Salt Lake City.

Entered according to Act of Congress, in the year 1902, by R. L. Polk & Co., of Utah, in the office of the Librarian of Congress at Washington, D. C.

INTRODUCTORY.

We herewith present our 1902 edition of the Ogden City Directory and believe it will prove to be the most accurate and complete work of the kind ever issued for this city. We have, as heretofore, included the names of all the inhabitants of the suburban towns and villages, making a total of 8642 names—an increase of 447 over our last edition. Using the usual multiple of 3, we estimate the present population of the city and suburban towns to be

25,926.

It is with pride that we say the improvement in this directory, both in its increased size and in the increase of the patronage given is very gratifying to us, and we are glad to note that a very large majority of the business and professional men now realize the fact that an up-to-date Directory is absolutely necessary for a growing city like Ogden.

The use of directories is becoming more general every year, and their great importance as business factors is now universally recognized. There is nothing more conducive to the development and extension of commerce than an easy means of communication, such as is afforded by a complete and reliable directory. It is an unexcelled medium for use in the purchase of goods, and every business man should avail himself of the opportunity which it offers for the classification of his wares and for keeping his card where it may be found at all times by those who seek such information. Every business man should spend some of his leisure hours in examining the directory. He will find it full of profitable suggestions. A man who uses the directory will be infinitely more intelligent and successful than one who imagines he knows everybody.

Keep the directory in a convenient place for frequent reference and invite your customers to use it. You will know everybody and everybody will know you, and your establishment will become more popular and profitable.

This Directory is placed in the libraries of the directory offices of all the important cities of the country, where it is frequently consulted by non-residents, persons seeking investments, travelers, etc., and where it serves as a lasting advertisement for the city, its business men and its public and private institutions. To the many friends who have kindly furnished needed information and to the business men of the city who have stood by us so loyally in this publication, we return our hearty thanks, and promise on our part that we will publish the Ogden City Directory regularly, with such improvements from time to time as the wants of our patrons may require.

LOOSE LEAF ACCOUNT BOOKS

Enable you to increase the volume of your Business without correspondingly increasing the expense in your Accounting Department

DOES OUR PERPETUAL LEDGER SAVE YOU MUCH TIME?

3427 Bookkeepers who had used our books more than one year were asked this question
3396 of them replied in the affirmative

LEAVES ARE HELD IN A VISE-LIKE GRIP
WHEN BINDER IS CLOSED

PATENTED

THE PERPETUAL LEDGER

A leaf may be easily inserted or removed from any portion of the Binder without disturbing another

IN THE UNITED STATES

ADVANTAGES OF OUR SYSTEM

Perpetual

Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

All Items of an Account

Are kept together, no matter what length of time the account covers, or how active it may be.

Live Accounts Only

Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

Quick Reference

The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

Saves Time Posting and Balancing

As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

Arrangement of Accounts

Can be had as to locality, by states or salesman's territory, in alphabetical order, as to time of opening, or activity.

No Spacing Necessary

Each account is given a separate leaf. Active accounts can therefore have unlimited space.

Less Liability for Error

Accounts are more surely located, and with one account on each leaf the proper space is readily found.

Expansive

It admits of insertion of new accounts from time to time in proper place without disturbing any other.

Easily Handled

As both sides of the leaf are used for each account, a much smaller sized book can be used.

Facility

One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

Convenience

Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

Simplicity

A trial balance is more readily taken off. Tabulation or abstract is simplified and systematized.

Adaptability

Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

Economy

In every case it costs far less in the long run—less in material, less in time, less in labor.

OVER 12,000 BOOKKEEPERS NOW USING OUR LEDGERS TESTIFY TO THESE POINTS OF SUPERIORITY

SPECIAL LOOSE LEAF SYSTEMS

For the Purchasing Department

Requisition Order Systems in Manifold, Quotation Record, Cost Book, Purchase Record, Stock Report, Perpetual Invoice Filing System.

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K.'d invoice itself, and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent. of the amount of work done at present.

For the Sales Department

Order Blank System, Binders, Holders and Blanks; Manifold Order Books and Blocks.

We can create an Order System, suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order, and thereby eliminate all journalizing of sales.

Billing and Charging System.

Adapted to most any business — an invoice and journal entry being made at one writing.

Can be used either for typewriter or hand writing; produces an exact copy of every invoice.

Salesmen's Price Books, Route and Expense Reports, Advertising Information Reports.

For the Shipping Department

Safety Manifold Shipping and City Delivery Receipts and Books.

By the use of which errors in shipment are prevented and all possibility of loss through miscarriage eliminated.

Merchandise Envelopes.

For the mailing of merchandise, samples, etc., at 3d and 4th rates of postage.

Shipping Tags.

For the Accounting Department

In this department we offer the greatest labor-saving systems known to accountants. We can create for any mercantile or manufacturing business a complete system on the loose leaf plan whereby a daily statement of the condition of the business can be procured as soon as the day's posting is done, making a monthly trial balance unnecessary.

Perpetual Ledgers — General Sales and Creditors.

Perpetual Trial Balance and Proof Books, Journal, Cash and Other

Auxiliary Books.

On the loose leaf plan facilitate, to a great degree, the work of the accountant. We also furnish

Bills Payable and Receivable Forms, Voucher Systems, Check Registers,

Pocket Ledgers and Collection Reports.

Monthly Statement System.

Especially adapted to a credit business where an itemized statement is issued. By this system we save all itemizing in the ledger. It has many other commendable features.

Inventory System.

By which any number of clerks can work upon an inventory at one time without the necessity of rewriting. We also manufacture a complete line of high-grade

Ruled Sales and Letter Impression Books.

For the Manufacturing Department

We devise Special Factory Order Systems, Cost, Material and Labor Records, Time and Pay Roll Records, etc.

Factory cost accounting is one of our specialties, and we can provide a system by which an accurate account can be kept of all material, labor and expense, showing actual cost of each article produced.

For Banks

Loose Leaf Systems have become generally recognized as especially suitable for Commercial and Savings Banks, and have been universally adopted for

General, Individual and Liability Ledgers, Journals, Receiving Tellers' Reports, Clearing House Reports, Discount Registers and Ticklers, Check and Draft Registers, Collection Registers and Ticklers, Minute and Signature Books.

Our **Silica Daily Balance Book** offers many advantages over any other system of daily balancing. We have also devised many useful manifold forms for the Collection Department, saving time and labor.

IF YOU WANT THE MOST MODERN, UP-TO-DATE METHODS OF ACCOUNTING, LET US SYSTEMIZE YOUR BUSINESS

**FACTORIES: CHICAGO; ATCHISON, KANSAS
HOLYOKE, MASS.**

OUR SECTIONAL POST BINDER

Holds securely one sheet or one thousand.

Has no long and unsightly posts projecting to catch on everything and be in the way.

Can be opened and expanded to receive leaves without removing the cover.

It is equipped with one-half and six one-inch sections for each post.

It is particularly adapted for filing records of any kind that require indefinite expansion.

PATENTED MARCH 17, 1892. DECEMBER 19, 1899.

Securely Locked by mechanism in top cover.
Key-hole shown in lower left hand corner of cut.

We have 60 experts covering the entire country. If one is not located in your city, he can call on you in a few days if you will notify our nearest office.

We are the originators and manufacturers of the Perpetual Ledger and many other Loose Leaf Labor-Saving Systems.

OF THE UNITED STATES AND CANADA.

Numerous inquiries for a complete and reliable Directory of Flour Mills and Grain Dealers of the United States and Canada have induced us to utilize our unequalled facilities in the compilation of the work. It will be so complete as to commend itself and to prove invaluable to all who are interested in Milling and Grain.

Among the more important features will be

- List of all Mills, U. S. and Canada—capacity of each.
- Kind of Power Used.
- List of Cereal Mills—Buckwheat, Rye, Barley, Etc.
- Grain Elevators.
- Grain Brokers and Commission.
- Grain Buyers and Shippers.
- Flour Exporters.
- European Flour Importers.
- Wholesale Flour Merchants, U. S. and Europe.
- Wholesale Bakeries.
- Mill Supplies.
- Mill Machinery Manufacturers.

The above are the more prominent features of the work. It will be replete with information valuable and of interest to the Practical Miller, the Grain Dealer, the Machinery Manufacturer, and to all either directly or indirectly interested in milling, grain or allied trades.
