THE UTAH DEMOCRAT.

OGDEN, UTAH.

THE UTAH DEMOCRAT is a young paper, but not necessarily a poor paper for advertisers. Quite the contrary. It is the only Democratic paper in Weber County. The county has a population of nearly 35,000. The city of Ogden has a population of over 20,000. THE DEMOCRAT keeps abreast of the times, and is widely read in all the towns in this immediate vicinity. If the advertiser cannot see what we are hinting at, he must be dull indeed.

INTRODUCTORY.

This is the third volume of R. L. Polk & Co's Ogden City Directory, which for completeness and accuracy has not been excelled. The contents of the book reflect credit upon the city, the data, showing, as they do, that the progress of Ogden in all lines has been gradual and substantial.

Many years of experience in the directory business enable the publishers to compile and publish such matter with the satisfactory feeling that serious errors cannot be committed under their perfect system.

The city directory has come to be regarded as a necessity in all business communities, and no systematic business man attempts to get along without it. Aside from the complete list of residents which it contains, it is valuable as a book of reference when anyone wants to ascertain anything about the condition, progress and resources of the city and its institutions.

A first-class directory is also a splendid advertisement for the city, as, by the exchange system now established by directory publishers, nearly every city in the country with a population of 50,000 is provided with a directory library, containing the directories of all cities, which are open for reference to the general public. The Ogden Directory will be placed in these libraries throughout the United States and Canada, thereby exhibiting the condition of Ogden to all classes in all localities, enabling the world to correspond with its citizens.

The publishers desire to congratulate their patrons upon the flattering prospects for the future, and return their thanks for the courteous treatment and liberal patronage accorded their representatives.

Respectfully,

R. L. POLK & CO.,

Publishers,

“The Rule of Cities is the Problem of the Age.”

JAMES W. BASHFORD, President Ohio Wesleyan University,
 in a speech at a mass meeting held at Music Hall at Cleveland,
 on Sunday, November 18, 1894, said :

“The rule of cities is one of the problems of the age.” In com-
 menting further upon this subject the doctor claimed that the study
 of this question by the intelligent portion of the nation's population
 is absolutely necessary to the preservation of the republic.

The American Land and Title Register is the only paper which
 makes a speciality of information pertaining to the regulation and
 government of American cities, and affords the best means of the
 study of “The Rule of Cities.”
