was settled in September of 1848, and in the same month, two years later, Ogden was located. It was incorporated in January of 1851, and being the central point for a fine agricultural and pastoral region, it flourished and grew in importance. When the junction of the two great branches of the Overland railroad was fixed here, Ogden quickly gained a prominence that added rapidly to its commercial influence. In the summer of 1873 a portion of Main street, where the principal business houses are located, was burned, the loss aggregating over \$30,000, being the largest fire that, up to this compilation, has occurred in the Territory. The *Ogden Junction*, a lively and well-edited newspaper, issued daily and semi-weekly by the "Ogden Junction Publishing Co.," C. W. Penrose, editor and business manager, is published here, and is directed with ability to further the interests of the city and Northern Utah generally. Extensive iron works are projected and expected to be built at an early date, to work the deposits of iron ore known to exist in the adjacent mountains. Ores carrying gold, silver, lead, antimony and tin, in greater or less quantity, have also been discovered in the mountains not far from the city. Ogden has a large tabernacle, devoted to the worship of the Latter-Day Saints, with meeting houses in the different ecclesiastical wards, one Episcopalian church, one Methodist Episcopal church, one Spiritualist hall and one theatre. The City Hall has a lec-

DEALER IN

DRUGS AND MEDICINES

PERFUMERY,

TOILET ARTICLES, FANCY SOAPS,

BRUSHES, ETC.,

West Side Main St., bet. 4th and 5th, Ogden, Utah.

The best quality of Wines and Liquors for medicinal use constantly on hand. Our drugs warranted fresh and genuine. Special attention paid to compounding prescriptions.

MINING DISTRICTS IN UTAH.

Although for over twenty years it has been known that Utah contained mineral deposits, it was not until ten years ago that the first mining district was organized in the Territory; and even then mining was found impracticable, owing to the absence of railroad communication and the heavy expense of freighting by mule and ox trains to distant points. The first district organized was that of West Mountain, in December of 1863. After the completion of the great overland railroad, and the construction of the Utah Central railroad, in 1869, "prospecting" was largely entered upon, and districts were organized as discoveries warranted them, until a large portion of the mountain ranges of the Territory are now so divided. The principal districts, alphabetically arranged are:

ADAMS DISTRICT.

Adams District is situated north and east of Salt Lake City, and distant seven miles. The approach is through City Creek cañon, over one of the best canon roads in the Territory. Prospecting has been carried on for three or four years, but without success until May 21st, 1873, when the "Julia" was located. Prospectors immediately flocked in, and a district was formed from the Hot Spring Mining District, on July 3d, 1873. The district covers an area of forty-nine square miles. Nearly one hundred locations have been made and about thirty claims worked to good advantage. The formation is regular; general course of the strata is nearly north-west and south-east, bearing east and west. Principal locations are:

The Julia Lode—Shaft sunk about forty-five feet, the surface-showing being a large boulder of carbonate of iron, with a ledge of vein matter from one to three feet in width.

Dunford & Sons have all the latest novelties in Hats and Caps.

INCORPORATED 1870.

DIRECTORS.

BRIGHAM YOUNG, President.
WILLIAM JENNINGS, Vice President.
GEORGE A. SMITH.
WILLIAM H. HOOPER, Superintendent.
HORACE S. ELDRIDGE,

WARM SPRING BATHS,

SALT LAKE CITY.

The water of these Baths, from a Thermal Spring northwest of the city, is of a highly medicinal quality, carrying Carbonate of Lime and Magnesia, Peroxide of Iron, Chlorine, Soda, and Magnesia.

DR. CHARLES T. JACKSON, of Boston, in concluding the report of an analysis made of the water in 1849, says :

"It is slightly charged with Hydro-Sulphuric Acid Gas, and with Carbonic Acid Gas ; and is a pleasant saline, Mineral Water, having valuable properties belonging to Saline Sulphur Springs."

Plunge and Private Baths

FOR LADIES AND GENTLEMEN.

The Bath Rooms have been re-fitted and re-decorated,

AND THE

WARM SPRING BATHS

*are now a favorite resort of Citizens and Travelers
who remain over a day in Salt Lake.*

STREET CARS RUN FROM THE LEADING HOTELS TO THE BATHS.

HENRY ARNOLD, Sup't.

New Jersey—Located June 17, 1873, and presented almost at the surface a two-foot vein of galena, assaying twenty-two ozs. silver and seventy-four per cent. lead; shaft sixty feet, with a good hanging wall of blue limestone; vein uniform in width from top to bottom, and runs in a northerly and southerly direction, cutting the formation nearly at right angles. In November about fifty tons of ore were shipped to Salt Lake.

Idaho Lode—Situating on the north side of Dry Gulch; located July 3d, 1873; developed by a shaft sixty feet running through a series of pockets, containing galena.

Eldorado—On the south side of Dry Gulch; discovered June 18th, 1873; shows a five-foot vein of ledge matter; with small pockets of galena, assaying from twenty-eight to thirty dollars per ton; shaft thirty feet.

Board of Trade—Situating at the head of Dry Gulch; is one of a group of four excellent claims—the Board of Trade, Ixion, Badger and Falcon, all promising locations.

Richmond—South side of Dry Gulch; encouraging appearance; was located June 26th, 1873; shaft thirty-eight feet deep on a vein of carbonates and galena, varying in width from one to three feet; highest assay, forty ounces silver and twenty per cent. lead. On the same hill are situated the Rob Roy, Catherine, Nixon and Marie Louisa.

Gen. Scott—On Scott Hill; located June 1st, 1873; property of H. W. Lawrence & Co.; shaft 100 feet, through a four-foot vein of ledge matter containing galena and iron in a state of oxide. From assays made thirty ounces silver, and from fifty to seventy per cent., with a small per centage of antimony, were obtained.

Red Bird—The principal location on Scott Hill; shaft sixty feet, through a vein averaging three feet, and containing galena of low grade, with iron averaging fifteen per cent.

Summit—Sister claim to the Red Bird, and much of the same character, although the Summit ore contains less iron.

Victorine—Situating at the head of North Mill Creek cañon; shaft fifty feet sunk through a four-foot ledge of burnt iron and galena.

The Henry—Lying between the Scott and Victorine, and the property of the same owners; shaft 100 feet; showing similar to the Scott. The North Star, Great Eastern, Snow Drift, Cerro Gordo, Chipmunk, and some minor locations have nearly the same look.

The Beacon Ledge—The first location made of milling

ore; shows traces of copper, silver, gold and lead; formation sub-carboniferous limestone, with an overlying band of friable quartzite; highest assay made was \$113. Adjoining this claim is the George Q. Cannon.

San Domingo — Principal location in Cottonwood Fork; located July 6th, 1873; situated on the slope leading to Scott Hill; has a vein of decomposed galena, giving oxides and carbonates of lead rich in silver, with small per centage of gold. Assays of picked ore run \$300 per ton.

None Such — North side of Main canon, a mile and a half above Modoc; located July, 1873; shows good vein of ore; assaying from \$30 to \$60 silver per ton, and fifty per cent. lead.

Tycoon and H. & R. — Situated in north branch of Cottonwood Fork; owned by Messrs. Houtz, Robinson & Co.; the only developed locations of hematite iron; they have shipped nearly 100 tons to Salt Lake for fluxing.

Huichica — Located August, 1873, owned by Messrs. Houtz, Robinson & Co., who also own the San Pedro, Louie Hampton and Keystone, all good locations, and situated in Cottonwood Fork.

AMERICAN FORK DISTRICT.

Forty-five miles from Salt Lake City by the Utah Southern and American Fork railroads, and thirty-five miles by way of Little Cottonwood. The principal mines are:

Miller Mine — Owned by the Miller Mining and Smelting Company; smelter situated in Forest City, four miles east of the mine, the communication between them being by wagon road and tramway. The developments of the Miller mine are: Mormon tunnel, 700 feet long, with branch called Howland tunnel, seventy-five feet long. Mormon tunnel struck, at the length of 550 feet, a vein of galena three and five-tenths feet wide, average assay forty-two ounces silver and forty-five per cent. lead, and containing considerable sulphate of iron. Emmaline tunnel, seventeen feet long, from which runs an incline sixty feet, and from the incline a drift eighty feet long, through a very long cave. Between the Emmaline and main tunnel is a complete network and labyrinth of drifts, inclines and chambers, all driven upon ore, of which great quantities were taken out in 1871-2-3. The main tunnel is ninety-two feet above the Howland tunnel, and the faces of the two tunnels are united by an air shaft.

From the end of the main tunnel runs an incline, forty-seven feet long, upon a body of ore thirty feet wide; and from the foot of this incline a drift is run over 300 feet long in an easterly direction. This drift is connected with the Mormon tunnel by two inclines, each over 100 feet long. About 100 feet above the main tunnel, in an easterly direction, is the General Aspinwall shaft, seventy-one feet deep, and covering the Alpine and San Domingo location. Fifty feet above the shaft, in a westerly direction, is the Last Hope tunnel, 250 feet long; on the north side of Miller Hill is the Lady Anne tunnel, 354 feet long and running towards the Mormon tunnel, although deeper; opposite the Last Hope tunnel on the north side of Miller Hill is the Baskin tunnel. The Miller mine is developed by thousands of feet of drifts, inclines, etc., and is a valuable property.

The Miller Company owns, besides, one location east of this mine, and four tunnels contiguous, and the Sultana smelter. The Sultana tunnel runs through fire clay.

Wyoming mine—Adjoining the Miller on the north, situated between the Lady Annie and Baskin tunnels; developed by two tunnels and one shaft; the lower tunnel and shaft have struck ore.

Pittsburg—On Pittsburg Hill; next largest after the Miller, and about four miles north-east of the Sultana smelter. It has not less than 20,000 tons of ore in sight, and some 2,000 feet of drifts run through the ore, which is low grade, carrying from fourteen to thirty ounces in silver, and from forty-six to fifty-nine per cent. in lead; ore contains a great deal of oxide of iron and fluxes itself in smelting; owned principally by the Hussey family of Pittsburg and Cleveland.

War Eagle—Adjoins the Pittsburg, and also has a U. S. patent; developed by a tunnel 277 feet long and several shafts and cuts, showing fine bodies of ore; ore assays forty ounces of silver per ton, and from forty-five to sixty-five per cent. in lead, with about a quarter of an ounce of gold.

Wild Dutchman—Just behind the Sultana smelter; developed extensively by four tunnels and many drifts. Ore, high grade.

Roessler Mine—A quarter of a mile west of the Miller, developed by an incline fifty feet and a drift thirty feet upon the vein, which is a true fissure in quartzite. Ore assays sixty-seven ounces in silver and fifty-four per cent. lead; contains a great deal oxide of iron, and fluxes in itself.

Owned by Messrs. E. Roessler, W. Bredmeyer and G. Gove, of Salt Lake City.

Silver Glance—South of the Miller Hill ; developed by two tunnels, one 200 and the other 100 feet long. Milling ore of high grade.

Mary Ellen and Live Yankee—About 1,500 feet below the Silver Glance, on the north side of the hill; pretty well developed and have large quantities of ore in sight.

London Tunnel Company—North of the Mary Ellen, work with hydraulic force washing away float ore. Considerable of the ore was sold to the Miller Company last summer.

Bullion Mine—Situated west of the Roessler; is developed by a shaft, two tunnels and several drifts.

Silver Dipper—On the foot of the north-east side of Roessler Hill; vein, three feet of galena. Ore good, but contains considerable sulphate of iron. Developed by a shaft and a tunnel. Owned by H. McCoy and others.

Queen of the West—North-west of the Miller and facing Pittsburg Hill; has a vein of galena, developed by a tunnel 250 feet long, and a shaft upon the vein; formation quartzite.

Bredemeyer No. 1—Owned by the Miller Company; situated east of the Queen of the West; formation quartzite; vein two to three feet wide; assays sixty-seven ounces in silver and seventy-four per cent. lead. Developed by two tunnels.

Bredemeyer No. 2 and Meavogen—About 1,000 feet above and east of the Bredemeyer No. 1. True fissure vein two and a half feet wide; assays twenty-seven to forty-seven ounces in silver and thirty-five to fifty-four per cent. lead. Developments, two inclines and one tunnel—one incline fifty feet deep, and a tunnel twenty-five feet long. Owned by E. L. Meavogen and W. Bredemeyer.

Cariboo—On Pittsburg Hill, west of the War Eagle. True fissure vein, two to three feet wide. Ore, galena, with considerable quantities of sulphate of iron. Assays 140 ounces in silver, half an ounce of gold, and thirty-five per cent. lead. Developed by two tunnels and one shaft.

Southern Spy—Situated on Mineral Flat, west of the Cariboo; developed by a shaft and several drifts; owned by Messrs. Walker Brothers.

Goldseeker—Three miles north of Deer Creek and south of Forest City on the road; developed by a tunnel 150 feet long.

CAMP FLOYD DISTRICT.

Camp Floyd Mining District, situated on the southern slope of the Oquirrh range of mountains, in both Utah and Tooele counties, and about fifty-five miles distant from Salt Lake City in a southwesterly direction, was organized on the 16th of April, 1870, and amended by-laws were adopted June 13th, 1871. The boundaries are: Beginning at Cedar Fort and running thence westerly by the Twelve Mile spring on a straight line to Rush Valley, thence south along the foot hills to a point opposite Greeley's Springs, thence by said springs easterly to the foot hills on the easterly side of Cedar Valley, thence along the top of the foot hills to a point opposite Cedar Fort, and thence on a straight line to Cedar Fort, the place of beginning. It contains about 650 locations, a number of which are now tolerably well developed mines. The mining town of the district; Lewiston, centrally located near the summit of the Oquirrh range, contains a post office, one store, two saloons, a meat market, and a good hotel. In common with the other districts in the same range of mountains, it is situated in the centre of the great upheaval which has traversed Utah from north-east to south-west for two or three hundred miles, and which has formed a vast mineral belt some sixty miles in width and two hundred in length. The ores are principally free milling, with general combinations in connection, considerable horn silver, antimony and copper occurring. Cinnabar has also been discovered. Following are the principal mining claims:

Sparrow Hawk, Last Chance and Marion — North of Lewiston, developed by several shafts, inclines, open cuts and tunnels; ore assays from \$40 to \$1,000 per ton; from 1,500 to 2,000 tons have been extracted during the past two years. Owned and worked by the Camp Floyd Silver Mining Company, a British corporation, who have erected a twenty-stamp mill a little south of Lewiston, which has been run with great success. The mill and mines of the company are now under the supervision of Mr. Henry Sewell. During the past two years the mill produced \$92,653.23 silver bullion, largely from custom ores.

The Camp Douglas — Southwest of the English company's mill, shaft forty-seven feet deep and open cut fifty feet north of shaft; from surface to present depth of shaft

is a body of vein matter the entire depth; ore assays from \$40 to \$1,200 per ton; owned by General Morrow, commandant of Camp Douglas Military Post, and others.

Gentile Belle — North of the Camp Douglas on the same hill, developed by three open cuts which expose the vein.

Red Eagle — Joins Gentile Belle on the west, developed by an open cut and shaft.

Lynn — West of Red Eagle; developed by one shaft. Southwest of the Lynn is the Black Hawk, one shaft. These four claims join and are owned and worked by a San Francisco incorporated company. Ores assay from \$50 to \$200 per ton.

Will-o'-the-Wisp — Southwest of the Black Hawk. Developed by one shaft; very little work done; no particulars in regard to ore.

Antelope—Located south-east of the Camp Douglas; shaft 7x7, 12 feet deep, and open cut; fine prospect; owned by B. A. M. Froiseth and others.

Sheba—Situated between Gentile Belle and Antelope; several cuts and tunnels; promising prospect; owned by L. Greeley, first recorder of Camp Floyd Mining District, and others.

Delaware Consolidated Mining Claim—South-east of Lewiston. Drift, 65 feet; shaft, 30 feet; open cut, 18 feet; strata of ore are shown in shaft and drift of same character of that found in Sparrow Hawk and Elkhorn; owned by Kahn, Cunnington, Bennett, Chislett, and others.

Elkhorn—East of the Delaware; several shafts varying in depth and a tunnel of 60 feet; promising mine; owned by Gen. Morrow, and others; working two shafts, with excellent results.

Silver Park—South of Lewiston; developed by shaft 40 feet deep.

Savage—Situated south-west of the Elkhorn; very little developed; a fair prospect.

Snowflake—Directly south of the Silver Peak on the same hill; shaft thirty-five feet deep and open cut 6x6 feet and ten feet in; owned by Colonel Hugh, and others.

Jenny Lind—Easterly from the Elkhorn, celebrated as the first cinnabar mine discovered in Utah; owned by Couk Brothers; incline fifty feet; a test of 200 pounds of the ore taken out last fall and treated in the retort at the Camp Floyd company's mill, produced eight pounds of quicksilver;

average per cent., so far, shows from four and a half to twenty per cent. quicksilver.

The New Idra, No. 2—On same vein; has an incline of twenty feet deep and shows a vein of four feet in ore, which is of the same character as the Jenny Lind, and assays the same; owned by Shaw and others.

Queen of the West—North of Lewiston, over the divide; developments extensive; mine constantly worked, taking out rich ore, yielding \$200 to the ton, milled at Hussey & Baxter's mill, Fairfield; produces bullion, 995 fine; 2,000 tons of ore now on dump; owned by a Detroit, Michigan, company.

Carrie Steele—West of the English property; mine of great promise; open cut and a shaft thirty feet; ore rich; average by mill process, \$50 per ton; worked at present by day and night shift; owned by J. Blattner and others.

Stafford—Near the Carrie Steele; open cuts and a tunnel of sixty feet; well defined vein, stripped for fifty feet; good milling ore, assaying from \$40 up per ton.

Mormon Chief—North of the Stafford; with its extension, the Grecian Bend and London, consists of 3,000 feet along the lode, by 200 feet in width; developments in tunnels, cuts, shafts, drifts and inclines, about 500 feet, showing large bodies of free milling ores; owned by W. W. Lowe and others.

Silver Cloud—North of the Queen of the West; shaft, fifty-five feet, cutting a vein of ore at a depth of thirty-five feet from the surface; a level has been driven 180 feet on the course of vein from bottom to shaft, showing a vein of twelve feet of rich milling ore, assaying from \$50 to \$7,000 per ton, actual average produced by milling at Camp Floyd mill, \$118 per ton; tunnel 300 feet long; owned by Vincent, Thurman, Whedon and others.

Silver Star—Adjoining Silver Cloud; same quality of ore; promising mine; is consolidated with the Legal Tender, Sunnyside and Southern Cross; owned by parties in London.

Ida Comstock—West from Silver Cloud; shaft ninety feet.

True Delta—Shaft forty feet; good ore at bottom of shaft; assays high; owned by Lockridge and others.

Simmons—Above the True Delta; a continuance of the Sparrow Hawk ledge; good mine; ore assays from \$60 to \$400; owned by Dr. Tibbitts and others.

Emery—Near Mormon Chief; incline ninety-five feet deep; ore same character as Mormon Chief.

Washington—South of Queen of the West and on the same vein; shaft forty-five feet; owned by Bennett and others.

Star of the West—Developed by shafts and inclines; vein or quartz matter, forty feet wide; assays from \$25 to \$3,000 per ton; owned by a New York company.

Silver Circle and Wandering Boy—On the same hill; developed by drifts, cuts and shafts; ore assays from \$50 to \$3,000; owned by S. N. Pike & Co.

General Morrow—On same hill; shaft fifty-three feet; immense croppings; owned by Morrow, Froiseth, and others.

Mary, Ella, Keystone, Mohawk, America, Excelsior, Minnehaha, Minneapolis and Michigan are also promising claims.

CLIFTON DISTRICT.

This district is situated in the Goshute range of mountains near the intersection of the fortieth degree of north latitude and the thirty-seventh parallel west from Washington. The first mineral was discovered there in 1860, by Major Howard Egan and other employes of the Overland Mail Co. The hostility of the Utes, Piutes, and other marauding bands of Indians retarded the development of its mineral resources until the year 1870, when the mining district of Clifton was organized, embracing an area of about seventy-two square miles.

Most promising mines:

The Gilberson—North from Clifton furnace five miles, and from which the principal supply of ore is obtained for smelting; developed by an adit level begun about fifty feet below the outcrop, and two shafts respectively 125 feet and ninety-five feet in depth; large ore body, assaying from \$30 to \$90 in silver, and thirty per cent. lead per ton; brown carbonate, carrying iron; owned by J. F. Berry & Co.; granite formation.

Black Jack—Shaft and tunnel of fifty feet; ores composite in character; assay average \$50 dollars in silver and thirty-five per cent. lead per ton; pockets of ore have been obtained, assaying \$1,800 in silver; limestone formation; quarter of a mile from the Clifton furnace; owned by Shell, Quail & Co.

Stonewall—Vein nearly vertical; shaft seventy-five feet

deep; milling ore; average assay \$50 per ton in silver, trace of gold and a small per centage of lead; granite formation; near Clifton.

Mayflower—Adjacent; similar in character of ore and development.

Douglas—In Dutch mountain, eight miles from Clifton; milling ore, assaying \$169 to \$223 in silver, twenty-five per cent. lead, with traces of gold. There are seven ledges adjacent of equal character and value; owned by Egan & Co.

Young America—Situating on Dutch Mountain; owned by John W. Binley & Co., of Deep Creek; shaft fifty feet; reported to be high grade ore; granite and limestone formation.

About one hundred mines have been recorded in the district, a number of them owned by Worthington, Longmore, Reve, McMahon and others, who are engaged in their development. The district contains copper (magnetic), sandstone, fire-clay, and other substances suitable for the erection of furnaces, mills, etc.

COLUMBIA DISTRICT.

This district is located in the mountains that rim the southern boundary of the basin of Rush Valley. The mines are about twenty-six miles south-west of Ophir, and six miles up in the hills from Vernon settlement. The belt or zone extends a distance of about six miles from south-east to north-west, and the veins cut the belt nearly at right angles, striking from south-west to north-east. The district was organized in the Spring of 1872, by Alfred Nichols, P. B. Smith, Sharp, Boren, Gillam and others. No very great developments have been made on any of the mines, yet enough has been done to demonstrate that valuable mines exist there, with galena, carbonate and oxide ores.

The Chanticleer—Owned by Nichols & Co., has been worked by a shaft forty feet, and tunnel eighty feet, on a large vein of ochraceous and carbonate ore of low grade.

The Champion—Owned by John Morley, has a shaft fifty feet and incline sixty feet, on a good strong vein of ore, which contains over forty per cent. lead, and thirty to forty ounces silver.

The Augusta—Owned by Rhemke & Co., has an incline forty-three feet, and drifts, tunnel and shafts about one hun-

dred feet more. Ores, galena and carbonate, but now in pyrites. The ore has had a good grade.

The Washington—Owned by Sharp & Co., has a tunnel about eighty feet striking a vein of ochraceous ores.

The North America—Owned by Gerrish & Co., when discovered, had an outcrop of pure galena at the surface extending in line about two hundred feet and eighteen inches thick. A shaft has been sunk on this to a depth of fifty feet, the ore running into pyrites; grade high in lead but low in silver.

The Smith Boren Mine—Owned by P. B. Smith & Co., has a shaft 110 feet on a vein of galena and gray carbonates, high grade in lead, but low in silver. Considerable ore from this mine has been taken to Stockton and sold, paying a profit on the working. The hauling costs \$12 per ton.

The Dolly Varden—Belonging to Len Wines & Co., is properly in this district, but over the divide from the other mines. These mines are in quartz, had milling ore at the surface, but are now running into silver lead ores.

The Lookout and other claims adjoining are but little worked, but have good ore, galena and carbonates, assaying sixty ounces in silver and fifty per cent. lead.

The Hall mines are worked by a tunnel eighty feet, and a shaft sixty feet, on a strong vein of carbonates and ochre of low grade.

The Chimney Corner—Owned by Gillam & Co., has a tunnel eighty feet or more with but little ore.

There are many other claims but little worked yet, showing good prospects for smelting ores.

Besides the silver-lead ores of the district, are vast deposits of iron ore in the hills south-east of the Smith Boren mine, of the specular variety and of good quality.

COTTONWOOD (LITTLE) DISTRICT.

One of the first mining districts organized in Utah was the Wasatch, of which the present district of Little Cottonwood was part. The Wasatch embraced within its limits that part of the Wasatch range between the Hot Springs and the head of Utah lake. It was organized by the soldiers at Camp Douglas, by whom the first locations were made. On July 20th, 1864, a portion of Wasatch was organized into the Mountain Lake district, which in August, 1868, was re-organized as Cottonwood Lake district and a year later was

known as Little Cottonwood district, with the following boundaries: Beginning at the toll gate near the entrance to Little Cottonwood cañon and running south to the summit of the mountain, thence easterly along the summit to the centre of the divide between Big Cottonwood and Little Cottonwood cañons; thence northerly along the summit to the centre of the mountain on the north side of the cañon; thence westerly along the summit to a point due north of the toll gate; thence southerly to the point of beginning. There are 1726 locations in the district.

The principal town is Alta City, situated at the head of Little Cottonwood canon, on a basin or flat, the mountains surrounding it on every side. The town can boast of only one business street, and is built up of frame houses after the plan and manner of other mining towns of the Territory. The population is about 600; that of the district is estimated at 1,500. The altitude is about 8,000 feet above the sea level. The summit of the mountain above the Emma mine, and on a level with the discovery of Davenport, is 9,500 feet. Alta is thirty miles distant from Salt Lake City, south-easterly.

The formation in which the principal mines of this district are found is limestone, although to the west of the Flagstaff is found a quartzite formation, and directly east of Alta there is a granite formation. Several ledges of argentiferous galena have been found in this granite belt. The ores of the mines of Little Cottonwood, are carbonate, galena, sulphuret and chloride ores: they also contain oxide of iron. They are generally of a high grade, sampling from 60 ozs. in silver to 1,200 ozs. in silver, and from 10 to 60 per cent. lead. Many of the ores carry gold from \$5 to \$100 per ton. The principal mines of the district are:

On Emma Hill — The Emma, Flagstaff, Vallejo, Titus, Ohio, Highland Chief, Savage, Montezuma, Last Chance, Hiawatha, Western Star, Monitor and Magnet, Morning Star, Caledonia, McKay, Revolution, Stoker, North Star, Brain, Emily, Relief, Paris Belle, Flora Temple, Cincinnati, Chicago, Ratler No. 2, White Cloud, Home Ticket, Rexford.

On Davenport Hill — The Davenport, Matilda, Alice, Imperial, Excelsior, Grizzly, Pocahontas, Baltic, City Rock, Victoria and Imperial, Vanderbilt, Regulator, Darlington, Utah, King of the West, Florinda, Lavinia, Cub, Olive, Lion, Adelaide, Robert Aull, Dexter, Black Bess, Becca, Amy Dagmar.

On Granite Hill — The Cedar, Lincoln, Patsey Marley.

On Wellington Hill — The Wellington, Webster, Galena, Iris, Emerald.

On Peruvian Hill — The Ida, Daisy, Louisa, Clipper, Flagstaff No. 2, Skipper, Lexington, Defiance, Moltke, Jim Fisk, Harper's Ferry, Sedan, Oxford and Geneva, Alpha.

On Frederick Hill — The Frederick, Enterprise, Haskell, Wells, Golden Gate, Superior Gulch, and Superior Buckeye.

Principal tunnels, all of which have been or are now being worked: On Emma Hill — the Maxwell, Royal, Lady Emma, Utah, Howland, Bay City, Little Cottonwood, Gladiator, Illinois, Manhattan, Equitable, Reliance, Phœnix, Emma Hill Consolidated, Ely, and Hermann.

Davenport Hill — The Victoria, Imperial, and Christina.

Wellington Hill — The Ætna, Lady Esten, Galena, West Point, and Defiance.

Peruvian Hill — The Clipper, Skipper, and St. Joseph.

The developments of the principal mines of the district are as follows:

Frederick — On Frederick Hill: shaft No. 1, 357 feet deep; shaft No. 2, 200 feet deep; shafts, levels, etc., 313 feet; formation quartzite and limestone; average width of vein, three feet; 400 tons of ore removed; owned by M. W. Watson & Co.; M. K. Harkness, superintendent.

Fuller — On the bald quartzite mountain, west of the Flagstaff; two shafts, 90 feet and 260 feet; tunnel, 200 feet in; formation, quartzite; a true fissure vein cutting boldly across the formation at right angles with the stratification; ore, chloride, assaying from \$100 to \$1,000 per ton; shipments, 150 tons; owned in Toledo, O.; incorporated; Wm. B. Welles, superintendent.

Gen. Welles — On Frederick Hill, 1,500 feet west of Fuller lode; shaft, 70 feet; tunnel, 268 feet; vein well defined; chloride ore, assaying from \$150 to \$500 per ton; owned by Haskell, Welles & Co., of Toledo, O.; D. H. Bentley, superintendent.

Flagstaff — Developments not known. They were requested, but not handed in. M. T. Patrick, superintendent; English incorporation; about 40,000 tons of ore removed; average value about \$60 per ton.

Vallejo — Main tunnel, 650 feet; main shaft, 100 feet; levels and drifts, 1,200 feet; 5,000 tons of ore removed; the ore house is situated in Alta, connected with the mine by a Hallidie patent rope tramway, 2,380 feet in length;

Merchants will do well by calling at Dunford & Sons before purchasing.

Utah incorporation, owned principally in California; Lem. U. Colbath, superintendent.

Emma—Tunnels, 3,000 feet; levels, winzes, stopes, etc., 1,000 feet; perpendicular depth from upper tunnel, 350 feet; incline, 550 feet; 30,000 tons of ore removed; formation, limestone; English incorporation; George M. Atwood, manager; Hannibal Williams, superintendent; concentrating works erected at the mine; about seven miles of flumes which cost \$4,000. The concentrating works have a capacity of 100 tons per day.

Winsor Group—Located 600 feet above the Emma; comprises the Hiawatha, Savage, Montezuma and Last chance. Tunnels, shafts, drifts, etc., over 2,000 feet; 1,000 tons of ore removed; Detroit incorporation.

McKay—Located on Emma Hill; open cut and incline, 260 feet; vertical shaft, 50 feet; average width of vein, three feet; ore, chlorides and carbonates of high grade; 300 tons of ore removed; owned by Harlow & McKay.

Stoker—Incline shaft, 285 feet; levels, etc., 200 feet; Utah incorporation; James H. Mathews, Supt.; ore, chlorides and carbonates, high grades; 100 tons removed from the mine; average width, two feet.

Davenport—Developments, over 2,500 feet; formation, limestone; vein, twenty feet in width in lower levels; 3,000 tons of ore removed; English incorporation; Jo. Farren, Superintendent.

Lavinia—Tunnel, 450 feet; shaft, 50 feet; Utah incorporation; C. H. Hempstead, Prest.; Lem. U. Colbath, Supt.

Grizzly—Tunnel, 65 feet; two levels of 210 feet each; third level, 235 feet; six shafts and inclines, 345 feet; open cut across vein, 64 feet; open cut, 20 feet; two tunnels, 100 feet each; open cuts on surface, 100 feet; formation, limestone; ore, carbonate and chlorides; owned by Warren Hussey & Co.; ore removed, 3,000 tons; vein from two to twenty feet in width.

Darlington—Open cut, 40 feet; from thence by a tunnel on the vein, 200 feet; incline shaft, 93 feet; incline shaft No. 2, 100 feet; levels and cross cuts, 40 feet; lower tunnel, 100 feet; incorporated and owned in Chicago; John McDonald, superintendent.

Wellington—Incline shaft, 146 feet; tunnel, 628 feet; 1st level, 57 feet; 2d, 200 feet; 3d, 180 feet; 4th, 180 feet; 5th, 72 feet; cross cut from 5th level, 125 feet; winze below 2d and 3d levels, 63 feet; shaft between 3d and 4th levels,

28 feet; shaft between 4th and 5th levels, 33 feet; ore chutes from 4th level to tunnel level, 80 feet; 5,000 tons of ore removed; California incorporation; G. W. Beaver, president; E. J. Fields, superintendent.

Oxford and Geneva — On Peruvian Hill; tunnel, 165 feet in length; shaft, 40 feet deep; incline shaft from tunnel level, 185 feet; air shaft driven from initial point of incline to the surface; three levels easterly, 105 feet, 93 feet, and 47 feet in length; west level, 28 feet; incline, 35 feet; 500 tons of ore removed; fissure vein, cutting the formation at right angles; Detroit incorporation; J. B. Scott, President; Charles M. Brough, Superintendent.

Peruvian Lode — Peruvian Hill; shaft, 120 feet; tunnel, 175 feet; incline, 40 feet; average width, two feet and a half; 75 tons of ore removed; ore, gray carbonates and chlorides; formation limestone; owned by Moore, Wheyland & Co.

Ida — Peruvian Hill; shaft, 120 feet; ore, galena and chlorides; 25 tons removed; Moore, Wheyland & Co., owners.

Amy Dagmar — On Davenport Hill, west of Victoria and Imperial Tunnel; incorporated in San Francisco; capital stock, three millions; President, T. A. Beach; Secretary, Jos. R. Beard; Superintendent, M. S. Stickney.

Emily — Emma Hill, 3,000 feet west of Flagstaff mine. Developments consist of 500 feet drifts, tunnels and shafts; ore veins six inches to four feet, continuous for 100 feet; ore, galena and ruby silver; assayed sixty-two per cent. lead and 100 ozs. of silver to the ton; owned in Pittsburg, Pa.; Manager, H. M. Henderson.

Silver Belt Consolidated Mining and Tunnel Company — Tunnel, 285 feet; shaft 100 feet; vein fifty-seven feet wide; 1,800 tons of ore on the dump; Elijah Sells, president and manager.

Jones and Paddock — Shaft ninety feet; tunnel 110 feet; owned by Silver Belt Company.

Pine Grove — Two shafts, No. 1, 108 feet; No. 2 forty-eight feet; twenty-five tons of ore removed; owned by Silver Belt Company.

Victoria and Imperial Mining Company — Tunnel 690 feet; slope from tunnel level, 100 feet; width of vein, five feet; 100 tons of ore removed; ore, chlorides, carbonates and galena. The company has four locations on the Davenport hill; developments aggregating 500 feet; San Francisco incorporation; W. S. Blakely, superintendent.

Ely Tunnel — 270 feet in length ; Utah incorporation.

Gladiator Tunnel — 493 feet in length ; Utah incorporation ; W. S. Woodhull, superintendent.

Little Cottonwood Tunnel — 500 feet in length.

Emma Hill Consolidated Mining and Tunnel Company — Grizzly Flat ; 600 feet in length ; designed to cut the Southern Crop, White Cloud and Home Ticket lodes ; owned by said company.

Definite information in regard to the developments of other mines and tunnels was not obtained in time for publication.

COTTONWOOD (BIG) DISTRICT.

Big Cottonwood Mining district, situated in Salt Lake county, adjoining Little Cottonwood on the north, and Parley's Park on the south-east, and about twenty-five miles distant from Salt Lake City in a south-easterly direction, was formerly a part of the old Mountain Lake District, but in 1868, was organized into a separate district. It is about ten miles long by six wide, and contains nearly 700 locations. The principal mines are :

Reed & Benson—Discovered in 1870, on South Fork, near the summit of the divide between Big and Little Cottonwood, half mile from the Flagstaff, in a direct line, situated nearly 9,000 feet above sea level. From its situation large sums of money had to be expended before it could be worked. Roads were built over the mountains, trails made around almost impassable bluffs, where in drilling and blasting the workmen were suspended by ropes, and a tramway of 1,600 feet in length has been erected, passing over a bluff 400 feet in height. This tramway is entirely covered, and is the most perfect and costly arrangement of the kind in the United States. Developments of the mine consist of several shafts and inclines and a tunnel 600 feet long, connecting with an incline 131 feet, both tunnel and incline laid with a 26-inch gauge ; iron track connecting with tramway ; main shaft and incline 380 feet ; total explorations, over 600 feet in depth ; inclines, drifts, leads and shaft, 3,000 feet in length. The vein is a true fissure, cutting the strata, and joined by two strata-veins sixty feet below, where immense bodies of ore were discovered. From surface to depth of 150 feet, vein matter averages fifteen feet in width ; from 150 to 600 feet it averages sixty feet in width. Average assay of ore, eighty oz. in silver and forty-five per cent. of

ALMOST DAILY FROM EAST AND WEST.

lead per ton; cost of the present workings and outside improvements, over \$150,000. The property is owned by H. C. Goodspeed, F. Reed, and others.

Highland Chief—In Silver Fork cañon; country rock, limestone; developments consist of a tunnel 400 feet long and 700 feet of shafts, drifts and levels; vein-matter two and a half feet wide of lead-ores carrying silver; average assay \$155 per ton in silver and sixty per cent. lead; owned by Allen Schenck, N. W. Mundy and J. P. Page.

Wellington Mine—Near the Highland Chief; two levels, over 500 feet in length; two shafts, 230 feet; stopes, 100 feet; average assay of ore ninety-six ounces of silver and fifty-one per cent. lead per ton, besides large quantities of lower grade ore passed in working; owned by Allen Schenck and others.

Boston Tunnel—Intended to tap Highland Chief and Wellington mines, now in 114 feet; at a further distance of eighty feet the vein of Wellington will be cut at a depth of 250 to 300 feet; Highland Chief, between 800 and 900 feet; estimated cost of present expenditures upon the entire property, \$75,000.

Sailor Jack—On western slope of Kesler's Peak; discovery shaft twelve feet deep; drift of forty-eight feet to the east at bottom of shaft; from bottom of drift is a shaft 115 feet deep, showing a vein of fine ore averaging two feet in width; from bottom of this shaft is a drift to the west, sixty-five feet long, where the surface of another claim was struck, and from this point a tunnel seventy feet long has been run. Formation, quartzite and limestone; average assay of ore from \$40 to \$100 per ton; owned by A. K. Smith and others.

Antelope and Prince of Wales—In Silver Fork; shafting, 420 feet; winzes, 250 feet; tunneling, 1,670 feet, divided as follows: Silver Fork tunnel, 320; Honey-comb tunnel, 750; Antelope tunnel, 320; of this 3,000 feet stopping has been done, with 200 feet of other mine drifts; well-defined fissure vein in limestone formation, carrying silver-lead ores, assaying 130 ozs. of silver per ton, and forty-five per cent. lead; a valuable property, on which over \$75,000 has been expended; owned by Walker Bros., of Salt Lake.

Homeward Bound—On the eastern side of Kesler's Peak, 9,000 feet above sea level; developed by a shaft and 170 feet of tunneling; lode has been traced 100 feet along the vein, which is almost vertical, and averages six feet in width

and generally of low grade; ore, argentiferous galena, assaying \$90 in silver per ton and forty-eight per cent. in lead; owned by Deseret S. M. and T. company.

Congress — At head of Silver Fork Springs; discovery shaft has an incline of forty-five degrees to the depth of thirty-five feet, a level forty-five feet and a drift twenty-five feet; mineral vein averages eighteen inches in thickness; ores, carbonates of galena mixed with yellow ochre and chlorides carrying silver; ore averages \$150 per ton in silver; tunnel now in progress to connect with discovery shaft; owned by C. F. Smith and others.

Teresa — Head of Silver Fork; discovery tunnel run twenty feet into the hill, from which an incline has been driven forty-eight feet deep; Teresa tunnel run south 226 feet, from which a cross-cut extends west forty-seven feet and one east sixty-four feet; from this an incline forty-three feet deep has been sunk; formation, limestone; character of ore smelting, carrying a high per cent. of silver; owned by Jas. F. Woodman and others.

Richmond — On the divide between Big and Little Cottonwood; over two hundred feet of tunneling and eighty feet of inclines, well timbered, besides the stoping on vein; formation, limestone; vein well defined, varies in width from one to four feet; ore, carbonates and oxides of lead, carrying silver; owned by S. Smith and T. Taylor.

Sacramento — Near Reed and Benson; developed by eighty-five feet of shaft and tunnel 100 feet long; vein nearly vertical, and about fourteen inches wide; ores, carbonates and oxides of lead, carrying silver; owned by Sacramento S. M. company.

Butte — Near head of Honeycomb cañon; two shafts, about seven feet deep, and incline shaft twenty-eight feet deep; formation, limestone; ores, carbonates and oxides of lead carrying silver.

Wandering Boy — North-east side of Silver Fork, about 8,500 feet above sea level; two open cuts, respectively twenty and twenty-five feet in length, and incline thirty feet long, from which a shaft eighty feet deep has been sunk; vein well defined, averaging from six to thirty inches in width; country rock, white limestone; galena and chloride ore, assaying from \$100 to \$300 per ton in silver and fifty per cent. in lead; owned by J. M. Moore and others.

Florinda — On the divide between and in both Little and

Big Cottonwood districts; incline fifty feet in length, following the course of the vein, a level twenty-five feet long about thirty feet from the surface, leading off from incline and following the same direction; shaft sixty-five feet deep, sixteen feet west of the mouth of incline, and a drift twenty-five feet long from bottom of shaft; vein varies in width from four to six feet; is composed of chloride, galena, carbonates and ochre; ore assays from \$30 to \$500 per ton in silver, lead per centage light; owned by Peter Haas and others.

Dolly Varden — Situated in North Fork; incline down about 200 feet; vein well defined; immense bodies of low grade ore, assaying from \$25 to \$40 per ton in silver; can also be used as a flux for other ores.

Maxfield, North Fork — Shaft of 250 feet and tunnel of seventy-five feet; vein irregular and was lost for some time, causing considerable dead work; found again and mine promises well; ore good and assays about \$100 per ton.

Miller — Adjoining Maxfield; tunnel of seventy feet; well defined vein, displaying good ore, averaging \$120 in silver per ton, and a good per cent. in lead.

Gregory — In same vicinity; incline 100 feet; good ore; fine prospect; worked continually.

Adelaide, North Fork — 250 feet in tunnels and shafts; one tunnel cuts four veins, another tunnel is being run to cut these veins at a greater depth; ore from fifty to 150 ozs. in silver per ton, and small per cent. of lead; good prospect and continually worked.

York, North Fork — Tunnel forty feet; vein well defined; ore low grade galena, mixed with yellow ochre and iron, averaging about \$40 per ton.

Sunny Side — Opposite side of ridge from Reed and Benson; located June, 1871; working shaft, 108 feet; prospecting shafts and drifts, 180 feet, on ledge matter twelve to 40 feet wide; assays 12 to 80 ozs. silver per ton, and 46 to 68 per cent. lead.

Independence — East of Sunny Side; shaft, 60 feet, which cuts vein matter; ore, high grade, and found principally in pockets; of which a large quantity has been taken out; vein matter from five to ten feet wide.

Pacific — Situated south of Sunny Side; shaft, 58 feet deep following a continuous vein of high grade argentiferous galena; assays have been made from \$100 to \$200 in silver per ton, and forty-five per cent. lead; vein well defined, averaging from eight to twenty-two inches in width. The

three last mentioned claims are owned by Pardee, Carter, Lewis and others.

Jim Day—South of Pacific; shaft, 65 feet deep; vein well defined; good prospect.

Kongsberg—Across South Fork, nearly opposite Reed & Benson; tunnel sixty-three feet long and shaft twelve feet deep at the end of tunnel; vein averages ten feet in width and is traceable for 3,000 feet; low grade galena ore; a three-foot vein of plumbago has also been discovered in the shaft.

Panacca—South-west of the Kongsberg; shaft thirty feet, showing a vein three feet six inches of carbonate and galena ores; tunnel, following the course of the vein, thirty feet long, showing two feet of ore; another tunnel in forty feet showing a foot of solid galena and carbonate ores; average assay of ore, \$80 in silver per ton and forty per cent. lead; owned by Bearson, Schad and others.

Marine—West of the Panacca; incline shaft, seventy-five feet in depth; vein well defined, and averages four feet in width; ore, low grade galena.

Thor—North of Kongsberg; incline, thirty feet; showing a three-foot vein and sixteen inches of solid galena and carbonates; ore averages \$99 in silver per ton and sixty-five per cent. lead. The Kongsberg, Panacca and Thor, with the Venus and Surprise, two good prospects, are owned by Bearson, Schad, and others.

Patchen, North Fork—Tunnel, fifty feet; vein wide and well defined; good ore; owned by O. Jewett.

Gillmore—On Scott Hill, shaft and tunnel; good vein; fine prospect; owned by a San Francisco company.

Scott, Elgin, Alta and Willamette, good prospects and considerably developed; also on Scott Hill.

Ontario—In Mill F. Fork; shaft, sixty feet; vein well defined, averaging four feet in width; ores, argentiferous galena and copper; owned by H. W. Lawrence and Wm. S. Godbe.

Buckeye, Jr.—Shafts and tunnels 150 feet; vein averages four feet in width; carbonate and galena ore, assaying about \$100 per ton.

Mountain King—Near mill A; shaft thirty feet; two feet wide, galena ore.

Geneva—Shaft fifty feet; three feet wide of ore.

Evergreen—Shaft sixty feet; vein-matter of copper, silver and gold,

Umpire—Shafts and tunnels ; large bodies of free milling ore, assaying from \$50 to \$200 per ton in silver, and a small per cent. of gold ; good prospect ; owned by the Umpire Tunnel and Mining Co.

Provo—On Kesler's Peak, south-east of Sailor Jack ; is a vein of silver-bearing rock ; good prospect ; owned by J. H. Meeks and others.

Page Tunnel—In a deep basin opening into Silver Fork canon, about 500 feet north of the north line of Little Cottonwood District ; tunnel in 120 feet ; ore already found assays \$70 in silver per ton, and rock full of ore stains ; owned by Page Tunnel Co., of San Francisco.

Beckwith—Near Honeycomb canon, and General Grant, a little north, are good prospects ; ores, high grade argenti-ferous galena.

Following is a list of very good prospects, more or less developed, with favorable indications of becoming valuable mines: Young Columbia, near the divide between Silver Fork and Honeycomb canons, lead ores carrying silver ; Wild Bill, a little north ; Washington, Lorne, Caine, Wilson, Connaught Ranger on the same side ; Cooper, near Honeycomb canon ; Silver Mountain, near Highland Chief ; Virginia, on Silver Fork creek ; Alaska, head of Silver Fork Springs, near Congress ; Washington Gulch lode, west of Alaska ; Lone Star State tunnel, north of Washington ; Maggie, north of mouth of tunnel ; Milt Orr, on the divide between Little and Big Cottonwood ; Empress, north-east of Milt Orr ; Emperor tunnel, a little east of Empress ; Ophir, Excelsior and Cora, in the vicinity of Reed and Benson ; Argenta, Rob Roy and Robert Emmet, further north ; Jefferson tunnel, Hope, Little Giant, Wide West, Chieftain, Osceola and Mansur, in the vicinity of Kessler's Peak ; and further south, Montreal, Kongsberg tunnel and Hammerskold tunnel, Zoe, under superintendence of Major Meeks ; Umpire, managed by Edgerly & Snow ; Anglo Saxon, Keokuk and Longfellow.

LUCIN DISTRICT.

This district is located six miles south of Tecoma station, on the C. P. R. R., which is 140 miles west of Corinne. The mines are in the Lucin range of mountains, just on the dividing line between Utah and Nevada, the mines, however, being all on the Utah side, in Box Elder county.

A daily line of stages run from Tecoma to Buel City, at the foot of the hills on which are the mines. At Buel City is the Buel furnace.

The Tecoma mine has a shaft over 250 feet deep, and a tunnel of over 100, with drifts, etc. It has a good mine tramway and other appliances. The ore is an ochre, with iron, soft carbonates and galena.

The Empire mine has an incline about 150 feet, with a shaft about 160 feet, and drifts, etc., all on a strong vein of ochraceous ore, with plenty of iron for smelting.

The Rising Sun, with the two preceding mines, belongs to the Tecoma Co.; has been extensively worked. These ores are high grade in lead but low in silver.

The Shanly, Gladstone, Ida, L'Arbra, Uncle Sam, and several other claims, belong to the Tecoma S. M. Co. of London. The Shanly has an incline over 300 feet, with cuts and drifts on a good vein of ore, and is being developed by a tunnel from the L'Arbra to strike the vein at a great depth.

The Gladstone has an incline over 200 feet on a good vein of ore of good grade, and has produced considerable. All these mines carry about fifty per cent. lead, and are valuable smelting ores.

The Yellow Jacket has a shaft about 100 feet, and good smelting ore; like nearly all others in this camp, it produces a molybdate of lead, of very beautiful yellow honeycomb crystals. Good vein.

The Bald Eagle, Central Pacific, Badger, Mary Anna and some other veins situate on Copper Hill, constitute a group, at the summit of the divide, of very valuable mines. The Central Pacific and Bald Eagle are two veins that are traced for a long distance on the surface, and divided into three sections and owned by three different companies. The Andrews & McElray party have worked it by a tunnel 180 feet, crossing a vein 100 feet wide of vein matter. Besides this they have extensive cuts and drifts, and a shaft 150 feet deep. They also own the Mary Anna and two other claims, which they have developed by shafts from twenty-five to 100 feet deep. These mines contain ochraceous ores, with galena and carbonate, and several varieties of copper ores. Copper, native, in large lumps was found on the surface at these mines, and the ore now contains at times considerable red oxides and native copper. Henderson & Co. have a tunnel 280 feet on same vein that also crosses the 100 feet ledge.

The Waddell group of mines lie to the north of these, and

are an extension of the same great veins, besides which are the Waddell, Iroquois, Elam, Natchez, Eureka and several other claims, all of which have been worked by shafts, cuts, tunnels and drifts from twenty to 200 feet to each mine. These have produced native copper on the surface, and several tons of rich copper ore from the shafts, that has been sold for a high price. They also contain galena and carbonates.

The Hattie mine has a shaft over 100 feet deep, and has produced considerable ore that sampled about \$140 per ton.

The Hampton lode has an incline of considerable depth, producing ore like the Hattie.

The Lucy Emma has an incline over 200 feet in good ore, with a strong vein, the ore being galena, carbonates and ochre, that samples \$160 per ton.

The Pittsburg has an incline over 180 feet on a good vein of ochraceous ore that runs high, and has produced considerable.

The Bully has a shaft over fifty feet on carbonate ore, with good grade for smelting.

The Molly has a shaft 150 feet in good ore, showing vein of yellow carbonates, assaying about \$80.

The Genessee has a shaft about fifty feet, and incline 100 feet. Carbonate ore.

The Myra has an incline and tunnel about 100 feet, on a vein of carbonate ore.

Kentucky has a shaft about forty feet with some galena.

The Osceola has an incline over 200 feet on ore that samples \$130, and has produced considerable.

The Growl has an incline eighty feet; has produced considerable chloride ore, and even horn silver, but it is "quite thin" at the bottom now.

The Black Warrior, like the Growl, has produced horn silver, the pure article in considerable quantities, and the shipments of ore has brought from \$600 per ton to \$2 per pound; now working in quartz, with vein improving.

The Good Hope and Orleans have both been worked by shafts and inclines to over 100 feet, producing considerable good carbonate and galena ores of good grade, with the vein improving.

The Treasure Box and Western View have both a shaft over fifty feet each with open cuts, etc., and a strong vein of ore with galena and carbonates.

In the south part of the district are two groups of mines,

one owned by Friend & Co., and the other by Shepherd, Myers & Co., that have been considerably worked, producing ores, galena and carbonates, high in lead but low in silver.

In the north part of the district are the American Eagle, Overland, and other mines, carrying galena and carbonates with plenty of lead but little silver.

The future of this district is promising.

NEWFOUNDLAND DISTRICT.

This district was organized February 15, 1873, by miners from Stockton and Grantsville, Utah. It is located on and embraces the whole of Desert Mountain, Box Elder county, Utah, lying about twenty miles southerly from Terrace, C. P. R. R., and about eighty miles north-westerly from Grantsville, Tooele county, Utah. Almost every description of mineral has been found here, such as copper, silver, gold, galena, iron, horn-silver, black sulphurets, carbonates, etc., as well as marble, arsenic, salt, etc. The country rock is black lime, quartzite and slate.

Five miles south of the north side of the Desert Mountain is situated a copper belt, about three miles wide, showing many very prominent veins at the surface. The ore will average from ten to twenty-five per cent. copper, carrying some silver and gold. Choice specimens have assayed up to sixty and seventy per cent. copper. Much scattering work has been done. One shaft is down eighteen feet, with a four-foot vein mixed with quartzite, and another of eight feet, with several tons of ore on the dumps.

Adjoining this belt south is a galena belt, with an occasional prospect of milling ore. On this belt about twenty men are working, and all seem to have mineral sufficient to encourage the continuance of work. Several inclines, shafts and tunnels are down from twenty to fifty feet.

About three miles further south some very good prospects have been found, and are undergoing development. The ore carries much black sulphurets and galena of high grade, having assayed over two thousand dollars per ton, and surface-rock has sampled far up in the hundreds. Only half of the district has been prospected. The records show about one hundred claims recorded.

OHIO DISTRICT.

The Ohio mining district is situated about six miles south of west from the settlement of Marysvale, on the Sevier river, Piute county, Utah, and about 200 miles south of Salt Lake City. The district was organized in February, 1868; is about ten miles square, and contains over 500 locations. The names of the camps are Bullion and Webster Cities; the former is well located in Piute Creek canon, and has lately become the county seat of Piute county. The character of the ores is principally free milling, and the formation quartzite and granite, carrying silver and gold.

The Piute Mining company have erected a stamp mill at Webster City, with a capacity for crushing thirty tons of rock per day, which has been run in the reduction of ores taken from the mines belonging to the company. The principal mines are: Daniel Webster, situated on the south side of Pine creek, above Bullion City; shaft forty-two feet deep, at the end of a tunnel fifty feet long, an incline near the mouth of the shaft, and another tunnel thirty feet deep at a point 430 feet further south. Some of the ore has been worked by milling, yielding \$106 per ton in silver and gold. The lode has been traced by the out-croppings for a distance of 2,000 feet; vein nearly vertical, with an occasional inclination to the west; owned by R. C. Chambers and others.

Homestead — In Pine Gulch; shaft 130 feet deep, and an open cut and tunnel 150 feet deep across the vein; average of ore, \$9 in gold and \$47.15 in silver per ton; vein nearly vertical; in porphyry and trap; is dry, and requires no pump; very promising mine; owned by R. C. Chambers and others.

St. Lawrence — Incline, fifty-five feet deep; exposing the vein which shows milling ore; average of several assays gives about \$30 in silver per ton, and a trace of gold; foot wall, quartzite, hanging wall, granite; owned by John Pope and others.

Great Western—On north side of Pine Gulch, above Webster City, developed by an incline fifty feet deep, which shows the lode to be seven feet in width; vein dips north-west; ore averages \$85 in silver per ton; porphyry, trap and granite predominate in the vicinity; owned by H. W. Lawrence and others; good property.

Niagara—On the south side of Pine Gulch, above Webster

City; discovery stake below a high rocky cliff from where a tunnel runs 75 feet long; lode can be traced by cropping for several hundred feet; average assay of ore, \$100 in silver per ton; porphyry and trap in the vicinity; mine accessible by a good trail.

Belcher—South side of Pine Gulch; improvements consist of two tunnels, respectively 25 feet and 35 feet long; average assay of ore, \$120 in silver per ton; lode accessible by a good trail; porphyry, trap and granite in the vicinity; timber abundant; owned by W. E. Blenny and others.

Union—South side of Pine Gulch, above Bullion City; shaft and tunnel 66 feet long; average assay of ore, \$160 in silver per ton; owned by M. Durkee and L. Washburn.

Golden Curry—Northwest of Bullion City; developed by a tunnel 100 feet long, said to have the largest mineral vein of any mine in the district; ore assays \$880 per ton in silver and gold; owned by Jacob Hess and others.

Miner's Relief—Situating near Webster City; developed by shafts and drifts; extent of works not known; average assay, \$160 in silver per ton.

Yankee Blade—Situating near Pine Cañon; is one of the oldest locations in the camp; considerably developed; average assay, \$110 per ton in silver.

Jackson—An extension of Niagara; developed by cut and tunnel, forty feet; assays about \$100 per ton, carrying \$30 in gold; owned by Dr. Dinnes.

Rothschilds—Developed by several open cuts; shows very prominent croppings, which are traceable for 1,000 feet; owned by August Nielson.

Young America—Situating east of the Homestead; developed by tunnel 150 feet long, which taps the vein; owned by J. Hess & Co.

OPHIR DISTRICT.

Ophir district, comprises a portion of the western slope of the Oquirrh range of mountains, being so much as lies on both sides of East Cañon, Dry Cañon, and Silverado gulch, and is about four miles in extent from north to south, extending from the summit of the range to the valley. The principal point is Ophir City, 56 miles from Salt Lake City, connected by a daily line of stages, carrying the U. S. mails and Wells, Fargo & Co.'s express.

The District was first known as early as 1864, when it

comprised a part of Rush Valley District, and locations of mines were made in 1865, among which were the old St. Louis, now the Hidden Treasure. In July, 1870, it was organized into a District. Many of the early locations were made in April, 1870; and in August 1870, the Mountain Lion, Mountain Tiger, Silveropolis, and many other of the mines with rich ores were discovered. At this time horn silver was first discovered, which created a great excitement, causing hundreds to flock to East Cañon, as it was then generally called. East Cañon creek is a stream that supplies abundance of water for mill-power all the year around.

The leading and most prominent mines of Ophir district, classed by locality, are as follows:

On Lion Hill, the Mountain Lion, Mountain Tiger, Sunnyside, Monarch, Virginia and Homeward Bound; on Horn Silver Hill, the Silveropolis, Occidental, Shamrock, Chloride Point, New Yorker and Little Pem; on Chloride Hill, the Dixie, San Joaquin, Anna No. 3, Potosi, Chloride Gem; on Ophir Hill, the Miner's Delight, General Grant and Burnett, Gray Rock, McCullin and Fairview; on Treasure Hill, the Hidden Treasure, Chicago, Sacramento, and Fourth of July; on Shoo Fly Hill, the Kearsarge; on Snow-Storm Hill, the Mono, Utah Queen, and Emporia; on Mahogany Hill, the I. X. L., Flavilla, and Mount Savage; on the Foot Hills, the Baltic, Nabob, Rip Van Winkle, and Green Chloride.

Mountain Lion mine—Including the Blue Wing, Webster, Black Wing, and other adjoining locations, has been worked to a depth of over 300 feet; produces from five to ten tons of ore per day that yields from \$150 to \$600 per ton, according to the assorted class, of a beautiful chloride, carrying antimony and arsenic, with but little lead, and mills freely. It has, up to the present time, produced from \$200,000 to \$300,000 in value of ore. It is the property of Joseph Woodmansee and Warren Hussey; James Shields, Superintendent.

Mountain Tiger—Including the Silver Chief, Zella, Rockwell, all classed as one mine, owned by Walker Bros. & Co., with Marcus Daly, Superintendent. The great ore deposits lie under the Tiger ground, but have been intersected by tunnels from the Chief, about 600 feet in length, and inclines from the Zella and Rockwell as well as a general opening from the Tiger. The workings on this mine are very exten-

Dunford & Sons keep the best Line Gents' Gloves in the City.

sive, and the ore body enormous. The average value of the ore is less than \$100 per ton, but specimen assays run high. This mine, too, has produced several hundred thousand dollars in value of ores, and the quantity in sight is still very extensive. Milling ore much like all on this hill.

Sunnyside — Including its extensions, and the Silver Exchange, the two now owned by Warren Hussey and John Tiernan, are under the Superintendence of P. T. Pierson; worked to a depth of nearly 400 feet, and produces from five to ten tons of ore per day, in quantity, character and value much like the Mountain Lion. It has produced nearly as much in value of ore as the Lion, and is now in a very large body of rich ore.

Monarch — The property of H. W. Lawrence, Fred. T. Peris & Co., but at the present time bonded to Alex. Lothian, Fonce & Co.; has a tunnel about 200 feet, and produces very rich ore, of which large amounts have been sold. The ore differs from the ore of the Lion and Tiger by containing more black sulphurets of silver and antimonial sulphurets.

Virginia — With half a dozen surrounding claims; a mine much like the Monarch, with the same class of ore, but differs from all others on Lion Hill by being in a stragglng granite formation, all others being in limestone; has not been worked for a year.

Homeward Bound — The property of Mills & Co.; near the Lion; has been worked to a depth of nearly 200 feet, and produced in value a large amount of ore of the same class, character and value as the Lion ore.

Silveropolis — The first discovered wherein horn silver was found; the property of Walker Bros., and has been worked by extensive excavations on the surface of the steep hill-side, and a shaft about 100 feet deep; ore has changed from a pure chloride, and now contains considerable galena.

Occidental — The property of Wm. Stetham, H. G. Taft, Cooley & Co.; has been worked to a depth of over 300 feet, passing through a cave; is now in a true vein of good milling rock with a quartz gangue, and is believed to be the fissure of the country.

Shamrock — The property of W. S. Godbe & Co., has a tunnel about 200 feet along an irregular vein of ochraceous ores of the antimonial variety, occasionally producing fine specimens of horn silver.

Chloride Point has also a tunnel over 200 feet in the same class and character of ore. It has produced largely.

Philadelphia Boots and Shoes at Dunford & Sons.

New Yorker—Including the Illinois, Tampico and Crooked Horn, has produced large quantities of fine and rich chloride milling ores; horn silver, and even native silver have been found in the vein; has been worked by extensive surface excavations, but has been idle for over one year.

Little Pem—Owned by C. Napper, W. S. Godbe and others has a tunnel about 150 feet, and produces rich chlorides and free milling ores.

Dixie—A large and well defined vein, the property of Jos. Woodmansee. It has been worked by tunnel, drifts and shafts, producing fine milling ore, specimens of which assay very high.

San Joaquin—The property of Baskin & Co., worked by a shaft nearly 200 feet, on a vein of chloride ore all the way, similar to Lion ore; has a fine body of it in sight.

Anna (No. 3)—Owned by Lawrence & O'Neil, has been worked by a shaft and drifts over 100 feet, and produces ochraceous ore of the antimonial variety carrying chloride.

Potosi—Owned by H. C. Lincoln, W. G. Gallagher & Co., has a shaft about 150 feet deep, on a vein of milling ore.

Chloride Gem—Belonging to L. W. Clark & Co., has been worked by a shaft over 100 feet with drifts, and produces chloride ores similar to the Lion; is now in a fine body of it.

Miner's Delight—The property of the Utah S. M. Co. of England, has an incline shaft about 300 feet in length, with drifts and cuts. With this are included the Silver Shield, Velocipede, Nos. 1 and 2, Pocatello and other claims. It produces oxyd ore, called carbonates, carrying about 30 per cent. lead and fifty ozs. silver, with a large body in sight growing richer as the work proceeds.

With the Gen. Grant we include the Burnet, Wild Delirium, Bannock, Leo Monitor, Seymour, Harriet, and several other locations all confusedly mixed up with each other and claimed by several different parties. It is a large outcrop, worked in many places, producing oxyd ore called carbonates, of a low grade, both in silver and lead, but great in quantity.

Gray Rock—Recently sold to a Mr. Kelly of New York, a large vein of galena and carbonates, carrying little pyrites; has been extensively worked in several places.

McCullin—The property of John Tiernan, Theo. Haswell & Co., has two tunnels nearly 200 feet each, shafts and drifts;

ore body large, but low grade in both silver and lead, called by the general term of carbonates.

Fairview—Owned by Dr. Samuel Smith & Co., of Chicago, has an incline of about 200 feet all the way on a chimney of ore, producing galena and carbonates of low grade in silver.

Hidden Treasure—Owned by Isaac Watterman, of Philadelphia, is the oldest location in the district. The out-crop and float of this mine was a beautiful, dark-colored, striped cerusite, which the Indians, in time past, used to melt and run in bullets. This attracted the white man to the spot, and he gobbled it all up for a mining claim, calling it the St. Louis. It was purchased by Mr. Henry Simons, the manager for Mr. Watterman, who spent about \$40,000 developing it. Mr. George L. Ayers is now manager, and is shipping from the mine about fifteen tons of ore per day, that carries fifty per cent. lead and forty to fifty ounces silver to the ton. The ore is an ochraceous earth with frequent "kidneys" of galena and cerusite. It has been developed by five inclines, each from 120 to 300 feet, with drifts, cuts and chambers, and the Granite tunnel to strike the ore-body from the north, now in nearly 200 feet. It is now in porphyry.

Chicago—An English Company; has an incline shaft about 500 feet deep, with four side-cuts or drifts of about sixty to eighty feet each; worked by a steam engine that raises all ore from the mine in cars on a railway, from which it is carried to an ore house and loaded in the buckets of their Hallidie tramway, and carried down to the mouth of Dry Cañon, about one mile distant, where it is loaded in wagons and hauled to their furnace near Stockton; this tramway has a capacity of fifty tons per day. The mine produces and ships twenty tons of ore per day, assaying 50 per cent. lead and sixty ozs. of silver, and sometimes considerable of copper.

Sacramento—Owned by Walker Bros., has an incline about 250 feet with drifts, on a strong vein of carbonate ore, of which it has produced considerable.

Fourth of July—Owned by Lilly & Leisenring, of Pennsylvania; has an incline tunnel 420 feet on a vein of ochraceous ores, carrying some galena. The ores are sent to Dry Cañon over their tramway, a distance of about 1500 feet.

Kearsarge—Owned four-fifths by Lilly & Leisenring, of Pennsylvania, and one-fifth by John Tiernan; has an incline 380 feet all the way on a chimney of good ore, from four to sixteen feet wide; drifting into a body of very rich ore,

large in quantity; the ore contains black sulphurets and carbonates.

The Mono—Owned by Warren Heaton, O. Embody, Mat. Gisborn and W. E. Miller; has an incline 600 feet, with as high as forty-two side-drifts; ore is being stoped down from these drifts; has produced large quantities of black sulphurets, of silver glance, and several hundred thousand dollars worth of ore, within the last year, and is now producing ten tons per day, that will average \$700 per ton; the ore is raised by a horse whim; Mr. Robinson is superintendent.

Utah Queen—Owned by Carson & Buzzo, has an incline about 200 feet in depth. The vein is somewhat broken, the ore appearing in pockets. The character of the ore is much like that of the Kearsarge.

Emporia—Owned by H. B. Brady and F. Gobin, has an incline 350 feet deep, with two side drifts about seventy feet each, on a vein of ore much like the Mono; is producing from 5 to 6 tons per day, when in full force, of ore that will average over \$300 per ton; assays run as high as \$4,200 silver, \$75 gold, and 70 per cent. lead.

I. X. L.—Recently sold to Sam. Parker & Co., of Troy, N. Y., has a tunnel of ninety feet on a vein of ore.

Flavilla and Queen of the Hill—Has a tunnel about 100 feet on a strong vein of ore, carrying 60 ozs. silver and 40 per cent. lead.

Mount Savage—Owned by J. D. Feidt, has a tunnel eighty feet into a vein of good ore much like the I. X. L.

Baltic—Has tunnels and open cuts into a ledge of rich milling ore, of which the tunnels have recently developed a large body.

Nabob—Has considerable work on the surface, but has not yet defined the vein; ore of good grade, and appears in large quantities.

Rip Van Winkle—Owned by John Tiernan & Co., has been worked by tunnels, shafts and open cuts producing considerable free milling ore of the red antimonial variety.

The Green Chloride and the group of mines adjoining, owned by Tiernan, Doolittle & Co., is considerably worked on the surface, producing embolite and other free milling ore.

Evening Star—Owned by T. R. Miller & Co.; shaft 480 feet with drifts and cuts; vein of ore averages five feet thick and samples \$185; ore, carbonates and black sulphuret of silver.

McCall Lode — Owned by Lilly & Liesenring and John Tiernan; open cut and incline thirty-eight feet; strong vein of good ore.

Dexter — Owned by Converse, Kirk & Emory, incline 120 feet; strong vein of ore, galena and ochre, producing well.

Deseret — Owned by William C. Miller & Bro.; incline 135 feet; vein of ore three feet thick; samples \$185 silver mill- ing ore in quartz gangue; dolomite, country rock.

Rattler — Owned by McKendrie & Co.; shaft 120 feet deep; three foot vein; good ore and producing largely.

Cadot — Owned by T. R. Miller & Co.; shaft 120 feet, in good ore, produces about two and a half tons per day of ore averaging about \$85 in silver and 20 per cent. lead.

Belle Wilfur — Owned by Lamb & Ashbrook; shaft 380 feet, in good ore much like Emporio; produces well.

Mid Day — T. R. Miller & Co.; incline thirty-five feet; on strong vein of ore similar to Deseret; contains some copper.

American Flag — Owned by H. Bliss & Co.; cut, drift, shaft and tunnel; a good vein of ore of high grade.

Post Boy — Owned by Lilly & Co.; incline 150 feet, on a good vein of ore much like the McCall; about two and a half foot vein; produces well.

Alabama — Owned by General Lowe & Co.; open cut, tunnel and shaft, 128 feet on three-foot vein of ore, worth about \$100 per ton; contains about fifteen per cent. copper; produces well.

Noyse — Owned by the Mono Co.; incline 140 feet on strong vein of ore; carbonates, galena and ochre; patent ap- plied for.

Magnolia, owned by Hooper, Jennings & Granger; open cut, drift and tunnel, 100 feet, on a strong vein of ore; car- bonate, galena and ochre; produces largely and is of good grade.

Brooklyn and Elgin, both owned by Bucklin and H. W. Lawrence; each has an incline of over 100 feet deep; same class and grade of ore as the Noyse.

Wandering Jew, owned by John Tiernan & Co.; cuts, drifts, tunnel and shaft, 140 feet on vein of rich ore.

Plymouth Rock, owned by George and Charles Clark; worked by several cuts, drifts, shafts and tunnels, on a good vein of rich ore.

Silver Tail, owned by B. F. Butler and Matt. Gisborn; open cut, shaft and tunnel 140 feet; strong vein of galena ore.

Debts, as they do an Exclusive Cash Business.

Great Western; free milling ore, worked by cut, tunnel and shaft.

Percilla, owned by Deshazo & Co.; shaft fifty feet on strong vein of free milling ore of high grade, running over \$200.

Roaring Lion, owned by Nick Lawler, Sam Pollock & Co.; tunnel 180 feet in ochre and carbonates.

Antelope; considerably worked and produces largely of galena and carbonates.

Ophir; worked extensively and produces well of smelting ore.

Seneca Falls, owned by Lawrence & Boardman; shaft fifty feet on strong vein of free milling rock.

John Cabot—On Mahogany mountain, Dry Cañon, between the Queen of the Hill and Plymouth Rock mines; ore chlorides; vein heavily impregnated with copper stain; incline down fifty-four feet, showing a well-defined vein from one to three feet in width; assays \$76.40 silver and a trace of lead; owned by Clark Bros. & Co.

Besides these are many other locations in the district, such as the Norman, Genuine, Douglass, Sweetwater, Buffalo, Eugene, Nevada, Defiance, Ida Elmore, Nelson, Jim Fisk, Rob Roy, Struck It, Cliff, Rowland, Gt. Western, Pioneer, Crown Point, Antelope, California, Poor Man, Silver Tail, Rattler, American Flag, Shoo Fly, Alabama, Ivanhoe, Noyse, Brooklyn, Elgin, Yankee Doodle, Belle, Mineral Point, Plymouth Rock, Miami, Evening Star, Black Prince, Occident, Home Streak, Mountain Chief, etc.

There are two furnaces, four mills and four arastras in the district, as follows:

Walker Bros. Mill—Fifteen stamps, eight-horse power engine, dry crushing, seven large pans for grinding and amalgamating, with an Aikin's roasting furnace attached. This mill has all the modern improvements and is not surpassed by any of its capacity on the Pacific coast.

A Steam Stamp Mill—Rotary battery, of a capacity of six tons per day, known as the Brevoort mill.

The Enterprise Mill—Five stamps, water power, grinding pans and amalgamating cylinders. A very neat and creditable mill.

The New Jersey Mill—Water power, with rock breaker, arastra pans and barrel amalgamators.

The Pioneer Furnace—Two stacks, steam power, capac-

ity three tons per day of bullion and ten tons of ore to each cupola.

The Ophir Furnace — Two stacks, steam power, same capacity as the Pioneer Furnace.

Of the four arastras, only two, that of Horace Bliss and the Baltic Company, have been at work this past winter. They are both water power, with amalgamating cylinders, and have reduced two tons per day with good results.

Two new mills of ten stamps each are about being erected.

PARLEY'S PARK,

EMBRACING UINTAH AND BLUE LEDGE DISTRICTS.

Parley's Park is located east of Salt Lake City 30 miles, and in the main Wasatch range of mountains. A tri-weekly line of stages run from the city to the mines. Following is a brief account of the developments on some of the principal locations :

McHenry — One shaft 100 feet deep on the lode ; also a tunnel 112 feet long, tapping the lode with drifts ; has extraordinarily large croppings on the surface ; lode, quartz and milling ore of high grade.

Ontario — Has 740 feet of tunnel on the lode, exposing ore the entire distance ; three shafts, one ninety-eight feet ; another, 123 feet, and the main working shaft, 110 feet, over which is erected hoisting and pumping works, driven by steam power of forty-horse capacity. It has also 350 feet of tunnel tapping the western end of the location ; milling ore and high grade, assaying from \$70 to \$300 per ton ; 500 tons of ore on the dump ; the best developed mine in the district.

Flagstaff — Situated on Flagstaff Hill, has three shafts used for prospecting, from thirty to eighty feet deep ; main working shaft, 100 feet deep ; formation quartzite ; milling ore, but carrying some base metals ; assays from \$30 to \$200 per ton.

Piñon — Has about 100 feet of shaft, also an incline ; ore, carbonates and galena ; lode is well defined and promising ; several hundred tons of ore shipped.

Walker & Webster — Has over 300 feet of tunnel exposing large bodies of galena and carbonate ores ; shipped over 300 tons.

Dunford & Sons Keep a Full Line Gents' Furnishing Goods.

Pioneer — Has an incline of eighty feet, with good body of smelting ores.

There are also in this district a number of other mines, which prospect well for the development done.

The New York, Red, White and Blue, Major, Como and others, are valuable prospects, principally milling ore.

RUSH VALLEY MINING DISTRICT.

This was a part of the West Mountain Mining District when that was organized in September, 1863, but was organized as the Rush Valley District in 1864; the eastern boundary, being the dividing ridge of the Oquirrh range of mountains, on the western slope of which are situated the mines of this district.

About midway the district, and one mile from Stockton, is a heavy out-crop of a belt of blue limestone running east and west. Dipping under this is a well-defined vein, three feet in width, carrying argentiferous galena, mixed with iron ochre. The following mines are on this belt, which extends about a mile in length. On the east end is the first discovery in the district, called the Lincoln, now known as the Argent; developed by shaft 100 feet in depth and one fifty feet; ore fifty per cent. lead and forty ounces silver to the ton, though one lot yielded sixty per cent. lead and twenty ounces silver. Now being worked and ore sold to the Chicago smelter.

Adjoining west is the Tucson; shaft 100 feet and tunnel run on the vein about 240 feet, connecting with it; an incline of 100 feet is now being run from the end of the tunnel. One lot of ore yielded sixty per cent. lead and eighty-seven ounces of silver to the ton; owned by Swartz, of Pittsburg.

The formation is somewhat broken west of the Tucson, but it is evident the Bolivia is on the same vein; it is opened by a shaft over 100 feet in depth, and there is much ore on the dump; owners, P. E. Connor, T. D. Brown and others; claim 1,000 feet.

Over the ridge west from the Bolivia is the Silver King, from which was shipped the first car load of galena ore sent from Utah; it was shipped on schooner from Clinton's landing across Salt Lake to Corinne, thence on C. P. railroad to Selby's Works, San Francisco. The mine is opened by shaft 100 feet, connecting with a tunnel run from gulch along the vein 200 feet; from this tunnel a shaft 150 feet is

sunk. Average of ore in value about fifty per cent. lead and forty ounces silver to the ton; owned by P. E. Conner; claim 800 feet.

West of this mine, across the gulch, is the first extension west of the Silver King. Near the east end of the claim is a shaft twenty-five feet deep; towards the west end one sixty-five and one 165 feet, connected by a tunnel forty feet long; galena and carbonate ore; average value fifty per cent. lead and forty ounces silver per ton. Owner, D. B. Stover.

Across the gulch to the west is the Fuller lode, with shaft 100 feet deep; good grade of ore; owned by Wm. Fuller and J. Higson.

Towards the north part of the district is the Southport; quartzite vein carrying galena and carbonates in large quantities; course of vein, north and south; opened by cuts and tunnel running into the hill on the vein a distance of 200 feet, with several shafts; vein about three feet in width; owners, L. Livingston & Sons.

Last Chance—On the same hill; course, north and south; developed by shaft 30 feet, and several cuts. Ore from this mine has assayed as high as \$2,000 to the ton; owned by Nevett, Earles, Connor and Stover. A little further north, on the next hill, is the New York, opened by shaft 30 feet and cut. Ore, high grade, assays as high as \$3,000 per ton; owned by Nichols, Stover and others.

Josephine, formerly the Potomac—Quartzite and lime formation; shaft 108 feet deep; strong vein, carrying good grade of galena ore; works well in smelter; owned by Jas. Campbell and others.

The Peabody—On Orizaba Hill; hard lime formation; good ore on surface; opened by cuts, and tunnel 120 feet, but not quite to the point where it is expected to strike the vein, which runs east and west; owners, L. Livingston & Sons and M. Monheim.

Maybells—On same hill; opened by shaft 100 feet; good vein; owned by J. C. Reynolds and M. Monheim.

Hard Times—Well-defined vein in quartzite, carrying a different ore from any other in the district; has a copper stain, and but little galena; assays \$250 dollars per ton; opened by two shafts, ten feet and thirty feet; owned by Bayliss, Conger, Stover and Earles.

Near the Silver King are the Pierson and Rough Ready mines, opened by cuts and tunnels last year, yielding a large

amount of ore, which was sold to the smelters; owned by Col. Sprague.

Defiance—Well defined east and west mine; opened by tunnel 100 feet, and drifts; good quality of ore; owned by E. & T. Paxton.

East of the Defiance is the Orion lode, a two-foot vein; mixed with galena, is a dark iron ochre, excellent for fluxing; owned by D. B. Stover and F. Paxton; largely developed.

North, a short distance from Silver Canon, is the Eureka lode, an immense outcrop of quartzite, carrying a fine carbonate ore; very hard; coarse of vein, north and south; developed by heavy cuts, and a tunnel run from the north side of the hill to tap the vein, 140 feet; this is run through a white-lime country rock. Probably 100 feet further would reach the vein; owned by Benson, D. B. Stover, and others.

North from the Eureka are the Metropolitan and Legal Tender, supposed to be the same vein; originally the Melrose; developments are extensive by tunnels and shafts; average assay of the ore about forty per cent. lead and fifty ounces silver to the ton.

West from the above are the Illinois, Peru and Douglass, north and south veins in quartzite; not largely worked, but promising well; good carbonate ore; owned by L. Livingston & Sons.

North of these is the St. Patrick, opened by an incline of 100 feet. This mine, at one time, was very promising, and yielded a large amount of ore, smelted at the Waterman furnaces.

Up Quandary gulch, one-fourth of a mile from Silver Spring, is the Quandary lode, developed by a shaft over 100 feet in depth, with levels run therefrom; owned by E. C. Chase & Fowler.

Opposite the gulch from the Quandary, is the Great Basin lode, opened by tunnel 100 feet, and shaft 150 feet; has produced high grade ore; owned by P. E. Connor, who also owns the Silver Queen and Great Central on the hill above, developed by shafts about fifty feet each.

A short distance above the Quandary up the gulch, is the first extension north of the Great Central lode, a well-defined, true fissure vein, in quartzite, running north and south; opened by tunnel, and cut forty feet, and shaft fifteen feet; ore, about fifty per cent. lead and \$150 per ton of silver; owned by D. B. Stover; claim 1,000 feet.

North from the Quandary, on top of the hill, is the mine Our Fritz, with shaft 100 feet in ore all the way, which assays about sixty per cent. lead and \$94 in silver to the ton; owned by Monheim & Goetze.

East from Silver Spring, 100 yards up the canon, is a group of mines called the Butler, Lady Amanda and Lady Douglas; white limestone country rock, with quartzite veins, carrying galena and carbonate ore of good grade; developed by many cuts, shafts and tunnels; course of veins northeast and southwest; owned by D. B. Stover and others.

South from Silver Spring one-fourth mile is the Hannah mine, formerly the Manchester; now being rapidly worked; a vein in quartzite, running north and south; developed by two shafts, one of which is 100 feet in depth, carrying ore assaying about sixty per cent. lead and fifty ozs. silver to the ton; W. A. Rooks, owner.

Near the Hannah is the Minerva, formerly Rush Valley; a large out-crop of quartzite; shaft over 100 feet in depth.

West from these mines half a mile, is the Muscatine mine, in limestone formation; quartzite vein, opened by incline 100 feet, with extensive adit level in good ore all the way; ore averaging fifty per cent. lead and forty ozs. silver to the ton; owned by E. C. Chase, W. Goetze and others.

On the hill south of the Muscatine, of white limestone, is a group of mines, in quartzite veins, running north-east and south-west. The Silver Star, James Neal, Luther Card, Andrew Campbell and Doubtful are all well-defined veins, developed by cuts, tunnels and shafts, one of the latter forty-two feet in depth; ore is a good grade of galena and carbonate; owned by D. B. Stover, J. H. Earles and others.

The First National (formerly Flora Temple) is a well-developed mine, with a shaft over 100 feet; strong vein and good body of ore; now being worked; owned by Reamer, Thompson & Co.

There are also several mines near Soldier Canon; good veins; owned by Weitz, Fuller, Higson and others.

The facilities for working the galena ores of the district by smelting works are very superior, as Lilly, Leisenring & Co., of Philadelphia, have three large furnaces; Chicago Company two; Carson & Buzzo two; the Waterman Company one; and another is to be built soon. The capacity of these furnaces is great enough to smelt at least 200 tons of ore and produce seventy tons of lead per day.

STAR DISTRICT.

This district, situated in Beaver county, 214 miles southwest from Salt Lake City, and 197 miles from Provo, the present terminus of the Utah Southern railroad, is about fifteen miles long, north and south, and seven miles wide, east and west; and embraces South Camp, Middle Camp, Shaunty Springs, West Camp, Foot Hills and North Star. Star City is the largest of these camps, having a population of from three to five hundred inhabitants of all classes. During the latter part of last year a ten-stamp mill was erected on Beaver river, five miles from Star City, and has been running successfully since October, 1873, on ores from the Hickory and Shenandoah mines. A smelter with two stacks has been erected at Shaunty Springs, and is in successful operation, smelting ores from the Rebel, Elephant and Miner's Dream mines.

The following is a list of the principal mines in the different camps in Star District:

North Star—Within a radius of one and a half miles of Star City are the Lake Superior, Lone Tree, Shenandoah, Hickory, Rebel, Midas, Matilda, Lindsay, Merrimac, Hidden Treasure, Osceola No. 1, Osceola No. 2, Blue Cloud, Oriental, Dead Beat, Latrobe, Morehous, Stonewall, Templeton & Jefferson, Robert E. Lee; in the Foot Hills—Day Dream, Minnesota and Rainbow; in West Camp—Lookout, Wild Bill and Flora, Temperance, Clipper, Miner's Dream; in Shaunty Springs—Savage, Burning Moscow and the Elephant; in Middle Camp—Jupiter, Bivins, and several other very fine prospects; in South Camp—St. Mary's, Pitney, Little Gentile, and a number of fine prospects.

Lake Superior—Length of vein, 1,000 feet; located March 18th, 1872; owned by Thomas H. Bates & Co.; incline shaft, 5x8; sunk on vein, 45 feet; ledge 20 feet wide, carrying a vein of copper ore eight feet thick, lying on a well-defined foot-wall; character of ore, 20 per cent. carbonate of copper, carrying silver. This mine is capable of producing 50 tons of ore per day with its present development.

Lone Tree—Located March 28th, 1872, contains 1,200 feet in location, and owned by Thos. H. Bates. Developments, an incline shaft sunk in vein 65 feet; ledge, four

feet thick, and the ore scattered through it; character of ore, 30 per cent. carbonate of copper.

Shenandoah—Located in 1871, and has 1,200 feet in location; owned by Jas. Schoonmaker & Co.; perpendicular shaft, 75 feet deep; strong vein of milling ore two feet thick.

Hickory—Located in the spring of 1871; two shafts, respectively, 200 feet deep, and fifty feet, sunk on the vein of ore which runs from four to six feet in width. Character of ore, chlorides and sulphuret of silver and lead. Average value, \$70 to the ton in silver. This property is owned by the North Star company, who have a ten stamp mill, five miles from the mine, on Beaver river.

Rebel—Located March 8th, 1871, and contains 1,000 feet in location; incline shaft, 75 feet; width of vein of ore from seven to sixteen feet; ore, a carbonate, and assays from \$40 to \$50 in silver, and from 50 to 70 per cent. lead; owned by Jas. Schoonmaker & Co.

Midas—Located in the spring of 1871; contains 1,200 feet in location; incline shaft, 70 feet; 50 feet drift. Two feet vein of milling ore. Property of Mathew Cullen & Co.

Matilda—Located in the spring of 1871; fine prospect for a mine of milling ore. The property of Mathew Cullen & Co.

Merrimac—This property also belongs to Mathew Cullen & Co., and has about the same characteristics as the Matilda.

Hidden Treasure—Located July, 1871; contains 1,400 feet in location; perpendicular shaft sunk on vein 46 feet, developing a vein of heavy galena ore, the assay value of which is 60 per cent. lead and \$40 in silver to the ton. Owned by Wm. H. Lighthall, Wm. Forgie and others.

Osceola No. 1—Located in the spring of 1871; 1,000 feet in location; incline shaft, 60 feet, showing in a good body of milling ore; owned by Joe Hooper & Co.

Osceola No. 2—Located in the spring of 1871; incline shaft, 60 feet; drift, 30 feet; the ore is found in pockets, mostly carbonate, assaying from \$40 to \$350 to the ton, and from 30 to 50 per cent. lead; owned by A. G. Campbell & Co.

Blue Cloud—Located March 29th, 1872. Contains 1,000 feet in location; perpendicular shaft, 32 feet; incline from bottom of this shaft, 15 feet, developing a vein of four feet of carbonate and galena ore; owned by C. Heinricke & Co.

Oriental—Located in 1871; 1,000 feet; perpendicular shaft, 40 feet in a loose mass of carbonate ore; assays 40

per cent. lead and \$40 in silver to the ton; owned by Campbell & Byram.

Dead Beat — Located in 1871; 1,000 feet; incline shaft, sixty feet, developing a vein of ore from three to nine feet in thickness; ore, carbonates and chlorides; assay value from \$40 to \$360 in silver to the ton, and from forty to fifty per cent. lead; owned by A. G. Campbell, A. Byram and J. W. Clark.

Latrobe — But little work done on this location; large outcrop of ore similar in character to the Dead Beat; owned by Thomas Golden & Co.

Morehous — Located in March, 1872; 1,400 feet; incline shaft, 140 feet; at this depth a good body of chloride and sulphuret ore has been found, which assays from \$40 to \$280 to the ton in silver and from forty to sixty per cent. lead; ore is sold on the dump to Shaunty Springs smelter; owned by G. W. Morehous, John Morehous and others.

Stonewall — Located in 1871; incline shaft, sixty feet; at bottom of shaft two feet vein of milling ore which assays \$60 to the ton in silver; owned by James Harrington & Co.

Templeton and Jefferson — Located in March, 1872; 2,400 feet; incline shaft, fifteen feet, developing a vein of free milling ore twenty inches thick, lying on a well defined foot wall; formation, quartzite; assay value of ore from \$30 to \$180 in silver to the ton; a very promising prospect; owned by H. T. Templeton, W. L. Dykes and others.

Robert E. Lee — Located February 16th, 1872; 1,800 feet; perpendicular shaft, fifteen feet; width of vein, four feet, carrying a vein of carbonate and galena ore one foot thick; assay value from \$26 to \$385 in silver to the ton and from forty to sixty per cent. lead. The vein contains rich streaks of decomposed sulphurets and black carbonates of lead; formation, silicious limestone. This mine is on Eureka Divide, 6,325 feet above sea-level and two miles westerly from Star City; a very promising prospect; owned by W. L. Dykes, Jos. F. Nounnan, A. S. Potter, C. M. Hawley and others.

Day Dream — Situated about three miles due south from Star City, and is 6,000 feet above sea-level by Green's barometer. From discovery shaft the vein dips at an angle of 45° for 15 feet, thence the vein runs N. 48° E., nearly horizontal for a distance of 75 feet, with a well defined vein of ore 18 inches in thickness. At this point the vein pitches to the N. E. at an angle of 60 degrees;

and shows well-defined foot and hanging walls four feet apart. In the bottom of the shaft the ore is mixed with brecciated matter. Formation, quartzite; assaying from \$117 to \$199 in silver and \$9 in gold to the ton. The character of ore is sulphurets and carbonates of lead carrying silver, gold, antimony, platinum, copper, pyrites of iron. Owned by J. L. Limmerman, W. S. Searl and S. C. Bassett.

Minnesota — Located in 1871; 1,000 feet in location; situated in Foot Hills, two and a half miles southerly from Star City; shaft, 100 feet; width of vein from four to six feet; smelting ore.

Rainbow — Located in 1871; perpendicular shaft, 25 feet; vein of ore, four feet, at bottom of shaft; character of ore, carbonate of lead, carrying silver.

Lookout — Located December 17th, 1871; 1,200 feet; strike of vein north, 36° , east dip 45° to the north-east; incline 60 feet; vein of ore two inches thick at surface and two feet thick at bottom of incline, increasing regularly all the way down; well-defined foot and hanging walls, four and a half feet apart; foot wall, quartzite; hanging wall, siliceous limestone; character of ore, sulphurets and chlorides of silver; mixed with stedefetite and particles of horn silver; ore on dump assays from \$50 to \$300 per ton in silver; owned by Wm. H. Lighthall, John Davidson, Sandy Lochrie, Wm. Martin and Jas. Forgie.

The Flora and Wild Bill — There are two locations on this property; but they are virtually one mine. An incline has been sunk on the Flora 115 feet, and at the bottom of the incline a rich body of gray carbonate of lead, carrying silver, has been struck. The Wild Bill contains 1,000 feet in location, and has a well defined ledge which can be traced between three and four hundred feet on the surface. The strike of the vein is north-east and south-west with a dip to the north-east; has been developed 280 feet along the line of the ledge by means of three shafts sunk on the dip of the ledge — one ten feet, one twelve feet and the third thirty-eight feet deep, displaying a vein of ore from four to eight feet in thickness. In this distance in the ledge (280 feet) there are 1,380 tons of ore in sight in the mine; and 300 tons on the dump; ore, argentiferous carbonate of lead; assay value 32 ozs. of silver to the ton and 60 per cent. lead. The Flora is owned by Gen. P. Edward Connor and Major Gallagher, and the Wild Bill by Thompson and others, of Beaver.

Temperance — Situated three miles from Star City in a south-westerly direction, and 6,350 feet above the sea. A tunnel has been run 280 feet on a vein of ore averaging two and a half feet wide. A shaft fifty-two feet deep has been sunk at the end of tunnel; and a winze constructed about midway the tunnel which extends eighty-eight feet to the surface. The ore is fine milling; average assays about \$60 silver to the ton; owned by Gen. P. E. Conner and Maj. Gallagher.

Clipper — Has an incline shaft 118 feet and a thirty feet drift, showing a vein of ledge matter four feet thick, carrying veins of ore from six to ten inches, and deposits of ore mixed with the ledge matter. Character of ore, carbonate and sulphurets of lead, and black sulphurets of silver, and assays from \$25 to \$10,000 in silver to the ton.

Miner's Dream — Located in 1872. The workings consist of a tunnel 170 feet to connect with a shaft 100 feet deep. Strong vein of ore two feet thick; character of ore, carbonate of lead, carrying silver, and assays from \$50 to \$750 in silver to the ton, and from forty to sixty per cent. lead. Owned by W. A. Rooks and Wm. Davis.

Savage — Has an incline of 100 feet, showing a two-foot vein of yellow carbonate of lead, carrying silver.

Burning Moscow — This mine has been pretty thoroughly developed, and shows an extensive body of carbonate ore.

Elephant — Contains 800 feet in location, and was located in 1871. Strike of vein N. by S., dip 50° to N. E., incline eighty feet on a vein of four feet carbonate of lead ore, carrying silver, the assay of value of which is from \$50 to \$150 to the ton in silver and from forty to fifty per cent. in lead. Owned by Dennis Ryan, Matthew Cullen, Jos. Turley and Owen Turley.

St. Mary's — This mine, situated in South Camp, about six miles from Star City in a south-westerly direction, is the property of James Barratt and others. It has been pretty thoroughly developed and shows a vein about four feet thick of grey carbonate ore. This is one of the most valuable mines in Star district.

The Jupiter and Bivin in Middle Camp, Pitney and Little Gentile, in South Camp, are fine and valuable prospects.

TIMMONS, OR NEBO, DISTRICT.

Nebo is situated in Juab county, eighty-five miles south of Salt Lake City, and thirty-five miles from Provo; it lies within a mile and a half of the proposed line of the Utah Southern railroad, which, when completed, will give a new impetus to mining in that district, as the ores are found in immense quantities, but are of too low grade to pay for shipment, except by steam power. The district was discovered and organized in the spring of 1869 by F. Carter and others. Its boundaries are, commencing at Willow Creek, running thence easterly to the summit of the Wasatch range, thence northerly along the summit of said range to the northern boundary of Juab county, thence westerly along the line of Juab county to the summit of West range, thence southerly along the summit of West range to the place of beginning. Following are the principal mines and their developments:

Olive Branch—Situated on the north Twin Mountain; shaft, thirty-five feet deep; tunnel, 100 feet; formation, quartzite and limestone; average width of vein, three feet; average value of ore, \$35 per ton; owned by Wm. Jennings, of Salt Lake City.

Mountain Queen—On north Twin Mountain; shaft, thirty feet deep; formation, limestone; average value of ore, \$20 per ton; average width of vein, four feet.

Blue Bird—At the head of Secret gulch, on the south side of North canon; shaft, eighty feet deep; formation, quartzite; a true vein of first-class ore.

Monitor—At the mouth of Twin canon; incline shaft, twenty feet; showing a good vein of galena ore; average value of ore, \$18 per ton.

Commonwealth—On the north side of North canon; shaft down forty-five feet, showing a good body of galena and ochre ore.

Elephant—In North cañon; shaft down fifteen feet, showing a good vein of galena ore.

Bluff—On North Twin mountain; shaft down forty feet, showing a good body of galena ore, of a low grade.

Knuck—On north side of Twin cañon; shaft down thirty feet, showing a good vein of galena ore, of a low grade.

Magpie—On south side of Bear cañon; shaft down twenty feet; large body of galena ore of a very good quality.

Eureka—On Olive Branch hill; shaft down fifty feet; body of very good ore.

Sultana — On the south side of South Twin cañon; tunnel, seventy-five feet; good vein of galena ore, low grade.

Trench — On the south side of the North Twin cañon; shaft, twenty feet deep; galena ore.

Gray Eagle — On the south side of south Twin Mountain; shaft ten feet deep; galena ore of low grade.

Agnes — On the north side of Twin cañon; two shafts twenty feet each; large vein of galena ore of a low grade.

Morse — On the north side of North cañon; has an incline shaft 140 feet, with a vein of galena and carbonate ore, two and a-half feet wide, increasing as it goes down; owned by Erickson & Co.

Great Western — On Mountain Queen hill; has a shaft down twenty feet; good vein of galena ore of low grade.

Following are the names of the principal locations in the district, showing well on top, but which have not been developed, except enough work to hold them: Mount Pleasant, Sonney Boy, Whimbamper, Rip Van Winkle, St. Patrick, Lilly, Rising Sun, Clipper, Cooke, Watsike, Mountain Lion, Crooked Horn, Honey - Moon, Stonewall Jackson, Wild Dutchman, New York, Morning Glory, Montezuma, Black Hawk, Little Emily, Wandering Jew, Flag-Staff, Ground Hog, Keisel, Herald, Silver Star, Home Ticket, Hoboken, I. X. L., Wild Frenchman, Mormon Chief, Wild-Cat, Octoroon, Jersey, Olive Branch No. 2, Live Yankee, Aspinwall, Hagar, Midas, Cataract.

There is no smelter in the district, and for that reason there are but few of the mines being worked, as the ore from most of them will not pay to ship.

TINTIC DISTRICT.

Tintic Mining District — Situated on the west of the range, separating Utah county from the northern end of Juab county; its mines in the mountains and foot hills on the east side of Tintic valley, was organized by S. B. Moore, Hyde, Peck and others, on the 13th day of December, 1869, and has since been continually worked. The minerals produced are gold, silver, lead and copper, the lead and silver ores carrying some antimony and bismuth. The district is fifteen miles long north and south, by ten miles wide east and west, and the mineral belt, so far as prospected, is about four miles wide and extends north and south outside the lines of the district. At the north end of the district is

Eureka, with about two hundred and fifty inhabitants. South of Eureka is the Mammoth Hollow, in which are the copper mines, the Mammoth Copperopolis, and Crimson Mammoth, and Mammoth City, with a hundred and twenty inhabitants.

About one and a-half miles southerly from Mammoth is Silver City, with a population of 200. South-easterly from Silver about three miles, is Diamond, with about 350 inhabitants. It is a thriving mining camp, and the largest one in the district.

Homansville — In Utah county, is at the north-east end of the district, and is situated at the mouth of a canon, three miles from Eureka City. The Wyoming Silver Mining Co.'s quartz mill is built there, as also the Eureka quartz mill and a smelter, which was built by Messrs. Homan, Clarkson and others, two years ago. The population numbers about 150.

Following are the principal mines :

Sunbeam — Located December 13th, 1869 ; is segregated ground, and consequently has more prospect shafts on the lode than any other in the district. The Wyoming Silver Mining company own near three hundred feet, and are working at their mill at Homansville the ores they extract. The Moore claim has the deepest shaft on the lode, being about two hundred feet from the surface, on a vein of ore the entire distance. The Peck, Croff, Worsley and Woodmansee claims are being very successfully worked by S. R. Albee & Co., who have stripped the lode 150 feet and run drifts from fifty to 150 feet on the ore vein. The Twombles ground, south on the lode, is being sunk still deeper with flattering results. On the entire Sunbeam lode there has been expended, in labor, from \$25,000 to \$30,000, and there has at least been \$50,000 worth of ore sold from the mine. Sunbeam is situated about three-fourths of a mile east of Silver. The lode is in granite and porphyry, and carries silver, gold, lead and copper, some parts being almost entirely rich arsenical copper ore, with from \$40 to \$400 silver. The pay vein is from six inches to four feet wide, and carries a heavy cropping, almost the entire length of the location.

Black Dragon and the Sidna, North Star, Jeff. Davis, Pearle, Green Mountain Boy, Cerro Gordo, West tunnels and locations, Comet, Henry Clay, Sprinville tunnels, with some ten other veins, are located on the Black Dragon hill,

about one mile northerly from Silver City, and are among the earliest locations of the district. 12,000 feet of Black Dragon belongs to Shoebridge Silver Mining company. Considerable work has been done on it, but mostly surface. The ores carry very silver, copper, lead and some gold. Specimens assay very high in the latter metal.

Sidna—A large outcrop at the south end of the Dragon lode, is about 40 feet wide, the ore carrying silver, some lead, gold, and some copper; good milling ore; W. D. Huntington & Co. are the owners.

Jeff. Davis has been developed to a depth of fifty feet, but has not been worked on for nearly a year; is a mine of some promise.

North Star—A large, well-defined vein; has been in litigation in a quiet way, and the name of its owners being legion, has kept it in the back ground. Probably \$8,000 has been expended in labor with very little returns. Ores, copper, lead and silver, with considerable arsenic and antimony.

Cerro Gordo—Located 75 feet from North Star discovery shaft, is claimed to be the North Star. A tunnel, nearly a hundred feet, is run on the vein.

Diamond Lode—Owned by a San Francisco company, has produced some fine copper ore, carrying fair assays of silver. It is situated on the edge of the ravine, and easily followed. The vein is from six inches to two feet and a half wide; 75 tons of good ore are on the dump.

A few feet north of the Diamond shaft, further up the hill, is the Diamond Extension, or Germania mine, owned by the Germania Mining company of San Francisco, who also own the Elgin lode, close by; ore the same as in the Diamond; shaft is sunk over a hundred feet deep, and several drifts on the lode.

Still further north is the Carisa, owned by Bolivar Roberts & Bros.; a well defined vein of rich copper ore.

In a south-west direction from the Carisa, about two miles, is the Mammoth; the original location was 3,000 feet, and, with the north extension, was located within three months after the organization of the district; is situated about one-third of the way up the highest mountain in the district; the vein runs almost north and south, in limestone walls, which are forty-two feet apart. The locators of the Mammoth have been nearly all bought off, and the Mammoth Copperopolis company own the original discovery as well as

one thousand feet more on the lode, which ground has been extensively worked. Shafts are sunk in several parts of the lode, from 70 to 200 feet deep; tunnel on north hill unites from 50 to 70 feet of the ore vein; tunnel on south hill, 300 feet in length, on the vein, connects with the shaft; ore, principally copper, carrying from 10 to 80 per cent.; easily smelted.

Crismon Mammoth—Owned by the Crismons, Kimball and Jenkins; shaft, nearly 400 feet deep; worked through a tunnel 450 feet long, drifted on each way of the vein from the tunnel; cross cuts in every direction, disclosing thousands of tons of rich copper ore, and silver and gold rock, in which native copper, free gold and wire and native silver sparkle side by side with rich green carbonate and blue bromide.

In a northwest direction is Eureka hill, upon which is located the Eureka mine, which has produced quantities of the richest silver rock ever found. The veins are in lime rock and the ores are carbonate and chloride; many tons of horn-silver rock have been taken away from the hill. Much money has been spent in law suits on account of other locations on the hill being rather close. Over two hundred thousand dollars worth of ore has been taken from the mines on Eureka hill. At least one hundred thousand dollars has been spent in labor on the hill.

Chicago Lode—With its cross veins, Millard & Missouri, recently discovered, while working Chicago, is situated three-fourths of a mile northerly from Silver City; is producing some of the richest silver ore found in the district.

Swansea—Near Silver, has produced thousands of tons of rich lead and silver ore. Now idle.

Lucky Lode—Within 200 yards of Silver City, is being successfully worked, and is shipping fair milling rock. The Bullion, Nettie, Spray, Blue Bird, Tintic, Commodore, Simpson, Galena Bed, Evening Star, Tell, Gray Eagle, I. Tell, Embroy, Tailholt, Mary Bell, (a fine lead ore mine), Schneider Tunnel, with its well of water and three mineral veins, Empire, Black Eagle, Delaware, Hugo, Red Wolf, and fifty other locations of promise are near.

About a mile easterly from Silver is Gold or Chloride hill, on which are situated the Tesora, Cricket, Golden Treasure, Gold Hill, Julian Lane, May Flower, Lillian, Scorpion, Yosemite, Gough and Munson's Chicago Tunnel, and some eight

or ten others. The workings on several of those mines and the amounts of ore being daily shipped to mill, has ranked this hill as perhaps the richest one in the district.

On the southwest of Gold hill, and going from that point to Diamond, are situated some good mines, which have been worked considerably, and the most of them with paying results. The Norwegian produces copper ore with some silver. The Washington, Minnesota, Albert T. Damon, Isabella, Victoria, Selkirk, Joe Bowers, Silver Spar, Shower, Jefferson, Rising Sun, Eberhart, Ohio, Susan, Mary Ann, Alice and Rio Del Norte, are some of the many locations around Diamond. The ores in most are in granite formation, and are nearly all free milling silver ores, some carrying copper, lead and gold.

The Shoebridge, Bareleg and Morning Glory lodes, near Diamond, produce a very high grade copper ore, as also ores carrying silver in paying quantities.

North from Diamond, about two miles is the Golden Bell hill, on which is the Golden Bell, Nelly Bly, Bobby Burns, and several other lodes owned by Cook & Co.; the Lady Aspinwall by the Wyoming Silver Mining Co. Most of these ledges are being worked and are shipping ore.

The reduction works of the district are :

The Homansville smelter, a well-built institution, of two furnaces; built by Homan, Clarkson and others, of Omaha, about three years ago; capacity, from 20 to 30 tons of ore daily.

Wyoming mill, Homansville, built during the winter of 1873-4, and owned by the Wyoming Silver Mining company, of Cincinnati, is a substantial, well-built, and so far, very successful mill, with ten stamps and Stetefeldt furnace; cost, \$100,000. The company shipped through Wells, Fargo & Co., \$100,000 worth of bullion in 1873.

Eureka mill, ten stamps, also at Homansville; although well situated, has not, so far, been a success.

About five miles south of Silver, on what is known as the Lewis springs, is the Shoebridge mill, one of the stoutest and most commodious and convenient mills in the district; owned by the Shoebridge Silver Mining Company, of Portsmouth, Ohio; has fifteen stamps, with an Aiken furnace; commenced to run in the fall of 1873; cost, \$70,000.

Half a mile south of the Shoebridge, on the Tanner Ranch, is the Miller mill, of ten stamps, wet crushing; owned by the Tintic Mining and Milling Co., of San Francisco; well

Dunford & Sons keep the best Line Gents' Gloves in the City.

situated for wood and water, and within six miles of the mines. This company has shipped through Wells, Fargo & Co., within three months past, over \$10,000 worth of bullion. More ore has been tested at the Miller mill than at any other in the district.

The Germania smelter site is a mile and a half north of Miller's, on the Moore springs; is nearer to the mines than any other in the district.

Mammoth Copperopolis mill, copper smelter, is about three miles east of Miller's; is well built.

Diamond smelter, at Diamond City; closed for two years; was built by a Fond du Lac company nearly three years ago; the buildings and works are good.

Tintic District has turned out a great many tons of ore; thousands of dollars of bullion and treasure have been shipped from Homansville, Silver and Diamond. In 1873 \$200,000 worth of silver bullion was shipped from the district.

WEST MOUNTAIN DISTRICT.

West Mountain mining district, comprising Bingham canon, is located on the eastern slope of the Oquirrh range of mountains, distant from Salt Lake City twenty-six miles, with which place it is connected by railroad. The principal town is Bingham. The district contains a population estimated at 1,400. The discovery of the district was made by the California volunteers under General Connor, in September, 1863. The first location was the Jordan Silver Mining company, twenty-five claims, segregated, of 200 feet each, recorded September 17, 1863; there are now 3,305 claims recorded in the books of the district.

West Mountain district is bounded as follows: Commencing at the confluence of the River Jordan with Great Salt Lake, and running thence in a southerly direction along the east bank of said river to its point of exit from Utah Lake, to the fortieth degree of north latitude; thence along said fortieth degree of north latitude, to the east boundary of Tooele county; thence along said boundary to the Great Salt Lake, and from thence easterly to the place of beginning. The country rock is limestone. The most promising ore-producing mines are: In Main Bingham, Winamuck, Blue Jacket, Jordan and Galena, Spanish, Utah, Neptune, Kempton, Rainbow, Northern Light, Orphan Boy,

Grizzly, Mulligan, Mountain Jim, American Flag, Alpine, Magria, Hickman, Juniper, Dinero, Sultan; in Bear gulch, Nez Perces, Chief, Mountain Chief, Montreal and Tiger, Grecian Bend, No You Don't, Captain Jack, Yosemite, Telegraph, Last Resort; in Black Jack gulch, Osceola and Lucky Boy, Hiatt and Bemis, Old Times, Eagle Bird; in Carr fork and tributaries, Last Chance, Cræsus, Rollicking Boy, May Queen, Agnes. There are a number of other locations worthy of notice, but the foregoing are the best known claims in the camp.

The Jordan and Galena mine is the oldest location in the district. It was sold last year by John W. Kerr, Isador Morris and others, to Carson & Buzzo. It is a contact vein, varying in width from 4 to 150 feet; formation limestone, quartzite and shale; has been worked almost continuously since the first location; developments: Tunnels, 2,000 feet; drifts, 1,400 feet; shafts, 400 feet; inclines, 300 feet; traces and cross cuts, 1,000 feet; open cut, 500 feet; ore, low grade, consisting of carbonates and galena; amount of ore removed from the mine, 9,000 tons.

Neptune—On Jordan Hill, the property of Lem. U. Colbath & Co.; developed by three inclines, No. 1 being 120 feet deep, No. 2, 180 feet, No. 3, 180 feet; Nos. 1 and 2 are connected by a drift sixty feet in length; Nos. 2 and 3 by a drift 20 feet; 600 feet of levels are run on the mine; amount of ore removed, 2,000 tons; vein, from four to sixteen feet in length; hanging wall, quartzite; foot wall, limestone.

Kempton Mine—Developed by an incline 175 feet in length; levels, 250 feet; formation same as Neptune; ore removed, 1,500 tons.

Utah Mine—Belongs to an English incorporation, and has been extensively, but not profitably worked. The smelter that was erected at the mine has been torn down, and removed on account of the investment not being a paying one. Ore can be transported to the valley much cheaper than the fluxes and coal that are used can be freighted up the cañon. The Utah is developed by two tunnels—No. 1, 400 feet; No. 2, 700 feet; shaft, 180 feet; winzes, 210 feet; levels, drifts, etc., 2,200 feet; ore removed, 10,000 tons; John Longmaid, Superintendent.

Northern Light—Developed by a tunnel 225 feet in length; shaft No. 1, 100 feet; No. 2, 60 feet; levels and drifts, 126 feet; ore removed, 400 tons.

Grizzly — Shaft fifty-five feet; drift fifty-five feet; 100 tons of ore on the dump.

Fairview — Shaft and drifts 100 feet. This, with the Northern Light and Grizzly, are under one incorporation known as the Northern Light Mining Co., New York City; P. J. Mitchell, superintendent.

Spanish Mine — On Spanish hill; formation, quartzite; contact vein; New York incorporation, S. Winchester, President; W. G. Galigher, Superintendent; R. P. Lounsberry, Manager; width of vein, ten to sixty feet; five tunnels, aggregate length, 1,600 feet; shafts, 300 feet; levels, winzes, stopes, etc., 5,000 feet; ore removed, 12,000 tons.

Sultan Mine — On Jordan hill; incorporated under the laws of Michigan; James Harrington, superintendent; two shafts; No. 1, 105 feet; No. 2, fifty-two feet; levels, etc., 140 feet; 600 tons of ore removed.

Orphan Boy — Located in Main Bingham; developed by a shaft seventy-five feet; a level has been run on the vein 150 feet; main tunnel 140 feet; tunnel No. 2, fifty feet; ore removed, 500 tons; owned by A. Davis & Co.

American Flag — Owned by W. D. Hickman & Co., located on Jordan hill; width from six to eighteen feet, developed by two shafts, each forty feet deep, and two tunnels respectively sixty and 150 feet in length.

Hickman Lode — Owned by Hickman & Co., copper ore, assaying twenty-five per cent.; developed by two vertical shafts, fifty and eighty-five feet, and one tunnel 150 feet in length.

Nez Perces Chief — In Bear gulch, owned by a Detroit company; shaft sixty-five feet deep and two drifts thirty-nine feet and twenty feet; shipped 500 tons of ore, assaying from thirty-eight to forty-five per cent. lead, twelve to twenty-five ozs. silver.

Rainbow Lode — In Main Bingham, owned by R. D. Clark & Co.; shaft on vein 110 feet and levels running therefrom; tunnel eighty feet; ore high grade; true fissure vein in syenitic porphyry.

Bemis and Hiatt — In Black Jack gulch, owned by a Leavenworth, Kansas, company; tunnel, 879 feet in length, taps vein 400 feet from surface. The company have tapped their vein and crossed five good ledges, milling ore from sixty-one to sixty-two ozs. silver, and from two to sixty per cent. lead; true fissure vein in syenitic porphyry. Amount expended, \$20,000; 300 tons of ore removed.

Hats, Hats! Caps, Caps! at Dunford & Sons.

Last Resort — In Bear gulch ; developments, 500 feet ; shipping twenty tons daily.

Damphool — In Lower Bingham ; owned by Shoenberg Bros. ; worked by shaft and incline fifty feet deep.

Great Mogul Mine — In Bear gulch, owned by Thomas Lorr & Co. Shaft sixty feet in depth. Ore galena and carbonate.

Yosemite Lode — Copper Canon, one of the largest deposits of galena ore in the district ; shaft ninety feet in depth and two tunnels.

Isabel Tunnel — Main Bingham ; owned by Audett & Kingsbury. Length of tunnel 800 feet ; one of the valuable properties of the district.

Winamuck — One of the oldest locations in the district, and has paid a large profit on the investment. It is an English incorporation, limited. A. Pinedo, general manager ; Ellsworth Daggett, consulting engineer ; contact bed vein, with quartzite footwall and dark-bluish shale-bearing rock ; ores, carbonate, averaging sixty ozs. silver, twenty-eight per cent. lead. The mine is developed as follows : upper tunnel, 350 feet ; windlass tunnel, 500 feet ; Bushnell tunnel, 400 feet ; lower tunnel, 600 feet ; main shaft, 130 feet ; levels, drifts, winzes, etc. ; over 5,000 feet ; ore removed, 12,000 tons. There is a furnace at the mine with two stacks, having a capacity of fifteen tons daily to each stack. The gross production of the mine to January 1, 1874, was \$876,000 ; net production, \$336,000.

Occident Mine — Immediately south of the Winamuck and opposite the Dixon Bar in Main Bingham Canon ; shaft seventy-five feet deep ; five-foot vein of carbonate ore ; a true fissure ; E. B. Shoebridge & Co., owners.

Dorset Mine — South-east of the Winamuck, in the same range of hills, and in the next gulch south of Bingham Canon. Shaft seventy feet ; four-foot vein ; good prospect.

Silver Hill — Below the Spanish in Main Bingham ; open cut, 500 feet ; drain tunnel run to intersect the vein at right angles ; two shafts ; carbonate and galena ores ; owned by Carson & Buzzo.

Rough and Ready — In Bear gulch ; tunnel seventy feet ; five shafts, respectively, No. 1, eighty feet ; No. 2, eighty feet ; No. 3, sixty feet ; No. 4, twenty feet ; No. 5, ten feet ; 350 tons of ore removed ; owned by John Tiernan & Co.

Wasatch — Copper Canon ; tunnel 200 feet ; shaft, 100 feet, exposing a large body of carbonate ore, carrying twenty

ozs. silver and fifty per cent. lead; owned by Cook, Haner & Co.

Miner's Dream and Monte Christo—Yahoo gulch; two tunnels, seventy-five feet each, 150 feet apart, intersecting the vein at right angles; owned by Tierman & McManus.

Sampson—In Copper canon, a thousand feet east of the Wasatch; tunnel, 100 feet; shaft, 40 feet; eighty-inch vein of carbonate ore, carrying 15 ounces silver per ton, and 50 per cent. lead; owned by D. B. Akey.

Sultan—On Jordan hill; two shafts; No. 1, 105 feet; No. 2, 52 feet in depth; levels, 80 feet; prospecting shafts, 140 feet; 60 tons of ore removed; Michigan incorporation; James Harrington, Superintendent.

Copperopolis—In Main Bingham; two shafts, 30 feet and 15 feet; copper ore, assaying 30 per cent; owned by Haskell & Co.

First N. E. Extension Yosemite—In Butterfield canon; developed by a tunnel 250 feet, vertical shaft, 90 feet; incline shaft, 80 feet; formation, quartzite and limestone; vein, from four to ten feet in width; ore, galena and carbonates; owned by Haskell & Co.

Oro Mine—In Markham's fork; vertical shaft, 110 feet; ore, chlorides and sulphurets; formation, limestone; owned by Haskell & Co.

Osceola and Lucky Boy—In Black Jack gulch; developed as follows: Shaft No. 1, 296 feet; tunnel No. 1, tapping the vein and connecting with shaft, 200 feet; from surface, 127 feet; tunnel No. 2, 117 feet; drift, 100 feet, connecting tunnels 1 and 2; drift on the vein, 75 feet; tunnel 60 feet in length, connecting with the drift; shaft No. 2, 80 feet deep; 260 tons of ore removed; ores, carbonates and black sulphurets; owned by Warren Hussey, Col. Akers & Co.

Cræsus Mine—In Carr fork; incline shaft, 250 feet; tunnel, 550 feet; 260 feet from the mouth of the tunnel connection is made with the incline shaft; two air shafts are sunk from the surface level to the tunnel levels; and drifts, 500 feet; incorporated and owned by a Pittsburg company.

Washington Lode—Near the head of Main Bingham; vertical shaft, 100 feet; the vein carries carbonate ores; owned by Dixon & Co.

Ontario Lode—In Bingham cañon; shaft twenty-five feet and a tunnel sixty feet; owned by J. W. Watson & Co.

Blue Jacket—In Lower Bingham, on Winamuck hill; three shafts, respectively seventy-five feet, forty feet, and

sixty feet deep ; levels, 200 ; incorporated and owned in Utah.

Grand Cross Lode — Bear gulch ; shaft, thirty feet ; tunnel, eighty feet ; open cut, fifty feet ; John Tiernan & Co., owners.

Oneota Lode — Near the head of Bear gulch ; discovery shaft, fifty feet deep ; tunnel 275 feet long ; 100 tons of ore removed ; assays forty ounces silver, \$27 gold and fifty per cent. lead ; owned by James Finch.

Scrub Oak — In Carr Fork ; shaft, seventy feet ; tunnel No. 1, fifty feet ; tunnel No. 2, forty feet ; carbonate and galena ores ; formation limestone and porphyry ; owned by Vincent & Co.

Lillian Lode — In Muddy Fork ; tunnel 120 feet long ; shaft, thirty-five feet deep ; formation, porphyry and lime ; Vincent & Co., owners.

Last Chance — Near the head of Carr fork ; developed by an incline shaft 210 feet deep ; the main tunnel just started has been run to a distance of fifty feet ; levels, drifts, etc., 820 feet ; ledge at the bottom of incline three feet in width, incased between walls nearly vertical ; strike of the vein is nearly north and south, cutting the formation at right angles ; true fissure vein in syenitic porphyry ; incorporated and owned in London ; M. T. Patrick, Superintendent.

Eagle Bird — In Black Jack gulch ; in the formation known as "old trap rock," and porphyry similar to the Comstock lode of Nevada ; ore is composed of quartz, carrying sulphate of iron, copper pyrites, and a small per centage of lead ; developments, two shafts, respectively 130 and fifty feet, connected by an adit or level fifty feet from the surface ; tunnel in thirty feet, designed to strike the main shaft at its foot, 130 feet from the surface ; estimated length of tunnel when reaching main shaft, 260 feet.

Old Times — In Black Jack gulch ; half a mile from the Eagle Bird, and of similar formation, with a higher grade ore for silver ; developments, two shafts, each twenty feet deep, and a tunnel cutting the vein at right angles has been driven in 140 feet.

Revere — Yosemite gulch ; incline shaft, fifty feet ; tunnel, fifty feet ; hanging wall limestone ; foot wall quartzite ; contact vein ; ledge, twelve feet in width ; ore, grey carbonates ; Wm. Botsford & Sons, owners.

Peabody — In Muddy fork ; three open cuts twenty feet each ; tunnel, sixty feet ; drift, twenty feet ; tunnel on vein,

fifty feet following ore all the distance; cross drift, twenty feet; Wm. Botsford & Sons, owners.

Comfort — In Main Bingham; discovery shaft, thirty-five feet; tunnel, 200 feet; owned by Wm. Botsford and others.

The placer mines of Bingham have produced largely, and are now being worked with profit. The gross product of the placers is estimated at \$250,000. The placer mine, one-half mile above Dry Fork, at Crowley's Point, and owned by Geo. W. Crowley, has yielded \$30,000, leaving a profit over expenses of \$10,000. Other placers are being worked in the camp that promise better results the next season than ever before.

The district produces more ore than any other one in the Territory. All of the ore commands a ready sale, as it smelts readily, and is of great value in reducing ore of a higher grade. The camp can show most of the variety of ores produced in the Territory.

Nearly the entire mountain range of the western and central part of the Territory are divided into organized mining districts, but in most of them work sufficient has not been done to furnish material for compilation.

OTHER DISTRICTS.

There are a number of other mining districts in Utah, but though the discoveries in several of them indicate undoubted wealth, the developments are limited compared with those already noticed. The most important are:

DRAPER DISTRICT.—Organized May 7th, 1872, lies between the Little Cottonwood and American fork districts. Not a great deal of work has been done, owing in a great measure to owners of lodes lacking capital to develop. There are eleven mines being worked in the district; containing copper, silver, and iron. The Shoebridge & Ennis Consolidated Tunnel and Mining company, are running a 250-foot tunnel to tap their shaft at about 200 feet deep. There is every indication that they will strike the main lead at that depth. Specimens of pure native copper have been discovered in seams. The owners contemplate putting up concentrating works on the property immediately. Work can be prosecuted in the district the whole year round, being situated in the low hills. The proximity to the rail-

road at Draper station makes it altogether a very desirable location for mining purposes.

HOT SPRINGS MINING DISTRICT.—Organized December 9, 1870; situated north-east of Salt Lake City. Its boundaries are: Commencing at a point where the south line of Davis county intersects the Jordan river and running south up the channel of the river to the Sixth ward bridge; thence east to Emigration canon, and up the canon to the summit of "Big Mountain," where the old road crosses; thence north along the ridge of said mountain to the south line of Davis county; thence west to the point of beginning. About sixty locations have been made, some of them looking well in silver and iron. The Adams district has been organized out of the Hot Springs district.

ISLAND DISTRICT.—Embraces the whole of Fremont island, in Great Salt Lake. It was organized August 3, 1871. The first developments made on the island were under the auspices of the Utah and Nebraska Mining company. There are thirty-eight lodes located in the district, and considerable work has been done there. Among the most notable lodes are the Davis, copper lode; Queen Catherine, silver; the Island, silver. Gold-bearing quartz is found all through the district. A slate quarry has been located on the island, which will undoubtedly prove remunerative to the owners.

OGDEN JUNCTION MINING DISTRICT.—Organized April 22, 1871; in which has been recorded 275 locations, none of them worked sufficient to test their real value, except the iron mines, which included most of the late locations. There has been as much as \$1,000 laid out on each of several mines, and some have been sunk to the depth of 60 feet. The district contains iron, zinc, antimony, and cinnabar, with a small per centage of silver and of copper. The iron ore, of which there is plenty, has been tested and pronounced of a good quality.

PINTO DISTRICT.—In Iron county, may be considered practically the pioneer of iron mining and manufacturing, although some iron was reduced and worked in the same region over twenty years ago. The Great Western Iron Mining and Manufacturing Co. have, at Iron City, in this district, a blast furnace, an air furnace, a foundry, machine shops, drying house, and other requisites for carrying on the manufacture of iron, and are making arrangements for extensive developments of their property. They own thirty

iron locations, one zinc location, with the vein traceable 6,000 feet, and assaying fifty per cent. metal, and three silver-bearing locations, one having a tunnel in seventy-five feet, assays from the ore, which is free milling, showing \$171 of silver to the ton. Other claims are located in the district, but little development has been done on them. Coal also exists extensively in the district.

SNAKE CREEK DISTRICT — About thirty miles from Salt Lake City, and some twenty-five miles from the U. P. R. R., on the eastern slope of the Divide, between the Little and Big Cottonwood. The leading mining claims are the Lalla, with a shaft down some fifty to fifty-five feet, and two other shafts about fifteen feet deep, having an open cut of twelve-foot face to the tunnel; a vein over seven feet; assays from twelve and a-half to sixty-two per cent. copper; sufficient ore on the dump and in sight to justify the erection of smelters for the reduction of copper; owned by Springer, Nichols & Co.; The Shark, Emily, Hattie, Empress, Blue Jacket, Mary Jane and Matilda; all promising locations.

SALT LAKE CITY.

Salt Lake City is situated at the foot of a spur of the Wasatch mountains, its northern limits running up unto the "bench," or elevated portion of the valley, which reaches to the base of the mountains. It can be approached from the east by two cañons—Emigration cañon, through which nearly all travel formerly passed, and which debouches in the valley between three and four miles from the city; and Parley's cañon, through which the stage road ran before the Pacific railway was completed. The mouth of the latter canon is some six miles from the city, in a south-easterly direction, and the road between them runs past a tannery, two woolen mills, and a paper mill, all worked by the water of the creek that dashes down the canon hollow. The scenery in each is bold and impressive, the mountain sides of these passes in the Wasatch range rising with wild abruptness from extremely narrow gorges, and covered on their summits with pine, maple, oak, and other kinds of timber, extensively used for lumbering purposes and fire wood. Nearly thirty miles to the south the range juts across the valley, partially separating it from Utah valley, which contains the lake of the same name. To the west of the valley rises the Oquirrh range of mountains; and north of them, about eleven miles from the city, in a northwesterly direction, lies Great Salt Lake. The streets in the main portion of the city are laid out at right angles, and run north and south, east and west. They are 132 feet wide, with rivulets of water gurgling down each street, used for irrigation, and for culinary purposes where wells are not sunk. The culture of shade trees, which have a rapid and healthy growth from these streams, is much encouraged, and as almost every lot has an orchard, when the summer foliage clothes fruit and shade tree with a full covering of green, the picture which the city presents is exceedingly pleasant and beautiful. The blocks contain ten acres each, and were

originally laid out to contain eight lots to the block; but the growth of business, and other causes, have changed this design in the center of the city, where the buildings are erected closer together. In the twentieth ward, the northeast portion of the city, which is a survey of more recent date than the first settled part, the blocks contain only two and a half acres each, and the streets are proportionately narrow; and a portion of the 17th and 19th wards, in the north-west part, contains crooked and irregular streets, caused by the peculiar character and irregularities of the ground. The city contains about 26,000 inhabitants. It has several tanneries, grist mills, sampling works, the woolen factories mentioned before, the paper mill, a pail factory, steam wood working factories, furniture factories, large adobe yards, brick yards, etc., etc. Its City Hall cost \$70,000.

MUNICIPAL ORGANIZATION.

Mayor.—Daniel H. Wells.

Aldermen.—Isaac Groo, George Crismon, Jeter Clinton, John Sharp, Alex. C. Pyper.

Councilors.—Brigham Young, Sr., Theodore McKean, Albert Carrington, John R. Winder, Henry Grow, Nathaniel H. Felt, David McKenzie, Feramorz Little, Thomas Williams.

Standing Committees.—On Municipal Laws: Messrs. Sharp, Carrington, McKean and Winder; Ways and Means: Messrs. Clinton, Felt and Williams; Claims: Messrs. Pyper, Little and Williams; Improvements: Messrs. I. Groo, McKean, H. Grow and Williams; Unfinished Business: Messrs. Pyper, Felt and Winder; Elections: Messrs. Crismon, McKenzie and Carrington; Police: Messrs. Clinton, McKenzie and Felt; Public Grounds: Messrs. Sharp, Winder, Little and Carrington; Revision: Messrs. Pyper, McKenzie and Carrington; License: Messrs. I. Groo, H. Grow and Williams; Public Works: Messrs. I. Groo, Winder, H. Grow and McKenzie; Finance; Messrs. Pyper, McKean and Williams; Cemetery: Messrs. Crismon, Felt and H. Grow; Markets: Messrs. Crismon, H. Grow and Little; Insane Asylum: Messrs. Clinton, McKean and Little; City Prison, Messrs. Sharp, Winder and Carrington; Streets and Alleys: Messrs. I. Groo, Winder, McKenzie and Little; Fire Department: Messrs. Crismon, Felt, McKean, Winder and Williams; Quarantine: Messrs. Clinton, McKean and Felt;

Dunford & Sons, Wholesale & Retail Dealers in Boots & Shoes.

Water Works : Messrs. Sharp, Carrington, H. Grow, Little and McKenzie.

City Attorneys.— Snow & Hoge.

Chief of Police.— Andrew Burt.

Chief Engineer of Fire Department.— J. D. T. McAllister.

City Agent.— Isaac Groo.

Inspector of Buildings.— A. H. Raleigh.

Inspector of Liquor.— Robert Campbell.

Inspector of Provisions.— Jesse C. Little.

Inspector of Wood and Lumber.— H. Dinwoody.

Market Master.— Andrew Burt.

Marshal.— J. D. T. McAllister.

Recorder.— Robert Campbell.

Sealer of Weights and Measures.— Martin H. Peck.

Sexton.— Joseph H. Taylor.

School Inspectors.— J. R. Park, Robert L. Campbell, H. I. Doremus.

Supervisor of Streets.— Isaac Groo.

Surveyor.— Jesse W. Fox.

Treasurer.— Paul A. Schettler.

BENEVOLENT ASSOCIATIONS.

HEBREW (LADIES') BENEVOLENT ASSOCIATION.

President, Mrs. H. M. Cohen ; Vice-President, Mrs. D. Mendelsohn ; Secretary, Mrs. G. Selig ; Treasurer, Mrs. C. Goldman ; Trustees, Mesdames J. M. Joelson, C. Popper, and Hannack.

HEBREW (GENTLEMEN'S) BENEVOLENT ASSOCIATION.

President, C. Popper ; Vice-President, M. Herschman ; Secretary, M. Wasserman ; Treasurer, I. Watters ; Trustees, Chas. Adler, Sol. Levy, L. Arnstein.

MASONIC BOARD OF RELIEF OF SALT LAKE CITY,

Consists of three members from each Subordinate Lodge ; its object to relieve needy and distressed Masons not members of Lodges in Salt Lake City ; and is supported by a *pro rata* tax from every member. Charity Committee for 1874 of Felix Rheinbold, S. J. Nathan and Luke Voorhees, to whom all applications for Masonic charity, must be made.

Regular meetings at Masonic Hall on the first Sunday of each month at 2 o'clock P.M. President, 1874, Charles W. Bennett; Secretary, 1874, George W. Thatcher.
Relief Societies in each of the Twenty Wards.

CHURCHES.

TABERNACLES.

Temple Block, entrances south and west sides.

ST. MARK'S EPISCOPAL CHURCH.

First South, between 2nd and 3d East.

ST. MARY MAGDALENE (Catholic).

Second East, between South Temple and First South.

METHODIST EPISCOPAL CHURCH.

Third South, between East Temple and First East.

PRESBYTERIANS.

Worship in Liberal Institute, 2nd East, between First and Second South.

CONGREGATIONALISTS.

Worship in Independence Hall, Third South, between East and West Temple.

SPIRITUALISTS.

Meet in Liberal Institute, 2nd East, between First and Second South.

WARD MEETING HOUSE.

In each Bishop's Ward.

EDUCATIONAL.

UNIVERSITY OF DESERET.

Chancellor—D. H. Wells; Regents—David O. Calder, Joseph A. Young, Robert L. Campbell, George J. Taylor, George Reynolds, Albert Carrington, George Q. Cannon, David McKenzie, Henry W. Naisbitt, Brigham Young, Jr., Henry I. Doremus, Isaac Groo; Treasurer—Thomas W. Ellerbeck. Classes meet in Council House, sw. corner of South Temple and East Temple. Dr. J. A. Park, principal.

DUNFORD & SONS, PRACTICAL HATTERS.

ST. MARK'S SCHOOLS.

Rector—Right Rev. D. S. Tuttle, Bishop of the Diocese ;
Principal—Rev. Joseph W. Turner ; Grammar School—
Classes meet in St. Mark's School Building, First South be-
tween First and Second East ; St. Mark's School for Girls—
Classes meet in basement of St. Mark's Episcopal church,
First South between Second and Third East.

TWENTIETH WARD SCHOOLS.

School Buildings, 20th ward, on school house square, be-
tween Garden, Bluff, Spruce and Fir, Professor Karl G.
Maeser, Principal.

MORGAN'S COMMERCIAL COLLEGE.

Normal and Academical School, Building 1st South, be-
tween West Temple and First West. Edna Snell Poulson,
Principal.

FOURTEENTH WARD SEMINARY.

Classes meet in 14th Ward Assembly Rooms, First South,
between West Temple and First West. Prof. O. H. Riggs,
Principal.

ROCKY MOUNTAIN SEMINARY.

Classes meet in M. E. Church Building, 3d South, between
East Temple and First East, north side. Professor F. S.
Stein, Principal.

RAGER'S SEMINARY.

Classes meet in 13th Ward Assembly Rooms, 2nd South,
between First and Second East, north side. Professor W.
H. Rager, Principal.

SOCIAL HALL GRADED SCHOOL.

Classes meet in Social Hall, First East, between South
Temple and First South. Miss Mary E. Cook, Principal.

SEVENTH DISTRICT SCHOOL.

Seventh District School House, Fifth South, between West
Temple and First West. Mr. Frank Lee Chauvin, Principal.

FIFTEENTH DISTRICT SCHOOL.

Fifteenth District School House, First South, between
Third and Fourth West. Mr. R. B. Tripp, Principal.

A ward school in each of the other wards, and several private schools throughout the city.

FIRE DEPARTMENT.

The Salt Lake Fire Department was reorganized 27th March, 1871; John D. T. McAllister, Chief Engineer; Andrew Burt, George M. Ottinger, Henry Dinwoody, Assistant Engineers; Joseph E. Taylor, Secretary.

Pioneer No. 1—Charles M. Donelson, Foreman; John Reading, Assistant; Charles M. Donelson, Jr., Secretary. This company is composed of seventy members, including officers. A Silsby rotary steamer, large size, and reel, and 500 feet of carbolized rubber hose.

Eagle (Hook and Ladder) No. 1—William L. Binder, Foreman; John K. Hall, Assistant; Joseph E. Taylor, Secretary. This company numbers thirty, with hooks, ladders, ropes, buckets, axes, etc.

Alert Hose, No. 1—Richard W. McAllister, Foreman; James White, Assistant; John W. Snell, Secretary. Has a four-wheel spring and cylinder carriage, 600 feet of carbolized rubber hose, spanners, axes, bells, signal light and lanterns; thirty-five men all told.

Wasatch, No. 2—Fred. May, Foreman; A. R. Wright, Frank May, Assistants; Wm. D. Startup, Secretary. This company has a Cowing, New York built hand-engine, and a reel with 500 feet of carbolized rubber hose, axes, picks, buckets, shovels, lanterns, and forty-four members.

Vigilance, No. 3—Andrew S. Gray, Foreman; Andrew S. Johnson, Assistant; Nathaniel V. Jones, Secretary and Treasurer. This company has a Salt Lake built hand-engine, complete, with lanterns, etc.; numbers thirty members all told.

Deseret, No. 4—At railroad depot; Samuel N. Hill, Foreman; Eugene B. Callay, Assistant; Douglas A. Swan, Secretary and Treasurer. This is a steam fire company, hose, reel, etc., 1,000 feet carbolized rubber hose, and 100 members.

GAS WORKS,

Organized May 25, 1872; President, D. H. Wells; Secretary and Superintendent, T. W. Ellerbeck; Treasurer, James Jack; Engineer, J. B. Chichester.

GERMANIA SEPARATING WORKS,

The only works of the kind in Utah. Seven miles south of Salt Lake City; built in 1872; operated by Flach's process;

DUNFORD & SONS SOLICIT ORDERS from TOWN & COUNTRY TRADERS.

worked in 1873, 4,100 tons of crude bullion (1,670 tons coming from Nevada) and producing in the same year, 560,580 ounces of silver, 6,710 ounces of gold, and a quality of lead equal to the best made. Charles Pfizer, President; F. W. Billing, Treasurer; G. Billing, Manager; A. V. Weise, Superintendent; Chas. Pfizer, F. W. Billing, Wm. Jennings, S. Haufmann, Wm. Sieger, G. Reitzenstein, G. Gravenhorst, Directors.

LIBRARIES.

Territorial Library, in City Hall, W. C. Staines, Librarian.
Ladies' Library Association, First South Street, between East and West Temple. Mrs. Haydon, President; Mrs. McKean, Vice-President; Mrs. Rennett, Treasurer; Miss Georgia Snow, Secretary; Mesdames, Overton, Spicer, Hollister, Conlee, and Stratton, Executive Committee.

Grand Lodge Library, A. F. and A. M., organized November, 12, 1872; volumes 150, with a prospect of a large increase; object to furnish the brotherhood with Masonic literature; supported and maintained by voluntary contributions; Library rooms at Masonic Hall; Christopher Diehl, Grand Librarian.

MUSEUM.

In the cabinets of this institution will be found much relating to the early history of Utah, from its first settlement to this time. Specimens of early art in sculpture, paintings and photographs; native products and manufactures in silk, cotton, cloth, paper, type, etc.; early publications, prints, Utah gold and coinage, currency, etc. All the characteristic ores and minerals of the territory; unique specimens of Utah petrifications, concretions, fossils, etc. A large and varied collection of all kinds of Indian curiosities,—dresses, war-weapons, scalps, ornaments, and implements. Ancient pottery from the Mounds of Utah; crania of red men, and relics of the past. Early evidences of the advent of the white man; Kit Carson's boat from the Lake; specimens of native animals, birds and reptiles. This museum was opened by the proprietor, John W. Young, in 1869, from which time curiosities have been collected until it has become a very complete exposition of Utah products, mineral resources and industry.

DUNFORD & SONS, RECEIVE FRESH GOODS

NEWSPAPERS.

Deseret News—Daily, semi-weekly and weekly; D. O. Calder, editor and publisher; corner East Temple and South Temple.

Footlights—Theatre programme; McEwan, Thompson & Graham, publishers; corner First South and First East.

Herald—Daily and semi-weekly; published by John T. Caine, Edward L. Sloan and Wm. C. Dunbar; First South, near East Temple.

Juvenile Instructor—Semi-monthly; George Q. Cannon, editor and publisher; *Deseret News* building.

Real Estate Circular—Weekly; Riter & Young, publishers; First East, between First and Second South.

Tribune—Daily and weekly; Tribune Publishing Co. proprietors; East Temple, between South Temple and First South.

Utah Mining Gazette—Weekly; Perris, Saulsbury & Isaacs, proprietors; First South, between East and West Temple.

Utah Posten (Danish)—Weekly; P. O. Thomasson, proprietor and editor; East Temple.

Woman's Exponent—Semi-monthly; Mrs. L. Greene Richards, editor, West Temple, between South Temple and First South.

G., Geo. F. Prescott; O. G., C. Greenbaum; P. C., L. J. Holmes. Meetings, Tuesday evenings, at Odd Fellows Hall.

MASONIC.

Grand Lodge of Ancient, Free and Accepted Masons of Utah, organized January 16, 1872, holds its Annual Grand Communication on the second Tuesday in November in each year. There are at present under its jurisdiction six lodges, three in Salt Lake City, one in Provo, one in Corinne, and one in Ogden. Total membership, 350 Master Masons. The Grand Lodge is in a healthy and prosperous condition, and is recognized by all the Grand Bodies in the United States and Europe as the supreme Masonic power for ancient Craft Masonry in the Territory of Utah. Louis Cohn, Most Worshipful Grand Master; Christopher Diehl, Right Worshipful Grand Secretary, for 1873 and 1874.

Wasatch Lodge No. 1, A. F. and A. M.— Regular meetings the second and fourth Friday in each month, at Masonic Hall (Trowbridge's building); Charles W. Bennett, W. M.; Emanuel Kahn, Secretary.

Mount Moriah Lodge No. 2, A. F. and A. M.— Regular meetings the second and fourth Monday in each month, at Masonic Hall; Samuel J. Nathan, W. M.; Christopher Diehl, Secretary.

Argenta Lodge No. 3, A. F. and A. M.— Regular meetings the first and third Tuesday in each month, at Masonic Hall; Theodore F. Tracy, W. M.; Joseph Teyson, Secretary.

St. John's Lodge of Perfection—Regular meeting the second Thursday in each month. Theodore F. Tracy, T. P. G. B. A. M. Froiseth, Secretary.

Utah Royal Arch Chapter No. 1—Regular meetings the first and third Saturdays in each month. Theodore F. Tracy, H. T.; S. H. Hanland, Secretary.

Utah Commandery Knights Templar No. 1—Regular meetings the first and third Thursdays in each month. Theodore F. Tracy, E. C.; James Lave, Recorder.

RED MEN.

Washakie Tribe No. 1, Improved O. R. M.— William P. Applely, S.; Ed. Connelly, S. S.; J. C. Laurence, J. S.; George W. Bortwick, C. R.; Samuel Kahn, K. of W. Stated councils every Wednesday evening at half-past seven o'clock, at Odd Fellows Hall.

Pocatallo Tribe No. 2, Improved O. R. M. — G. E. Reid, S.; J. C. Skipper, S. S.; R. F. Nicholls, J. S.; A. J. Riley, C. R.; J. E. Riley, K. of W. Stated councils every Monday evening at half-past seven o'clock, at Odd Fellows Hall.

CAMP DOUGLAS.

The following condensed extract of an address by Gen. Morrow, delivered Dec. 26, 1873, on the occasion of raising a flagstaff, contains the history of the post.

The occasion of raising, for the first time, the national flag on the new flagstaff, just erected at Camp Douglas, seems appropriate for giving a brief history of the post. Before doing this, however, it will not be out of place to give a succinct narrative of the connection of the army of the U. S. with Utah. Lieut. John C. Fremont, in his explorations of the Rocky mountains, passed through Utah, then a part of Mexico, in 1842, and *briefly referred* to it in his report. It was then a wilderness; not a white man, so far as is known, at that time resided within the present limits of the Territory. The Mormons in their exodus from Illinois came here in 1847, encountering in their journey thither such hardships and sufferings as few people, even in this land of emigration, have been called upon to endure. In 1848, by the treaty of peace with Mexico, Utah was ceded to the United States. In 1850, a territorial government was pro-

Our Motto is to please. DUNFORD & SONS.

vided for the Territory. Col. Steptoe, 6th U. S. Infantry, wintered in Salt Lake with his command, in 1855; in the spring of 1856, he marched to California. Gen. Sidney A. Johnston, afterwards famous in the Rebellion, especially at Shiloh, in the early summer of 1858, came to Utah with about 5,000 men and made a permanent camp at what is known as Camp Floyd, in the neighborhood of the now famous mining district of that name. The "Army of Utah," as it was familiarly called, remained in the Territory until 1861, when it returned to the states to participate in the war of the Rebellion. In the fall of 1862, Col. P. E. Connor, commanding 3d California Volunteers and a regiment of Nevada troops, came to Salt Lake, and under orders established a permanent post at Camp Douglas. The "overland" travel was at this time menaced by Indians, and Salt Lake was selected for a permanent camp, on account of its central position and the facilities it offered for supplying the troops with what was necessary for their support. The site of the present post was selected by Col. Connor on the 20th day of October, 1862, and was named in honor of Stephen A. Douglas, the distinguished senator from Illinois. The reservation is two miles square and contains 2,560 acres. At first it was only one mile square, but subsequently was enlarged to its present dimensions. The first flagstaff was cut in the Wasatch mountains by the troops, and with infinite labor was brought to the camp. The staff now before you is a native of the Sierra Nevada mountains. The large trees of these surrounding elevations have all been cut down — if suitable trees for the purpose could have been found in the Wasatch, I should have considered it little less than sacrilege to have placed on this parade any other flagstaff than a native of the country. There was no railroad in 1862. Everything was scarce, and if procurable at all, procurable only at high prices. The troops wintered in 1862-3 in "dug-outs," and in 1863 the permanent quarters were begun. The work was all done by the volunteers; and it is a tribute to the ingenuity and enterprise and industry of our volunteer soldiery, and a commentary on our "regular" establishment, when I say that little has been done to the quarters or barracks of the Post since the volunteers left them. The only articles used in the construction of the buildings which cost the Government a dollar were the nails and shingles. The industry and enterprise of the soldiers supplied everything else. Our little cemetery, "God's Acre," as the Germans

call it, was first honored by having laid in its soil the body of Lieutenant Chase, Second California Volunteers. Since that day other spirits have been laid in repose under the shadow of these mountains in our "God's Acre," but let me say here, my comrades and fellow-citizens, that for myself I would desire no more sacred soil than that of Utah in which to repose after life's fitful fever is over, and no other noble monument to guard my remains than these towering heights. In the spring of 1863, Colonel Connor was made a Brigadier General. He was succeeded in the command of Camp Douglas by Colonel Robert Pollock, who also succeeded him in the command of the 3d California Volunteers. In 1865, Col. George, 1st Nevada Volunteers, was in command of Camp Douglas. The war of the Rebellion ended, the "regular" troops came again to Utah, and Major William H. Lewis, 36th Infantry, came to command Camp Douglas, in the summer of 1866, relieving Col. Potter, 5th U. S. Vols. Major Lewis remained in command of the Post until the summer of 1869, when he was relieved by Gen. John Gibbons, of the 7th Infantry, and Gen. Gibbons remained here about one year, when he was relieved by Gen. De Trobriand, 13th Infantry. Gen. De Trobriand vacated the command in October, 1870, for the purpose of visiting Europe, and Lieut. Col. Morrow succeeded him. Gen. De Trobriand returned in July, 1871, and remained until October, when he was relieved by Lieut. Col. Morrow, the officer now in command. Many of the improvements made at the Post are the work of Gen. Gibbons or the result of his suggestions.

The officers at the post are: Lt. Col. H. A. Morrow, commanding; Major E. P. Vollum, surgeon; Capt. E. B. Carling, A. Q. M.; Capt. A. L. Hough, 13th Infantry; Capt. R. Nugent; Capt. D. S. Gordon, 2d Cavalry; Capt. F. E. DeCourcy, 13th Infantry; Capt. W. H. Bisher, 4th Infantry; Capt. I. T. McGinnis, 13th Infantry; Capt. W. M. Waterbury; Capt. P. H. Ellis; 1st Lieut. Wm. Anman, 13th Infantry; 1st Lieut. H. G. Cavanaugh, 13th Infantry; 1st Lieut. J. A. Olmsted, 13th Infantry; 1st Lieut. T. S. Mumford, 13th Infantry; 1st Lieut. P. H. Breslin, 4th Infantry; 2d Lieut. W. A. Dinwiddie, 2d Cavalry; 2d Lieut. M. F. Jamot; 2d Lieut. R. Birnie; 2d Lieut. S. N. Holmes; 2d Lieut. M. W. Lyon; 2d Lieut. B. H. Gilman.

CANVASSERS WANTED.

To appear during the present season: FROISETH'S NEW MINING MAPS OF WEST MOUNTAIN and TINTIC MINING DISTRICTS.

Maps of Mines and Mining Districts Made to Order upon Application.

THE
Salt Lake Tribune:

(DAILY AND WEEKLY,)

Published by The Tribune Printing Co.,

[Composed of the leading business men of Salt Lake City.]

No. 34 MAIN STREET.

It is a lively, ably edited Journal, devoted to mining and mineral development, and the material progress of Utah Territory. Its editorials are racy and original; its telegraphic columns filled with the latest news from all parts of the world, and its local items are fresh and reliable. It has a large and able

CORPS OF CORRESPONDENTS

in every mining district in the Territory, and its mining news is full and complete, and of the most reliable character.

THE TRIBUNE is the only Gentile paper published in Utah; is earnest in its advocacy of advancement and education, and is heartily sustained in its course by the entire Non-Mormon, Ex-Mormon and Liberal Mormon element in Utah.

Its columns are vigorous and outspoken, without descending to personalities or denominational strife.

TERMS FOR THE DAILY.

One copy, one year, by mail, - - - - -	\$10.00
" " six months, by mail, - - - - -	5.00
" " three months, by mail, - - - - -	3.00

Sacramento, San Francisco, and all Points on the Pacific Coast.

THE BEST AND MOST RELIABLE ROUTE TO DENVER AND
THE PLEASURE RESORTS OF COLORADO.

The Particular Attention of Tourists and Pleasure Seekers

IS INVITED TO THE

NEW ILLUSTRATIONS

Published in Crofutt's latest Guide of the magnificent pictorial views to be had on the trip across the continent. The cuts are made from photographic views, and are perfectly accurate. No American tourist should visit foreign lands before making this great overland trip; enjoying the beauties of the Great Platte Valley, and witnessing the sublime grandeur of the snowy range; the rugged scenery of the passage of the Rocky Mountain Summit (8,242 feet above the water); the Grand Park of Laramie Plains, with its boundless herds of grazing stock and wild antelope; Cooper's Lake; the Wasatch and Uintah Mountains; Echo and Weber Cañons, with their wonderful towers and natural castles, Steamboat Rock, Devil's Slide, Pulpit Rock and Devil's Gate; Great Salt Lake City, the home of the Mormons, with its Tabernacle, Temple, Medicinal Springs; fine hunting and fishing; the Humboldt Sink, where a great river disappears without a visible outlet; the Palisades; the towering peaks of the Sierra Nevadas; the beautiful mountain lakes of Donner and Tahoe; the passage of Cape Horn, etc., etc. These are some of the many attractions of this route which make it a two-thousand mile panorama without an equal in the world.

Arrangements are perfect for a comfortable trip to the Geysers, the Big Trees, the famous Yosemite Valley, and other pleasure resorts of California.

OMAHA now has First-Class Hotel accommodations, equal to any in the country, and being located midway between the Atlantic and Pacific coasts, affords the most convenient resting place for invalids and pleasure travelers who wish to break their journey across the continent.

PULLMAN'S PALACE DAY AND SLEEPING CARS

are run on all Express Trains, and Passengers are cautioned that only those who are ticketed *via* Omaha are sure of securing berths to points west of Cheyenne.

Double Berth—Omaha to Ogden, \$8; Ogden to San Francisco, \$6.

Through Tickets for sale at the Company's offices, 57 Clark street, Chicago; 287 Broadway, New York, and all principal ticket offices in the country. Members of Colonies and Local Excursion Parties should address the General Ticket Agent for rates and arrangements.
